

New World Music

The Spiritually Motivating Music Album

Section 1: New Personality

1 Learning the Way to Life

A song about putting on the Christ-like personality.

A star will shine
Behind clouds of imperfection
And in time
Imperfect clouds drift away
Revealing the star that
Turns the night into day

Revealing what we are inside

Polished stones
Will shine with exertion
With many goals
Our heart can gleam in the light
As we find the way to
Always doing what is right

**Every healing heart
Will strive to be good
Learning the way to life
A healing heart
Can be misunderstood
Learning the way to life
We find who we are inside
Through Christ's sacrifice**

Just like a pearl
They are found in deep oceans
And like the heart
Qualities are there to be found
Waiting for the day
When our good traits will abound

A heart built for eternity

Hearts of gold
Are waiting to be discovered
Stories untold
They wait for the turn of the page
Finding who we are when
Our imperfections fade away

**Every healing heart
Will strive to be good
Learning the way to life
A healing heart
Can be misunderstood
Learning the way to life
We find who we are inside
Through Christ's sacrifice**

Instrumental

Polished stones
Will shine with exertion
With many goals
Our heart can gleam in the light
As we find the way to
Always doing what is right

**Every healing heart
Will strive to be good
Learning the way to life
A healing heart
Can be misunderstood
Learning the way to life
We find who we are inside
Through Christ's sacrifice**

A song about giving ourselves time before we react.

A heart can be fooled
When Imperfection takes over you
The heart will believe it knows what's right
While our Father has another view

In the fullness of time
A heart can change its mind

**When we give our heart
The gift of time
It can guide you
To do what's right
When we give our
heart
Chance to realign
We can be true
The way will be in our sight**

The light in your eyes
Can blind our very view
When we believe we know the way
Only the Father knows what's true

Life has many days
To search for our Father's ways

**When we give our heart
The gift of time
It can guide you
To do what's right
When we give our
heart**

**Chance to realign
We can be true
The way will be in our sight**

Instrumental

Haste is the shortest way
To create many mistakes
An uncertain heart lives in the dark
Let God's wisdom have a say

It will begin to shine
With the passing of time

**When we give our heart
The gift of time
It can guide you
To do what's right
When we give our
heart
Chance to realign
We can be true
The way will be in our sight**

A song about leaving our past selves behind.

God's ways in your heart and mind
Leaving all your old traits behind
His teachings that you can't forget
Never looking back with regret

The good knowledge belongs in you
And the old ways you overthrew

Your ways proved to be untrue
Until your heart learned God's truth

***You left your wicked ways
Left your wicked ways
And now they're gone
Yesterday is now where they belong
You left your wicked ways
Left your wicked ways
And now you're free
You can live your life for eternity***

God has taught you right from wrong
And now the former ways have gone
Your love has left your past behind
A new person has been defined

Your heart embraced the truth
A seed was planted and it grew

Your former self you left behind
As your heart has been refined

***You left your wicked ways
Left your wicked ways***

***And now they're gone
Yesterday is now where they belong
You left your wicked ways
Left your wicked ways
And now you're free
You can live your life for eternity***

Instrumental

The good knowledge belongs in you
And the old ways you overthrew

Your ways proved to be untrue
Until your heart learned God's truth

***You left your wicked ways
Left your wicked ways
And now they're gone
Yesterday is now where they belong
You left your wicked ways
Left your wicked ways
And now you're free
You can live your life for eternity***

A song about how God helps us to overcome our weaknesses.

There was a gravity pulling at you
When imperfection was in pursuit
And how those sins tore you apart
Stains that were spoiling your heart

What you wanted you couldn't do
With the pull of sin controlling you
Knowing what is right
Was taken by the night
While your love for God was shining through

**We can always achieve the impossible
When the God we know strengthens our heart
The miracles no matter how improbable
Are from the holy spirit that God will impart
We can always achieve the impossible
When the God we know strengthens our heart
The sin in our heart was unstoppable
Now God's spirit ensures sin never starts
The God we know strengthens our heart**

In these times there's another gravity
And a good heart can be found in you
Perfection is now a goal and a reality
God's ways are now showing through

What we wanted to do we couldn't do
When our imperfections were in view
We knew God's word
Loving what we heard
While our imperfections were found in you

**We can always achieve the impossible
When the God we know strengthens our heart
The miracles no matter how improbable
Are from the holy spirit that God will impart
We can always achieve the impossible
When the God we know strengthens our heart
The sin in our heart was unstoppable
Now God's spirit ensures sin never starts
The God we know strengthens our heart**

Instrumental

What you wanted you couldn't do
With the pull of sin controlling you
Knowing what is right
Was taken by the night
While your love for God was shining through

**We can always achieve the impossible
When the God we know strengthens our heart
The miracles no matter how improbable
Are from the holy spirit that God will impart
We can always achieve the impossible
When the God we know strengthens our heart
The sin in our heart was unstoppable
Now God's spirit ensures sin never starts
The God we know strengthens our heart**

The God we know strengthens our heart

A song about love, one of the greatest commandments.

Our love has so many gains
 Peace and unity without the pain
 Love is found in the true way
 Love has many good things to say

And the way of love
 We give and receive
 Go beyond and above
 With the love we achieve

***Follow the way of love
 It's a language
 always understood and
 Love's a beat
 Found in every heart as
 The way of love
 Is found in our God above***

The world could never find its way
 If brotherly love is taken away
 An unending beat found in our heart
 A vibrant colour in a work of art

And the way of love
 Binds us soul to soul
 We wear it like a glove
 Because love is our goal

***Follow the way of love
 It's a language
 Always understood and
 Love's a beat
 Found in every heart as***

***The way of love
 Is found in our God above
 Follow the way of love
 It's a quality
 In the stars above and
 It's loud enough
 For all to hear as
 The way of love
 Is found in our God above***

Instrumental

And the way of love
 We give and receive
 Go beyond and above
 With the love we achieve

***Follow the way of love
 It's a language
 Always understood and
 Love's a beat
 Found in every heart as
 The way of love
 Is found in our God above
 Follow the way of love
 It's a quality
 In the stars above and
 It's loud enough
 For all to hear as
 The way of love
 Is found in our God above***

A song about forgiveness and following the way of heaven.

Forgiveness is not a sin
It heals a broken heart
It's a loving quality
Setting Christian's apart

Love pumping in the veins
It's finding the way

Clouds clearing in the light of day

All the strongest winds
Disappear in the skies
And every tear of pain
Is becoming dry

Every pleasant word
Is the love shining through

In the mist is the way to follow
And we can make it through

***Imitate heaven
And let your love shine
Letting go of the sins they do
Forgiving transgression
For all time
Let forgiveness live within you***

Imperfection was the way
The same way found in you
Forgiveness is the way

For our love to be true

The spectrum in the sky
Broken hearts can't deny

And up above the stars are shining
Let the love shine in you

***Imitate heaven
And let your love shine
Letting go of the sins they do
Forgiving transgression
For all time
Let forgiveness live within you***

***Imitate heaven
And let your love shine
Letting go of the sins they do
Forgiving transgression
For all time
Let forgiveness live within you***

Instrumental

In the mist is the way to follow
And we can make it through

Choruses

A song about how love conquers everything.

Our imperfection knows
How bad feelings grow
When there's two points of view
The clashing bells have rung
Yet love shall overcome
We're starting the day anew

Love's never found in the cold
Because the ice is breaking up
Love's something to hold
It never lets hatred interrupt

**Love wins every time
There's no mountain to climb
Joy is found in forgiving one another
Love is found in our heart
And never falling apart
Because love wins every time**

Gone are the stormy skies
Pain eventually runs dry
Love always shines through
Ill memories drift away
With every passing day
When love is what we pursue

Love is melting the snow
Now the heart is coming back
Love is what we know
When the bonds now take the slack

**Love wins every time
There's no mountain to climb**

**Joy is found in forgiving one another
Love is found in our heart
And never falling apart
Because love wins every time**

**Love wins every time
And peace is defined
Love's a bond that'll never be severed
When love is found in the heart
It demands a new start
Because love wins every time**

Instrumental

Love's never found in the cold
Because the ice is breaking up
Love's something to hold
It never lets hatred interrupt

**Love wins every time
There's no mountain to climb
Joy is found in forgiving one another
Love is found in our heart
And never falling apart
Because love wins every time**

**Love wins every time
And peace is defined
Love's a bond that'll never be severed
When love is found in the heart
It demands a new start
Because love wins every time**

A song about the fruitage of the spirit.

Love creates a new personality
Joy is what's gained in its reality
Peace is a state in our heart and mind
Patience leaves all anger behind

Kindness helps our love and joy to grow
Goodness is the fruitage that we show
Faith is found in what we don't see
Gentleness is shown from a heart in peace

Our self control is a perfect fruit
With love always there at the root

***Good fruitage at the heart of the soul
Manifesting qualities good to behold
Found in all the love that we show
And our God makes them grow***

With every fruitage that the spirit brings
Can make you shine like our heavenly king
We strive to follow Christ's every step
Building a heart with added depths

Our self control displays good fruit
With God's spirit there at the root

***Good fruitage at the heart of the soul
Manifesting qualities good to behold
Found in all the love that we show
And our God makes them grow***

***Good fruitage at the heart of the soul
Is watered by the spirit in constant flow
The qualities that we strive to bestow
And our God makes them grow***

Instrumental

***Good fruitage at the heart of the soul
Manifesting qualities good to behold
Found in all the love that we show
And our God makes them grow***

***Good fruitage at the heart of the soul
Is watered by the spirit in constant flow
The qualities that we strive to bestow
And our God makes them grow***

9 God's Creation Took Many Days

A song about the time it takes to become perfect.

It can take some time
To ferment the wine
A full bodied heart of devotion
It can take a while
To walk another mile
To flee from worldly corrosion

We know the way
We freely learn it
To inherit everlasting life
We know the way
We come to teach it
To change what we are inside

***God's creation took many days
The heart can take a little while longer
God's creation took many days
Good fruitage takes time to grow stronger***

It can take the day
For rains to drift away
Washing the heart to perfection
It can seem like an age
For a heart to change
Learning under our Father's direction

We know the spirit
We came to receive it
And we're singing along
We know we change
We came to feel it
It comes from whom we belong

***God's creation took many days
The heart can take a little while longer
God's creation took many days
Good fruitage takes time to grow stronger***

***God's creation took many days
A heart can come to change in time
God's creation took many days
Allow each day add to a hearts shine***

Instrumental

We know the way
We freely learn it
To inherit everlasting life
We know the way
We come to teach it
To change what we are inside

A song about our new personality.

Wearing God's sayings
Upon your very sleeve
The happiest of endings
You're likely to achieve

***True knowledge is everlasting life
In the bonds of God's love***

Wearing true faith
Fit's just like a shoe
Moving every mountain
Nothing's impossible to do

***Great faith is everlasting life
In the bonds of God's love***

*Our dedication is a certainty
With the qualities we make
The spirit forms a personality
The image of our God it creates
Pursuing the Godly course
It can rejuvenate your face
Leaving the old ways behind
That only cause disgrace*

Wearing repentance
As if it were a glove
Humble apologetic hearts
Strengthens the bonds of love

***These traits make everlasting life
Your life,
In the bonds of God's love***

***These traits make everlasting life
In the bonds of God's love***

A song about considering the feelings of others.

Every feeling
Invisible to the human eye
Feeling low or feeling high

And what we say
Can affect the way
We make a brother's day

Every word
Will carry more than you know
They can be a friend or foe

And what we say
Always makes its way
To a brother's very soul

***Always see the feeling
Take a look at what you can't see
Always see the feeling
Treat them like how you want to be***

Every act
Can speak so many words
Armed with power to heal or hurt

And what we do
Shows affection too
Keeping feelings in our view

***Always see the feeling
Take control of your brother's heart
Always see the feeling
Building up not tearing apart***

Instrumental

And what we say
Always makes its way
To a brother's very soul

***Always see the feeling
Take a look at what you can't see
Always see the feeling
Treat them like how you want to be***

A song about the joy we feel with our knowledge of God.

Joy is found in every moment
Never only passing through
It's a door that never closes
It lives in everything we do

***With you all the way
Your friend every day
In everything you do
Let joy accompany you***

The joy assisting others
Is reflected in our eyes
It consists of many colours
Joy keeps our love alive

***Wherever you go
Let your joy show
In everything you do
Let joy accompany you
In everything you do
Let joy accompany you***

*The sun and moon together
Will journey back to the start*

*But the joy you find inside
Will never leave your heart
It's always stood beside you
And it never leaves your side
Daylight will come to disappear
But our joy always resides*

Instrumental

Found in every tomorrow
Your joy is shining through
Gone are tears and sorrow
Let the joy take over you

***Praising our God
Making everything new
In everything you do
Let joy accompany you
In everything you do
Let joy accompany you***

A song about forging a good heart in the fire.

You lived through your fears
And wiped away the tears
With your obedience
You have found the light
And used all your might
Throughout the trials intense

On the dark side of the earth
Our God shone the way
The times provided our tribulations
Our faith endured the days

***A good heart
Is forged in the fire
A good heart
Endures to win
And a good heart
Obeys in a perfect way
Strengthened to live forever
Making truth our endeavour
Through the storms
A good heart is true***

You became fine gold
Enduring the days too cold
Through our eyes we saw it all
With the truth we instilled
Climbed the steepest hills
Getting up every time we fall

Any doubts and fears disappeared

In the truth they were erased
Your course was true in all you knew
Waiting for the end of the days

***A good heart
Is forged in the fire
A good heart
Endures to win
And a good heart
Obeys in a perfect way
Strengthened to live forever
Making truth our endeavour
Through the storms
A good heart is true***

Instrumental

(Our faith endured the days)

***A good heart
Is forged in the fire
A good heart
Endures to win
And a good heart
Obeys in a perfect way
Strengthened to live forever
Making truth our endeavour
Through the storms
A good heart is true***

A song about walking in God's ways.

Every lie that was told
A step closer to nowhere
Light so dim you can't see
Opinions derive from the heart
Where perfection fell apart

Never knowing the way
Fuels the flames of confusion
Blinding the way to the truth
Many voices claimed the way
With only their own words to say

The seeds that they sow
Came from what they didn't know
Their own opinions they would choose
Forsook every page of the good news

***Our Father knows
He's the source of the truth
His knowledge you can't improve
His direction we live each day
Walk in His ways
He has shown
False religion had a broken key
Never opening to eternity
Walk in His ways eternally***

Reading God's word
Is a life changing journey
Lighting lamps in the dark
Every word of truth in the heart

Creating every good work of art

The seeds that are sown
Came from the one who knows
The scriptures declare his fame
And He signed them with His name

***Our Father knows
He's the source of the truth
His knowledge you can't improve
His direction we live each day
Walk in His ways
He has shown
False religion had a broken key
Never opening to eternity
Walk in His ways eternally***

Instrumental

***Our Father knows
He's the source of the truth
His knowledge you can't improve
His direction we live each day
Walk in His ways
He has shown
False religion had a broken key
Never opening to eternity
Walk in His ways eternally***

A song about being transformed by the truth of God's word.

Every word, that you heard
In your heart it has been sown
Every truth, greeting you
Now your heart has come to grow

Moulding clay, every day
Shaping the things you should know
You've released, old beliefs
The convictions you had long ago

The world you left behind
Its ways are now out of sight
With every gem that you find
Reveals God's shining light

Rejoice, rejoice
The truth has set you free
Rejoice in what you learned to be
You now breathe
The breath of truth
The way is found in you

Truth in your heart, is the start
To building your eternity
Knowing the way, every day
Is the way to peace and unity

Truths you find, keep in mind
They are living with you constantly
Deep in your heart, never parts
Your wisdom will grow abundantly

Your knowledge grows in time
Like sweetest fruit from the vine
Wisdom will be mountain high
Protecting you day and night

Rejoice, rejoice
The truth has set you free
Rejoice in what you learned to be
You now breathe
The breath of truth
The way is found in you

Rejoice, rejoice
The truth has set you free
It's the only way to eternity
Your heart beats
The sounds of truth
The way is found in you

Instrumental

Rejoice, rejoice
The truth has set you free
Rejoice in what you learned to be
You now breathe
The breath of truth
The way is found in you

Rejoice, rejoice
The truth has set you free
It's the only way to eternity
Your heart beats
The sounds of truth
The way is found in you

A song about humility over pride.

A prideful heart can
Sit upon its throne
With no one listening
As they can't condone

When your humility
Is like a gentle breeze
We know our Father
Will always be pleased

It's a story being told
A thousand times
The proud and haughty
Cannot attain the prize

**The proud live for the minute
The humble live forever
Meek ones change
God's ways are their endeavour
The proud live for the minute
They're denying everlasting life
(Live for the minute)**

Only the haughty
Believe in what they say
The humble will flee
And turn their ears away

The proud are futile
Fruit that's lost its taste
Their precious time
Is their own to waste

The meek ones knock
On the Father's door
You'll find the haughty
Stood behind their flaw

**The proud live for the minute
The humble live forever
Meek ones change
God's ways are their endeavour
The proud live for the minute
They're denying everlasting life**

(Live for the minute)

**The proud live for the minute
And not a moment longer
Wisdom estranged
And believe they cannot falter
The proud live for the minute
Never seeing lasting life
(Live for the minute)**

Instrumental

It's a story being told
A thousand times
The proud and haughty
Cannot attain the prize

**The proud live for the minute
The humble live forever
Meek ones change
God's ways are their endeavour
The proud live for the minute
They're denying everlasting life
(Live for the minute)**

**The proud live for the minute
And not a moment longer
Wisdom estranged
And believe they cannot falter
The proud live for the minute
Never seeing lasting life
(Live for a minute)**

A song about our brotherly love.

This gravity lasts forever
Love is keeping a hold so strong
And it can never be severed
With God our heart belongs

The strength in love and devotion
It's a power that can't be denied
It's more than a fleeting emotion
With our creator our hearts reside

**Our love is bound this way
Lasting forever and ever
Like time it's never through
Our love is bound this way
Its found in good measure
And our heart is always true**

Like a stream that is flowing
It's a love that never runs dry
Our heart is constantly growing
To hold all of our love inside

A love that shows such devotion
The quality visible to every eye
Our love can never be broken
Warm feelings with no goodbyes

**Our love is bound this way
Lasting forever and ever
Just like time it's never through
Our love is bound this way**

**Its found in good measure
And our heart is always true**

**Our love is bound this way
A love that we treasure
It's our trove of ecstasy
Our love is bound this way
A rock standing forever
Throughout all eternity**

Instrumental

The strength in love and devotion
It's a power that can't be denied
It's more than a fleeting emotion
With our creator our hearts reside

**Our love is bound this way
Lasting forever and ever
Just like time it's never through
Our love is bound this way
Its found in good measure
And our heart is always true**

**Our love is bound this way
A love that we treasure
It's our trove of ecstasy
Our love is bound this way
A rock standing forever
Throughout all eternity**

A song about shedding our imperfect ways.

The fruit on the vine
Will grow steadily
With the stream of time
The good in your heart
Will grow from the ground
From the seeds that are fine

We're born through imperfection
Yet the clouds are easily blown away
And we believe it true
That our heart can be renewed

Finally, finally
We're leaving our former selves behind
And we can smile in our heart
Shedding the thorns from our side

We're now heading home
To a place
Where imperfection isn't known
We're never alone
Wheat in the harvest field
Together it will grow

In the years of refining
Every heart will find the way
And we believe it too
Perfection will soon be found in you

Finally, finally
We're leaving our former selves behind
And we can smile in our heart
Shedding the thorns from our side

Finally, finally
Every imperfect heart will now unwind
And our melody is now in tune
Shedding the thorns from our side

Instrumental

We're born through imperfection
Yet the clouds are easily blown away
And we believe it true
That our heart can be renewed

Finally, finally
We're leaving our former selves behind
And we can smile in our heart
Shedding the thorns from our side

Finally, finally
Every imperfect heart will now unwind
And our melody is now in tune
Shedding the thorns from our side

A song about reflecting our God's ways above.

Like the sun and the skies
Are reflecting on the waters below
Our conduct means everything
Reflecting on our God and King

With His ways in our heart
Reproach will never see day
Shining like the stars above
Every quality based on love

Our father is our God who's good
Reflecting his ways as we should
We can demonstrate every day
Our father's every perfect way

**In the name of the Father
We strive to be good in our heart
All are learning
Every perfect way
Day after day
It's a paradise built in our heart
In the name of the Father
We strive to imitate our God
Learning to be
Holy every day
Living the true way
In the name of the Father**

We're a miracle in God's motion
Changing for the good every day
Leaving our past selves behind

Our personality redefined

Every heart and mind will all align
To the good that makes us shine
Our Creator moulds us everyday
So that we can live a better day

**In the name of the Father
We strive to be good in our heart
All are learning
Every perfect way
Day after day
It's a paradise built in our heart
In the name of the Father
We strive to imitate our God
Learning to be
Holy every day
Living the true way
In the name of the Father**

Instrumental

Our father is our God who's good
Reflecting his ways as we should
We can demonstrate every day
God's every perfect way

Choruses

20 Fully Equipped in the Heart

A song about being fully equipped with scriptural knowledge.

A true heart
Will turn around in time
Becoming sweeter
Than the finest wines
It's the truth of God
That makes us shine
And we can forget
Our past regrets

A heart can change
Saying goodbye
To the traits that defy

**Let true knowledge
Correct your heart
Listening closely
To what our God imparts
Let true knowledge
Show you the way
Fully equipped in the heart**

A good ear
Can help us understand
A heart moulded
To our God's commands
Like a day star
Rising across the land
We discover the way
Creating light in the day

And now we'll find
We're saying goodbye
Our past ways have died

**Let true knowledge
Correct your heart
Listening closely
To what our God imparts
Let true knowledge
Show you the way
Fully equipped in the heart**

**Let true knowledge
Be instilled in you
Your good traits
Will shine on through
Let true knowledge
Accompany you
Fully equipped in the heart**

*And in time we will realise
We see ourselves in perfect light
We're pleasing in our father's eyes
Robes washed clean and white*

Instrumental

A heart can change
Saying goodbye
To the traits that defy

Choruses

A song about how everyone is coming out of imperfection gradually.

We can always make a judgement
But only if we judge ourselves
Where there are no hurt emotions
Judging belongs to heavenly realms

The way to judge ourselves
Is to compare the written word
To extract the many straws
So our good standing is confirmed

**Every friend that greets you
On the same road to recovery
And every time they see you
They know they're judgment free
Every one is moved to
Make a self discovery
And everyone who knows you
On the same road to recovery**

Each soul is hanging on by a ransom
We're vessels on the same shelf
Sin is the force pulling our tandem
With no one beneath ourselves

And we can be truly free
When we find the treasures of his word

Perfection will come to be
Through every lesson learned

**Every friend that greets you
On the same road to recovery
And every time they see you
They know they're judgment free
Every one is moved to
Make a self discovery
And everyone who knows you
On the same road to recovery**

Instrumental

The way to judge ourselves
Is to compare the written word
To extract the many straws
So our good standing is confirmed

**Every friend that greets you
On the same road to recovery
And every time they see you
They know they're judgment free
Every one is moved to
Make a self discovery
And everyone who knows you**

A song about imitating the obedient angels in heaven.

Before the very start
Angels took heavenly station
Myriads upon myriads of stars
All serving God without hesitation
Exemplary are those from afar

Faithful ones of old
They are fine in their standing
How we should imitate their way
Every day the angels are rejoicing
Now that creation found better days

**So look above
And admire their dedication
Serving God with love
Their ways always so fine
So look above
They're worthy of observation
Imitate the angels who shine**

They are dwelling together
Peace and love for each other
How we reflect their every way
Always serving shoulder to shoulder
Joy is what they show every day

**So take a glance
Discover their motivation
Follow the ways of above
And your heart will be fine
So take a glance
And follow their dedication
Imitate the angels who shine**

Instrumental

Joy is what they show every day

**So look above
And admire their dedication
Serving God with love
Their ways always so fine
So look above
They're worthy of observation
Imitate the angels who shine**

**So take a glance
Discover their motivation
Follow the ways of above
And your heart will be fine
So take a glance
And follow their dedication**

A song about how God knows our heart.

Your voice
Is the sound of your heart
Words never in disguise
The truth they should impart

Truth found in your soul
The lips that shape your words
To mislead is never a goal

And it's you
Your voice will reveal
And it's true
What you say is real

Let your heart own your voice

**He knows the heart in you
Your heart's a book to explore
So let your heart speak what's true
He knows the heart in you
Allow the heart to
Keep shining through
He knows the heart in you**

The light
Always shines in the dark
The truth is always showing
You can never hide it's mark

Your voice must have a say
Reading from your very heart
And never from a page

And it's you
Found deep inside
And it's true
Emotions cannot hide

Don't let your heart be denied

**He knows the heart in you
Your heart's a book to explore
So let your heart speak what's true
He knows the heart in you**

**Allow the heart to
Keep shining through
He knows the heart in you**

**He knows the heart in you
He sees behind every door
And how you feel is the truth
He knows the heart in you
Your very heart
Reveals all its fruit
He knows the heart in you**

Instrumental

And it's you
Your voice reveals
And it's true
What you say is real

Let your heart own your voice

**He knows the heart in you
Your heart's a book to explore
So let your heart speak what's true
He knows the heart in you
Allow the heart to
Keep shining through
He knows the heart in you**

**He knows the heart in you
He sees behind every door
And how you feel is the truth
He knows the heart in you
Your very heart
Reveals all its fruit
He knows the heart in you**

A song about the forever existence of love.

The rivers flow and will never run dry
 Even when the sun reaches the heights
 And love will never disappear
 You can always find it near
 The warmth of love is forever in sight

The fragrant air flows through the sky
 And it's always there even at night
 Our love will never disappear
 Our love is forever near
 Its found in the dark and in the light

No matter how far that you go
 Love is always in constant flow
 You can feel it come and never feel it go

In the heart and in the veins
Love is always coming around again
Its the energy that powers the day
It is always taking the reins
Love is always coming around again
The love we feel is never far away
You feel it every day

The horizon always flows as far as the sight
 And even when seeing eyes are tight
 Love is not one to disappear
 There's no need to fear
 It will still be there with the morning light

And no matter where you are
 You have never walked too far
 Love is found and it is always around

In the heart and in the veins

Love is always coming around again
Its the energy that powers the day
It is always taking the reins
Love is always coming around again
The love we feel is never far away
You feel it every day

Love never fails it can always be felt
Stranger friend or someone else
When love is the companion in our life
You can guarantee love is in our sights

Instrumental

No matter how far that you go
 Love is always in constant flow
 You can feel it come and never feel it go

In the heart and in the veins
Love is always coming around again
Its the energy that powers the day
It is always taking the reins
Love is always coming around again
The love we feel is never far away
You feel it every day

In the heart and in the veins
Love is always coming around again
Its the energy that powers the day
It is always taking the reins
Love is always coming around again
The love we feel is never far away
You feel it every day

A song about not condemning others.

How their eyes can see but never see
 Into the hearts of those who want to believe
 Their eyes will condemn sinners for eternity
 And they favour sacrifice above their mercy

Their wicked sight is weak
 No redemption do they seek
 Denying the purpose of a sacrifice
 No forgiveness do they need
 Their compassion fell asleep
 Own transgressions they never magnify

How they take the seat of the ones on high

**They practiced mercy
 And never sacrificed
 They made the journey
 To find the lost in the night
 You judge before the end of the times
 Singing along before you know the rhyme
 The heart you cannot read
 How can you see the things
 That only God can see?**

How their hearts will have their say
 Minds made up before the start of day
 To judge their own traits they forsake
 Never condemning their own mistakes

Their heart is never sound
 Mercy never comes around
 They deny their own distorted reflection
 Their thoughts always wrong
 Forgiveness never belongs
 To those travelling the wrong direction

They make the say before the end of the days

**They practiced mercy
 And never sacrificed
 They made the journey
 To find the lost in the night
 You judge before the end of the times**

**Singing along before you know the rhyme
 The heart you cannot read
 How can you see the things
 That only God can see?**

To condemn is their only solution
 When to judge is never human
 They cannot read the book of life
 So how can they make the sacrifice?

Instrumental

Their wicked sight is weak
 No redemption do they seek
 Denying the purpose of a sacrifice
 No forgiveness do they need
 Their compassion fell asleep
 Own transgressions they never magnify

How they take the seat of the ones on high

**They practiced mercy
 And never sacrificed
 They made the journey
 To find the lost in the night
 You judge before the end of the times
 Singing along before you know the rhyme
 The heart you cannot read
 How can you see the things
 That only God can see?**

**How can you see the things
 That Only God can see? x2**

A song about using our Bible trained conscience.

Our discernment is fed with solid food
Every morsel coming from God's word
Right from wrong we always conclude
It's based on the wisdom you transfer

Our conscience is maintained
With the words that we retained
And our very life is sustained
With the wisdom we obtained

**Our vision is sharpened by your wisdom
Wearing the sandals guiding our every step
And under the shadow of your kingdom
Your ways we have now come to accept
Our vision is sharpened by your wisdom
Through the use of your word we are adept**

Stone by stone our house is built to last
You constructed your righteous people
We experience the joy of wisdom so vast
It gave us eyesight sharper than an eagle

Our conscience is now polished
And our old ways are abolished
Decision making not in conflict
With a good heart accomplished

**Our vision is sharpened by your wisdom
Wearing the sandals guiding our every step
And under the shadow of your kingdom
Your ways we have now come to accept
Our vision is sharpened by your wisdom
Through the use of your word we are adept**

Instrumental

Our conscience is maintained
With the words that we retained
And our very life is sustained
With the wisdom we obtained

**Our vision is sharpened by your wisdom
Wearing the sandals guiding our every step
And under the shadow of your kingdom
Your ways we have now come to accept
Our vision is sharpened by your wisdom
Through the use of your word we are adept**

You gave us vision sharpened by your wisdom

A song about how our internal appearance is more important.

Laying many stones can build a reputation
 Creating your personality in your generation
 Your identity is your access to eternal life
 An identity to be admired with many eyes

Forging the sword of your personality
 A person shaped by the trials of fire
 Traits that identify your individuality
 A spectrum of good traits you acquire

Creating our image from the inside
The garments that we wear every day
A range of colours that you can't deny
Found in the personality you display
Creating our image from the inside
The word of God we wear every day
Qualities to be seen with the keen eye
Built on the standards that God conveys

You are like the weavings of a tapestry
 Each thread is woven into your integrity
 The full gamut of qualities you display
 Leading to your life full of endless days

And like the garden full of much variety
 Each quality is planted in the finest soil

How the colours glow in their entirety
 Creating a work you can never spoil

Creating our image from the inside
The garments that we wear every day
A range of colours that you can't deny
Found in the personality you display
Creating our image from the inside
The word of God we wear every day
Qualities to be seen with the keen eye
Built on the standards that God conveys

Instrumental

Creating our image from the inside
The garments that we wear every day
A range of colours that you can't deny
Found in the personality you display
Creating our image from the inside
The word of God we wear every day
Qualities to be seen with the keen eye
Built on the standards that God conveys

The standards that God conveys

A song about making a vow and keeping it.

A promise is the knot you can't untie
The guaranteed that you can't deny
We are living in the way of the truth
A vow is a statement without dispute

You are signing a guarantee with your heart
The words you say cannot be torn apart
The promises made are a matter of fact
It is the road where there is no way back

**In the heart of a vow there is certainty
The etching in a stone giving clarity
There's no thoroughfare to doubt
A locked room with no way out
A vow is built on a promise of integrity
In the heart of a vow there is certainty**

With every seed that you come to sow
You feed and water to ensure its growth
Faith in our promises will meet demise
If our vow is found to be a blatant lie

With every word you said made known
A broken promise cannot be condoned
Our promises are made in good quality
And no soul will question your honesty

**In the heart of a vow there is certainty
The etching in a stone giving clarity
There's no thoroughfare to doubt
A locked room with no way out
A vow is built on a promise of integrity
In the heart of a vow there is certainty**

Instrumental

You are signing a guarantee with your heart
The words you say cannot be torn apart
The promises made are a matter of fact
It is the road where there is no way back

**In the heart of a vow there is certainty
The etching in a stone giving clarity
There's no thoroughfare to doubt
A locked room with no way out
A vow is built on a promise of integrity
In the heart of a vow there is certainty**

A song about no longer struggling with our imperfection.

We were at war with our heart inside
We struggled to do what was right
Power of sin overthrew our desire
To do the works our God required

We knew what was right
Our heart put up a fight
Sin never acts in the light
There's no day in the night

Our imperfection is no longer in sight

**The way that we once were
Has disappeared with the day
The way our sins occurred
Have vanished in the haze
Strain of sin met its demise
Now perfect in God's eyes
The way that we once were
Destroyed with a sacrifice
And now we are no longer
The way that we once were**

Sin's gravity has lost its hold on us
In God's ways we came to adjust
Allowing the way for our perfection
God's ways are now our direction

Complete with self control
Sin a heart can't condone
Comfort inside our soul
As God's ways our goal

Sin has gone to leave a heart of Gold

**The way that we once were
Has disappeared with the day
The way our sins occurred
Have vanished in the haze
Strain of sin met its demise
Now perfect in God's eyes
The way that we once were
Destroyed with a sacrifice
And now we are no longer
The way that we once were**

Instrumental

Our imperfection is no longer in sight

**The way that we once were
Has disappeared with the day
The way our sins occurred
Have vanished in the haze
Strain of sin met its demise
Now perfect in God's eyes
The way that we once were
Destroyed with a sacrifice
And now we are no longer
The way that we once were**

The way that we once were

A close-up, artistic photograph of a violin. The focus is on the bridge and the four strings, which run diagonally across the frame. The body of the violin is a rich, warm brown color with visible wood grain. The lighting is soft, creating a moody atmosphere. The text "Section 2: The Ransom" is overlaid in white, bold, sans-serif font in the lower-left quadrant.

Section 2: The Ransom

A song about the provision of the ransom sacrifice.

In every heart there is blame
When imperfection makes a stand
A burden carried every day
The ransom provides a helping hand

In every future there's a way to succeed

A ransom provides a life that's guaranteed

With every soul sins reside
Permanent stains upon the heart
In darkest moments sins can hide
And they tear integrity apart

And our future requires forgiveness we need

A ransom provides a life that's guaranteed

The sun brings light upon the darkest days
The ransom provides a life that's here to stay
Like a day without sundown
Providing life with a single ray
Through one death saves many lives
As all our sins have now been paid

Every soul on the earth can now live and breathe

A ransom provides a life that's guaranteed

A ransom provides a life that's guaranteed

2 How Your Love Burns Up the Rains

A song about how God's love has saved us.

The sad bondage of our imperfections
Made us captive to growing old to die
Human disobedience to your direction
When Eden listened to Satan's lies

Following the roadway to destruction
Mankind lost their good standing too
Souls falling away from your instruction
Mankind was distanced away from you

Our loving Father extended his life saving hands
Providing his son to bring a people into His land

**How your love burned up the rains
When your creation bares a stain
You're the star behind the clouds
The earth stands in your light again
How your love burned up the rains
And now our lives can be sustained
Out of death you paved the way
Providing your son to save the day
How your love burned up the rains**

You payed the ransom with your son
And the breath of life absent for a time
Atonement that lasts for ever and ever
So now sickness and death can resign

Our loving Father provided the way to sanctify
Providing his loving son to make the sacrifice

**How your love burned up the rains
When your creation bares a stain
You're the star behind the clouds
The earth stands in your light again
How your love burned up the rains
And now our lives can be sustained
Out of death you paved the way
Providing your son to save the day
How your love burned up the rains**

Instrumental

Our loving Father extended his life saving hands
Providing his son to bring a people into His land

**How your love burned up the rains
When your creation bares a stain
You're the star behind the clouds
The earth stands in your light again
How your love burned up the rains
And now our lives can be sustained
Out of death you paved the way
Providing your son to save the day
How your love burned up the rains**

Your love always burns up the rain

A song about Jesus authority and his love.

The sun keeps rising
Even though the day has gone
Our eyes keep shining
Even when our thoughts are wrong

A ransom paid
To take our sins away
Paid by the greatest man
A King of integrity
Shining for the world to see
To love is his command

***A King of love for all to see
Our imperfection he set free
He gave our soul eternity
With his integrity
Curing our infirmity
A King of love for all to see***

The world can spin around
Integrity has paid the price
The strongest love was found
The gift of ransom sacrifice

The light in the day
His love paved the way

The road to eternal life
His love and integrity
The way of eternity
Wiping tears from every eye

***A King of love for all to see
Our imperfection he set free
He gave our soul eternity
With his integrity
Curing our infirmity
A King of love for all to see***

Instrumental

A ransom paid
To take our sins away
Paid by the greatest man
A King of integrity
Shining for the world to see
To love is his command

***A King of love for all to see
Our imperfection he set free
He gave our soul eternity
With his integrity
Curing our infirmity***

A song about how the ransom sacrifice heals us.

Imperfection brought us pain
Dark clouds of persistent rain
A force destroying good in you
Pulling at everything you do

Our hearts knew what was right
Imperfection put up a fight
A constant pain in every side
And our flaws could never hide

Sin has been washed away
The heart is ready to obey

***For each and every sin
A ransom heals you within
The sun is now rising
As the new day begins
For each and every flaw
A ransom heals them all
Healing God's people
No longer do we fall***

In our heart we have changed
Imperfection no longer strains
Becoming perfect in every way
Ripen fruits we now display

Sin has been washed away
The heart is ready to obey

***For each and every sin
A ransom heals you within
The sun is now rising
As the new day begins
For each and every flaw
A ransom heals them all
Healing God's people
No longer do we fall***

Instrumental

***For each and every sin
A ransom heals you within
The sun is now rising
As the new day begins
For each and every flaw
A ransom heals them all
Healing God's people
No longer do we fall***

A song about how Jesus Christ paved the way for humanity.

When perfection
Lost its way
Sin began
To rule the days
Leaving God's
Ways behind
Until the truth
We came to find

Knowledge starts another day

When we leave
We say goodbye
To all the sins
Leading us to die
Guilty feelings
Can break a heart
Looking back on
Sins tearing us apart

A storm is just a memory

**Christ paved the way
With a ransom paid
Healing your broken heart
Christ paved the way
Our sins fade away**

Never leaving
The past behind
The sacrifice
You've denied
Find relief

In your heart
The ransom makes
Sins fall apart

Sins fade into the night

We walk away
From sins behind
Our former ways
Have been declined
Our future
Is where we start
With a kingdom
Creating perfect hearts

A voice tuned to the melody

**Christ paved the way
With a ransom paid
Healing your broken heart
Christ paved the way
Our sins fade away
Christ paved the way
Our guilt has no say
Cleansing a broken heart
Christ paved the way
As we learn to obey**

Instrumental

A storm is just a memory

Choruses

6 A Perfect Act of Love Was Made

A song about the perfect sacrificing love of King Jesus Christ.

Yes our memories fade away
Yet never forget that special day
When King Jesus died and saved
A perfect act of love was made

Everlasting life was never lost
As Jesus resurrects our dust
Putting faith in him we must
A perfect act of love was made

*The hour came to end his life
Providing a perfect sacrifice
To vindicate God's holy name
A perfect act of love was made*

Now we can live forever more
Life everlasting has been restored
Showing love like never before
A perfect act of love was made

Instrumental

*The value of the bread and wine
His flesh and blood sacrificed
Jesus came to pave the way
A perfect act of love was made*

His perfect human life was gone
Now reigning brighter than the sun
Still showing love to everyone
A perfect act of love was made

Still showing love to everyone
A perfect act of love was made

A perfect act of love was made

A song about the Sermon of the Mount.

He reflects in the mirror
Of his Father's mind
Teaching loud and clear
In a way that's kind

Being a model so we can glow
In a way our father wants us so

Listening ears in the mountain air
Jesus teaches with much to share
Hearts are aglow like the stars at night
Learning the way to do what's right

**The truth's his arrow
Aiming for the heart
To heal the blind
The truth's his arrow
Speaking from the heart
And his Father's mind**

His perfect arrows
Travel through the times
Providing the good life
To the meek and blind

And every day that passes by
His words come to meet
The readers eyes

His arrows striking
With every word
They make their way
To the ones who heard

Driven by spirit under the sun
To be seen and heard by everyone

**The truth's his arrow
Aiming for the heart
To heal the blind**

**The truth's his arrow
Speaking from the heart
And his Father's mind**

*His wisdom is from higher than
The mountain top
Reaching the heart and producing crop
One by one his golden arrows fly
Words of wisdom that we should apply*

**The truth's his arrow
Aiming for the heart
To heal the blind
The truth's his arrow
Speaking from the heart
And his Father's mind**

Instrumental

His arrows are shining
On a cloudy day
Providing much light
To make our way

He gave us the hope for the future time
And in his reign his arrows still shine

His winsome words
Filled the breeze
Emotions stirred
He loves to teach

And under the rule of the reigning son
His many arrows are still reaching us

Chorus

8 Searching through Every Heart

A song about how God and Christ analyses or hearts.

There's a spirit searching through
Your heart was clear as a crystal
Discovering the good side of you
Harvesting wheat from the thistle

God's word is the defining call
Drawing your heart into the daylight
And its true the truth is in you
How it ignites the dark night

Now your life has turned around
Because its your God who's found
The pearl set inside of you
Now you reside in the light

**Searching through every heart
Knowing every thought your feeling
Your soil is good for growth
From God's word the heart is feeding
Searching through every heart
Discovering those with golden lining
Leading you to pastures new
He sought the good in you**

Searching deep in the harvest time
His spirit was a constant flowing
Waving in the breeze to and throw
He saw a heart good for growing

Roots deep in the promised land
Robust in the turbulent windstorm
Your heart longed for the hand
That guided you to his good warmth

And now your life is where you stand
Dwelling in the promised land

How he searched you through
And found the good in you

**Searching through every heart
Knowing every thought your feeling
Your soil is good for growth
From God's word the heart is feeding
Searching through every heart
Discovering those with golden lining
Leading you to pastures new
He sought the good in you**

*Searching your heart is where it all began
And now you have come to take his hand
You are blessed beyond compare
Now you discover your Father's care*

Instrumental

**Searching through every heart
Knowing every thought your feeling
Your soil is good for growth
From God's word the heart is feeding
Searching through every heart
Discovering those with golden lining
Leading you to pastures new
He sought the good in you**

**Searching through every heart
Knowing every thought your feeling
Your soil is good for growth
From God's word the heart is feeding
Searching through every heart
Discovering those with golden lining
Leading you to pastures new
He sought the good in you**

9 There's No Heart Left Unturned

A song about how God searches hearts to build a people for His name.

There's No Heart Left Unturned

Every soul beats a heart inside
Sound of a beat you can't hide
He hears the voice that resides
Searching for good with his eyes

Every soul reveals an identity
The heart worn on your sleeve
Your voice is what you've told
The sound motivating your soul

Our Father searches through the world
Searching every heart for its hidden pearl

**There's no heart left unturned
He looks for the fire that burns
Those seeking for what's fine
With good fruitage from the vine
There's no heart left unturned
Seeking those seeking to learn
There's nowhere for them to hide
With their God they will reside
Because there's no heart left unturned**

Every soul tells its own story
The spirit comes to explore it
And he will see the good in you
How your light will shine through

Every heart will reveal its truth
With the personality within you
Like the words upon the page

Open curtains reveal the stage

He searches hearts in every harvest land
Finding souls to guide with his mighty hand

**There's no heart left unturned
He looks for the fire that burns
Those seeking for what's fine
With good fruitage from the vine
There's no heart left unturned
Seeking those seeking to learn
There's nowhere for them to hide
With their God they will reside
Because there's no heart left unturned**

Instrumental

Our Father searches through the world
Searching every heart for its hidden pearl

**There's no heart left unturned
He looks for the fire that burns
Those seeking for what's fine
With good fruitage from the vine
There's no heart left unturned
Seeking those seeking to learn
There's nowhere for them to hide
With their God they will reside
Because there's no heart left unturned**

**Looking for the fire that burns
There's no heart left unturned**

A song about our appreciation for God, Jesus and the Ransom Sacrifice.

Behind a bolted door
Was the way to eternal life
Until the day Christ came
And provided a sacrifice

He paved a way for you and me
From our sins we've been set free
Gratitude for eternity
And we thank you eternally

**Straight from the heart
We thank you so
Your act of love
Excels the love we know
Straight from the heart
We thank you so
Your perfect life
Paved our way to go
And when the darkness fell upon us
You came and showed the good in you
Straight from the heart
Gratitude never parts
Because now our life can start**

Taking your flesh and blood
The key to lock death's door
And through your sacrifice
We could fear death no more

When the paradise became misery
You were there to set the guilty free

There's no end just a start
So we thank you with all our heart

**Straight from the heart
We thank you so
Your act of love
Excels the love we know
Straight from the heart
We thank you so
Your perfect life
Paved our way to go
And when the darkness fell upon us
You came and showed the good in you
Straight from the heart
Gratitude never parts
Because now our life can start**

You taught us the power of your love
And now we show it to you
The spirit descends just like a dove
Showing the Father approves

Instrumental

He paved a way for you and me
From our sins we've been set free
Gratitude for eternity
A thank you eternally

Chorus

A song about how the death of Jesus saved many lives.

It shines so bright
In the darkest night
His love for God laid bare
His obedience
And his prescience
Is beyond compare

His intrepid ways
Always saves the day
His love for God laid bare
His bravery is told
As the night unfolds
A traitor sets the snare

Every watchful eye
Keeps his eye on the prize
And an obedient heart
Never sees it's demise

**One death brought
Life for ever and ever
So God's people
Can live together
Life without measure
Saving every soul so true
One death brought
Us life for a certainty
And for all eternity
We put faith in you
Our life can begin anew**

And his soul of gold
A famous story told
His love for God laid bare
Always proving true
Obedience he pursued
The face of death he stared

Bringing life to our eyes
Through the death he died
Losing his life on earth
Where eternal life resides

**One death brought
Life for ever and ever
So God's people
Can live together
Life without measure
Saving every soul so true
One death brought
Us life for a certainty
And for all eternity
We put faith in you
Our life can begin anew**

*The darkest clouds aligned
His obedience lit the skies
Giving his life a sacrifice
To extend the hands of time*

Instrumental

Every watchful eye
Keeps his eye on the prize
And an obedient heart
Will never see it's demise

**One death brought
Life for ever and ever
So God's people
Can live together
Life without measure
Saving every soul so true
One death brought
Us life for a certainty
And for all eternity
We put faith in you
Our life can begin anew**

Section 3: Praising and Serving God

A song about how our quality of love motivates us to serve.

Love is more than a word
 Actions are incurred
 It can always be seen
 Love a stranger or a friend
 Love all depends
 There's no in-between

Love never turns away
 Exists from day to day
 The emotion lives inside you
 It never leaves the heart
 No ending just a start
 And always proves true

Love's an unending promise
 And no one is novice
 Found in every friend
 A feeling all are accustomed
 Exists on each tongue
 And will never pretend

Serve God with love
Its a fruitage that's good
Love is taking the lead
To serve forever and ever
Serve God with love
In the way your heart should
Love is taking the lead
To serve for all eternity

Love has no ability to hide
 It can never be pushed aside
 It's an air that surrounds you

Dwelling in all we do and say
 Love never takes a break
 Proving the love within you

Love never stops working
 Continually serving
 It motivates you
 It's there for a reason
 A bond for all seasons
 It's for all to view

Serve God with love
Its a fruitage that's good
Love is taking the lead
To serve forever and ever
Serve God with love
In the way your heart should
Love is taking the lead
To serve for all eternity

Instrumental

Love's an unending promise
 And no one is novice
 Found in every friend
 A feeling all are accustomed
 Exists on each tongue
 And will never pretend

Chorus

A song about how everyone will want to praise God in worship.

A former world decayed
The truth paved the way
To eternal life in a paradise
In every heart on earth
Perfection found its worth
God's ways are clarified

We made the wisest choice
We heard the Father's voice
The former things passed away
In the true God we trust
To remove a world unjust
A kingdom for which we prayed

And in our hearts we can rejoice
As the whole world lifts its voice

***A people are now united
We raise our voice delighted
Praising our God for eternity
Every voice has come together
The chorus that will last forever
Praising our God for eternity***

Following our Father's voice
An ancient lie destroyed
His rulership we began to trust
We received the truth with joy
Our energy we deployed
To worship was our thrust

From the heart we raise our voice
Our ensemble sings out with joy

***Our song is sung the world over
And heard by our heavenly Father
Praising our God for eternity
Our hearts are forever sounding
Throughout the universe surrounding
Praising our God for eternity***

Instrumental

***A people are now united
We raise our voice delighted
Praising our God for eternity
Every voice has come together
The chorus that will last forever
Praising our God for eternity***

***Our song is sung the world over
And heard by our heavenly Father
Praising our God for eternity
Our hearts are forever sounding
Throughout the universe surrounding
Praising our God for eternity***

Praising our God for eternity

3 A Song Reveals What's In Our Heart

A song about using singing in our praise and worship.

Our ears love a good song
And the heart sings along
Rising to the grand occasion
Our worship is always strong

Our Father listens to our melody
The melody felt in the heart
A tune that reveals our identity
A chorus of emotion we impart

***We praise our God with good music
With the words that we impart
Our emotions can infuse it
A song reveals what's in our heart***

The heart sings to any rhythm
Words revealing how we feel
Our emotions seen with vision
The melody we can't conceal

Every note we sing from inside
They reveal what we can't hide
We praise with tuneful vigour
With the music God provides

***We praise our God with good music
With the words that we impart
Our emotions can infuse it
A song reveals what's in our heart***

Instrumental

Our words guided by a melody
Vocal praises can be heard
Our feelings guided by sincerity
Good emotions can be stirred

Creative joy that we can treasure
We are happy in our song
Praising our Father is our pleasure
It exists for each and everyone

***We praise our God with good music
With the words that we impart
Our emotions can infuse it
A song reveals what's in our heart***

***We praise our God with good music
With the words that we impart
Our emotions can infuse it
A song reveals what's in our heart***

A song about how God's holy spirit is with us.

You see it everywhere
It's in everything He made
Invisible to the naked eye
But there all the same

A power you feel in you
And in great measure
Energy in the good that we do
The spirit in our heart
Is a friend that we treasure
The force empowering you

***The spirit of God
There for all times
Walking hand in hand
And never reclines
The force behind your wings
Carrying you all the way
The spirit of our God
You can see every day***

It's an unfailing force
It always finds its way
God is the source
Like the sun lights the day

Powers all that we do
In God's pleasure
The force behind what we achieve
It's a friend and guide
That will last forever
We value what we receive

***The spirit of God
There for all times
Walking hand in hand
And never reclines
The force behind your wings
Carrying you all the way
The spirit of our God
You can see every day***

Instrumental

A power you feel in you
And in great measure
Energy in the good that we do

The spirit in our heart
A friend that we treasure
The force empowering you

Chorus

***The spirit of God
There for all times
Walking hand in hand
And never reclines
The force behind your wings
Carrying you all the way
The spirit of our God
You can see every day***

A song about how singing in worship reveals the zeal in our heart.

Like the sun shining through you
Good music reaches you inside
A joyful chorus within you
Where words and melody reside

Every note is like a word
Expressing the way we feel
Every melody in our heart
Is an expression of our zeal

***Don't stop don't stop
And sing with all your heart
Let the music be your work of art
Don't stop don't stop
And sing with all your soul
Let the song in your heart take control***

The melody of joy we're feeling
Can be heard by all who hear
Every note that the heart is beating
Are expressing every word of cheer

Every word forever in tune
To the way we feel inside
There's not a heart immune
To the music our God provides

***Don't stop don't stop
And sing with all your heart
Let the music be your work of art
Don't stop don't stop***

***And sing with all your soul
Let the song in your heart take control
Don't stop don't stop
And sing with all your heart
Sound the feelings you want to impart
Don't stop don't stop
And sing with all your soul
Sing out all the love that you hold***

Instrumental

Every note is like a word
Expressing the way we feel
Every melody in our heart
Is an expression of our zeal

***Don't stop don't stop
And sing with all your heart
Let the music be your work of art
Don't stop don't stop
And sing with all your soul
Let the song in your heart take control***

***Don't stop don't stop
And sing with all your heart
Sound the feelings you want to impart
Don't stop don't stop
And sing with all your soul
Sing out all the love that you hold***

6 There's Nothing Else in My Life

A song about our personal appreciation for our Father.

There's nothing else in my life
With love and self-sacrifice
Serving the one who's true
A painting that captivates you

There's nothing else in my life
In a world angry and so cold
To obey your winsome voice
Silence amongst all the noise

There's nothing else in my life
That could replace paradise
In a haven of complete unity
A falling leaf being set free

There's nothing else in my life
Like drawing so close to you
A friendship so warm and full
A gravity with relentless pull

There's nothing else in my life
Than to admire all your works
Loves reflections that you send
Like a sunset that never ends

Instrumental

There's nothing else in my life
That could bring me such joy
Heartbreaks just fade away
As the sun shines every day
There's nothing else in my life

A song about our eternal praise and worship.

Passing time will stream along
 With love dwelling by its side
 Our love is strong
 In the heart it belongs
 And forever it will reside

Our bond with our God
 Lives on for eternity
 It's unbreakable
 And unshakeable
 It's behind our integrity

Together we praise as one
 With love behind our throng
 Love raises the voice
 The heart will rejoice
 We know where we belong

***The love we have is strong
 We meet to praise our Father together
 In word, in deed, in song
 Joining hearts and praising forever***

Passing light will travel along
 And love travels by its side
 Love is eternity
 No end does it see
 Our love for God is our life

The love we have is our light
 Dwelling in us constantly
 It's unmistakable
 It's inescapable

And their for all to see

Together we praise as one
 The thread that binds our souls
 We laud together
 Stronger than ever
 With loving unity as our goal

***The love we have is strong
 We meet to praise our Father together
 In word, in deed, in song
 Joining hearts and praising forever
 So many hearts as one
 As we praise our Father together
 One love, one voice, one throng
 Always bound in praising forever***

Instrumental

Love raises the voice
 The heart will rejoice
 We know where we belong

***The love we have is strong
 We meet to praise our Father together
 In word, in deed, in song
 Joining hearts and praising forever
 So many hearts as one
 As we praise our Father together
 One love, one voice, one throng
 Always bound in praising forever***

A song about enjoying our worship and servitude.

The deep joy inside of you
Will forever be found
When your good way of life
Plays the sweetest sound

There's a feeling in the air
And it surrounds
The joy of our Father
Will always abound

**When we're serving our Father
We're finding joy day after day
Enjoy it! Enjoy it!
And joy will always draw closer
With every word we obey
Enjoy it! Enjoy it!**

**When we're serving our Father
The good times are forever to stay
Enjoy it! Enjoy it!
With every seed from the sower
Our joy is stronger each day
Enjoy it! Enjoy it!**

Enjoy it! X2

How the joy inside of you
Shines upon your face
The joy you feel inside
Fills an empty space

Its for everyone to share
And have a taste

The joy of our Father
Will take first place

**When we're serving our Father
We're finding joy day after day
Enjoy it! Enjoy it!
And joy will always draw closer
With every word we obey
Enjoy it! Enjoy it!**

**When we're serving our Father
The good times are forever to stay
Enjoy it! Enjoy it!
With every seed from the sower
Our joy is stronger each day
Enjoy it! Enjoy it!**

Enjoy it! X2

Instrumental

There's a feeling in the air
And it surrounds
The joy of our Father
Will always abound

Choruses

A song about being free to serve our Father forever.

The people of Satan's world
Tried to hinder those
Who worship the Father
We continued to breathe good news
From soul to soul
And to God we drew closer

Endurance worked to our favour
Loving our God and neighbour
And a new world has been created
Fulfilling the promises we had awaited

**We're now free to serve forever
With all our heart
Now that Satan's world has depart
We're now free to serve forever
In true peace and security
Free to serve for all eternity**

In the heat of a burning fire
We forged a heart that's new
And it lives on forever
Serving God is our one desire
And we are never through
As we love our creator

The hard times worth our endeavour
Because now we can live forever
True worship has prevailed
With the good news our Father unveiled

**We're now free to serve forever
With all our heart
Now that Satan's world has depart
We're now free to serve forever
In true peace and security
Free to serve for all eternity**

The great day
Is our new start
His worship runs deep
In our hearts
We make it our endeavour
To serve our God forever

Instrumental

Endurance worked to our favour
Loving our God and neighbour
And a new world has been created
Fulfilling the promises we had awaited

**We're now free to serve forever
With all our heart
Now that Satan's world has depart
We're now free to serve forever
In true peace and security
Free to serve for all eternity**

A song about how happy serving God makes us feel.

Just like a ship
In a turbulent storm
Hands unsteady and worn
Secular work was a thorn

We used all our might
Every day every night
No security in sight
Yes a turbulent storm

Working for our God
Is what's best for us
He is the one we trust
We work hard yet we're free

**There are many things to do
When the sun is shining through
And happy is the slave
Working with all his heart
The rewards that he claims
Make him happy each day
Happy is the slave
Working with all his heart**

No longer any stress
Just the calmest of seas
Happiness guaranteed
Enjoying our work with ease

As we work with our hands
Our joy now expands
Achieving our plans
Working to God's command

And the best life is what
We've come to know
And our joy now shows
We work hard yet we're free

**There are many things to do
When the sun is shining through
And happy is the slave
Working with all his heart
The rewards that he claims
Make him happy each day
Happy is the slave
Working with all his heart**

Instrumental

Working for our God
Is what's best for us
He is the one we trust
We work hard yet we're free

**There are many things to do
When the sun is shining through
And happy is the slave
Working with all his heart
The rewards that he claims
Make him happy each day
Happy is the slave
Working with all his heart**

A song how God is never far away from us.

When different faces
Come and go
We are never left
On our own
God's eyes upon us
Wherever we roam

There's empty space
In the room
Yet God's presence
Still resumes
And He never excludes

Loneliness is overthrown

**Wherever you are
Whatever you do
God is with you
Land sea or sky
Or deep in the night
God is with you**

When times are silent
There's no sound
God's friendship
Can still be found
His holy spirit
Still surrounds

Dwelling in the Father's sight

**Wherever you are
Whatever you do
God is with you
Land sea or sky
Or deep in the night
God is with you**

**In the light in the dark
A journey embarked
God is with you
In the fields in the hills
God's spirit we feel
God is with you**

Instrumental

Loneliness is overthrown

**Wherever you are
Whatever you do
God is with you
Land sea or sky
Or deep in the night
God is with you**

**In the light in the dark
A journey embarked
God is with you
In the fields in the hills
God's spirit we feel
God is with you**

A song about how God and His creation proved Satan a liar.

With a troubled heart
Is how Satan's world left you
Man ruled with oppressive hands
A world broken in half
God's people united
Great crowds in every land

With our hope in mind
We could never look behind
Continually seeking for better times
In our distant past
We put trust in our Father
His sovereignty vindicated at last

God's rulership is here to stay
And we're happy to obey

**It's the reason
To forever celebrate
It's the season
To live a true way of life
God's world begins again
His vindication
Brings death to a distant lie
(Death to a distant lie)**

We welcome every day
With no form of apprehension
God provides with his loving hands
His rule is our way
It's our favourite flavour
Feeling secure with his commands

God's people enjoy each day
His protection is here to stay

**It's the reason
To forever celebrate
It's the season
To live a true way of life
God's world begins again
His vindication
Brings death to a distant lie
(Death to a distant lie)**

Instrumental

God's rulership here to stay
And we're happy to obey

Choruses

A song about how we benefit from God's perfect sovereignty.

In the wake of God's creation
The darkness formed
That ruined the earth
Where was the dedication?
Despite being warned
Their disobedience occurred

Like the sound of pure thunder
The satanic lie
Darkened the skies
Misleading creation to wonder
If our God
Can rule mankind

And now
Our joy is proof of God's love
And we smile under his rule
Finding goodness from God above
His sovereignty is good for you

With a damaged reputation
God came to prove
His goodness within
Before the eyes of all creation
He came to remove
Our imperfection and sin

His arms are wide to receive those
Who have come to know
The God behind his name
His famous qualities have exposed
That the liar shows
He's the one to blame

And now

Our joy is proof of God's love
And we smile under his rule
Finding goodness from God above
His sovereignty is good for you

Instrumental

Like the sound of pure thunder
The satanic lie
Darkened the skies
Misleading creation to wonder
If our God
Can rule mankind

And now
Our joy is proof of God's love
And we smile under his rule
Finding goodness from God above
His sovereignty is good for you

And now
We're happy under God's rule
Eternal peace is the proof
His guidance is a caring tool
His sovereignty is good for you

And now
Our joy is proof of God's love
And we smile under his rule
Finding goodness from God above
His sovereignty is good for you

A song about how we obey our Father out of love.

Our bond is stronger

Our bond is stronger

Our love for God is a fountain
Reaching the highest mountains
The good bond with our creator
Makes our joy grow even greater

And when we obey God's word
Our love for our Father is confirmed

Our bond is stronger
When our Father teaches us the way
Imperfection we conquer
Love the Father, learn to obey

When we obey his direction
We grow closer to perfection
Our bond with God is stronger
Pleasing our grand instructor

We've come to listen and obey
Forging a friendship along the way

Our bond is stronger

When our Father teaches us the way
Imperfection we conquer
Love the Father, learn to obey

Our bond is stronger

Our bond is stronger
Love the Father, learn to obey

Instrumental

And when we obey God's word
Our love for God is confirmed

Our bond is stronger
When our Father teaches us the way
Imperfection we conquer
Love the Father, learn to obey

A song about how our love motivates us to serve with our skills.

The horizon before you is endless
Serving God is good for you
Our Father requires your attendance
In what your heart desires to do

Serve him in the highest mountains
Serve him on the mighty seas
And along with your love
You won't get enough
Using every skill and quality

**Let the need take over you
Excel in the way you desire to
Let the need take over you
And do the things
That are good to do**

A journey guided by God's spirit
Always taking every opportunity
And our service has no limits
Our need has no immunity

Serve him in the deepest valley
Serve him until the end of day
You have to face fact
There's no turning back

Your love has something to say

**Let the need take over you
Excel in the way you desire to
Let the need take over you
And do the things
That are good to do**

Instrumental

Serve him in the highest mountains
Serve him on the mighty seas
And along with your love
You won't get enough
Using every skill and quality

**Let the need take over you
Excel in the way you desire to
Let the need take over you
And do the things
That are good to do**

A song about how God satisfies his creation with all that we need.

Providing everything and even more
As our God's hand is never short
An abundance beyond our every need
Food mountain high from a single seed

A spectrum of colours meet our eyes
Like the many things our God provides
The best things in life he gives for free
Provisions as far as the eye can see

Take a look
The world is satisfied
Everything we need
Only multiplied
Take a look
How our God provides
God gives to his people
Every day and night

Never take for granted an open hand
Thanking God makes his heart glad
Joy is found in good things we receive
And our appreciation will never cease

Take a look
The world is satisfied
Everything we need
Only multiplied
Take a look
How our God provides
God gives to his people

Every day and night

Take a look x 2
God gives to his people
Every day and night

Instrumental

The sun will rise on another day
To find more provisions along the way
Love is found in his mighty hands
Spreading joy throughout the land

Take a look
The world is satisfied
Everything we need
Only multiplied
Take a look
How our God provides
God gives to his people
Every day and night

Take a look
The world is satisfied
Never take for granted
What our God provides
Take a look
We are never in need
God provides his people
With his guarantee

A song about our love for our Father.

He is more than just a name
Who we proclaim
And time sustains
Love is found in every heart
And our lips impart
It's forever mark

And every time we hear him
We do well to fear him

**With our God
Is where our love grows
In our God
We all came to know
So let love
For our God overflow**

Every tongue will come to call
And be enthralled
A name standing tall
Our God from long ago
Our heart bestows
And our love shows

In our heart we know him
With all our love we owe him

**With our God
Is where our love grows
In our God
We have come to know**

**So let love
For our God overflow**

**So let love x4
For our God overflow**

Instrumental

And every time we hear him
We do well to fear him

**With our God
Is where our love grows
In our God
We have come to know
So let love
For our God overflow**

**Love for God
You can never let go
In our God
Is where confidence grows
So let love
For our God overflow**

A song appreciating our Father's goodness and how we should reflect it.

In the darkness he brought out the light
Even though his virtue is always in sight
In his goodness he gave us the chance
To hear his word and always understand
His good virtue testifies to his name
Righteousness is for what he is famed

Love is in his touch
And it feels good to know
Giving more than enough
His goodness overflows

We can taste it in the air that we breathe
It's there and waiting for all to receive

**His virtue's in control
His goodness good to know
We can see it every day
And feel it in every way
A gentle melody
His goodness good to know
Oh-ho**

His virtue is greater than the heavens above
You can feel it in everything that we love
A goodness so bright it lights up the skies
And how his virtue reflects in our eyes

Perfect are his ways
And it feels good to know
A God always upright
And every day he will show

We can sense his goodness in all that we see
His supreme virtue is always guaranteed

**His virtue's in control
His goodness good to know
We can see it every day
And feel it in every way
A gentle melody
His goodness good to know
Oh-ho**

**It can't be overthrown
His goodness good to know
Always lighting up the day
So we see the perfect way
A joy beyond compare
His goodness good to know
Oh-ho**

Instrumental

**His virtue's in control
His goodness good to know
We can see it every day
And feel it in every way
A gentle melody
His goodness good to know
Oh-ho**

**It can't be overthrown
His goodness good to know
Always lighting up the day
So we see the perfect way
A joy beyond compare
His goodness good to know
Oh-ho**

A song about how true worship is found in the heart of the world.

Back in the days of unsteady people
The heart in Satan's world was harsh
The world spun its back on our Father
Because the love for God was sparse

Back in the years of material people
And the heart of the world was cold
They strived to gain but nothing given
Never believing the things foretold

Now the world has spun back into place
And true worship is found in its embrace

**Found in the heart of the world
True worship has made its return
As our love for you always burns
We hold the Father in high esteem
Loving the one who is supreme
It's found in the heart of the world**

We're living in a time of righteous people
The world's heart under kingdom rule
Every shiny eye now sees our Father
And now the earth shines like a jewel

We're living in this time lasting forever
When the people are now true to you
Making true worship their endeavour
To love and honour you all will pursue

And the world rotates in the truest of ways
Because we worship our Father every day

**Found in the heart of the world
True worship has made its return
As our love for you always burns
We hold the Father in high esteem
Loving the one who is supreme
It's found in the heart of the world**

Instrumental

Now the world has spun back into place
And true worship is found in its embrace

**Found in the heart of the world
True worship has made its return
As our love for you always burns
We hold the Father in high esteem
Loving the one who is supreme
It's found in the heart of the world**

**Found in the heart of the world
True worship has made its return
As our love for you always burns
We hold the Father in high esteem
Loving the one who is supreme
It's found in the heart of the world**

It's found in the heart of the world

20 To Praise Him Forever is Our Need

A song about why want to worship our Heavenly Father.

With many reasons to praise Him
Many hearts admiring His ways
He's the creator of a world new
Bringing delight to endless days

Offer yourselves a living sacrifice
Keep commandments every day
The almighty you'll now magnify
When we live in his perfect ways

Our Father is our loving creator
We can worship today
And forever always

**We worship our God and Father
Seeing His goodness every day
Showing him our endless honour
Happiness found when we obey
We worship our loving shepherd
With every word and every deed
To praise Him forever is our need**

A relationship that is compelling
With the almighty in the heights
And our worship is always telling
When we obey His ways of right

His works we've come to admire
Marvels existing throughout time
To worship Him is what we aspire
In all our words deeds and rhymes

For He is the source of goodness
Deserving of our praise
Yes forever always

**We worship our God and Father
Seeing His goodness every day
Showing him our endless honour
Happiness found when we obey
We worship our loving shepherd
With every word and every deed
To praise Him forever is our need**

Instrumental

Our Father is our loving creator
We can worship today
And forever always

**We worship our God and Father
Seeing His goodness every day
Showing him our endless honour
Happiness found when we obey
We worship our loving shepherd
With every word and every deed
To praise Him forever is our need**

To praise Him forever is our need

Section 4: Family and Marriage

Two Hearts (God's Standards they Rely)

A song about how a married couple rely on God's standards.

Two single hearts can be quickly torn in two
A threefold chord is an enduring glue
That can strengthen you

A single heart cannot beat on it's own
Wants to be with another who's alone
One flesh but two

We cannot be two people when our Father makes us one

***Two hearts that cannot say goodbye
Two hearts that can stand the test of time
God's standards they rely
Two hearts that have forever in mind
Two hearts that scales the life we climb
God's standards they rely
A threefold chord cannot die***

A single beat requires another to be heard
Relying on the peace of God's word
A tear is deterred

A single mind needs to be clarified
Two hearts as one can best decide
When headship is applied

We cannot be two people when our Father makes us one

***Two hearts that cannot say goodbye
Two hearts that can stand the test of time
God's standards they rely
Two hearts that have forever in mind
Two hearts that scales the life we climb
God's standards they rely
A threefold chord cannot die***

Instrumental

We cannot be two people when our Father makes us one

***Two hearts that cannot say goodbye
Two hearts that can stand the test of time
God's standards they rely
Two hearts that have forever in mind
Two hearts that scales the life we climb
God's standards they rely
A threefold chord cannot die***

A song about how love is at the heart of the family.

The heavenly bodies
Move in a special way
Revolving around the earth
To bring the light of day
It's a family secure
Having a special place

Peace is found in their coordination

A man can provide
For those who are his own
Organised for peace
Providing a secure home

***Peace is found
In the heart of the family
Secure and free from calamity
When every soul
Is bound by love's gravity***

An orchestra plays
Sounds in a certain way
Following the patterns
Taken from the page
Conducted together
To return a melody

Beautiful creation in its coordination

A family is conducted
To accomplish peace
Obedient to the one
Taking the guiding lead

***Peace is found
In the heart of the family
Secure and free from calamity
When every soul
Is bound by love's gravity
Security is found
With obedient personalities
Part of our individuality
When every soul
Is bound by love's gravity***

Instrumental

Peace is found in their coordination

A man can provide
For those who are his own
Organised for peace
Providing a secure home

***Peace is found
In the heart of the family
Secure and free from calamity
When every soul
Is bound by love's gravity
Security is found
With obedient personalities
Part of our individuality
When every soul
Is bound by love's gravity***

A song about loving our marriage mate forever.

The tides disappear from sandy shores
And every moment will pass us by
Clouds come and go forgotten rains pour
Every breeze disappears into the sky

But love never fails, it's stronger than sunshine
Deeper than mountains and longer than time

***What God yoked together, forever
May no man put apart
No end follows the start
Love forever with one beating heart
Let's love forever***

Moons disappear behind sunlight
Fruits devoured by birds in the air
A fire takes away when it's alight
As the rivers flow by without a care

But love always endures its stronger than castles
Warmer than sunshine and sweeter than wine

***What God yoked together, forever
May no man put apart
No end follows the start
Love forever with one beating heart***

Let's love forever

Instrumental

But love never fails, it's stronger than sunshine
Deeper than mountains and longer than time

***What God yoked together, forever
May no man put apart
No end follows the start
Love forever with one beating heart
Let's love forever***

4 In this World Where We Reside

A song about our global family we love in unity.

A distant world without unity
They lived separate and apart
Not coming to know one another
It was a world without a heart

We extend our arms to the world
For God's people have learned
Every soul on earth is our family
And we dwell together in unity

The earth providing love on demand
We're all dwelling together hand in hand

**In this world where we reside
Love is found so far and wide
Every face is our family
Showing concern eternally
In this world where we reside
Love always occupies
Each and every smiling face
In this world where we reside**

An ancient command was given
To go out and fill the very earth
With our loving human family
Relatives all from creations birth

The flavour of humanity are bonds of love
And mankind came to mirror our Father above

**In this world where we reside
Love is found so far and wide
Every face is our family
Showing concern eternally
In this world where we reside
Love always occupies
Each and every smiling face
In this world where we reside**

Instrumental

The earth providing love on demand
We're all dwelling together hand in hand

**In this world where we reside
Love is found so far and wide
Every face is our family
Showing concern eternally
In this world where we reside
Love always occupies
Each and every smiling face
In this world where we reside**

5 The House that is Built on Love

A song about how the household is built on love.

The home is where the heart should be
All worshipping together with harmony
One lead makes the family one
Like a melody leads the song

Gathered together we're not alone
In praising God before His throne
It puts the beat in our heart
Yes family is where love starts

Your home is a special place
Where loving fellowship you embrace

**Every day you'll find
A place where you're entwined
And love always defined
The house that is built on love
A bond you'll forever know
And love makes you glow
Affection that overflows
The house that is built on love**

All the love never falls asleep
As our affection is always deep
Like pouring sunlight in the day
A house of love is God's way

Worshiping as one together
As the great times last forever

**Every day you'll find
A place where you're entwined
And love always defined
The house that is built on love
A bond you'll forever know
And love makes you glow
Affection that overflows
The house that is built on love**

*Anyone can build a perfect home
With the love they hold so dear
No matter how far away we are
Our family is forever and ever near*

Instrumental

Your home is a special place
Where loving fellowship you embrace

**Every day you'll find
A place where you're entwined
And love always defined**

A song about how our Father is the main cord of a marriage.

Two hearts have their say
By conduct they display
Two become one
When they shine in the way

Two good hearts are true
And never are they through
Forever one
When our Father is guiding you

They listen to the sound
God's voice they have found
Two hearts
Growing together from the ground

Their fruitage leads the way
Leading to a perfect day
Listening hearts
With every quality here to stay

With one flesh for all eternity

**The strength in a cord of three
Is a marriage of certainty
One flesh never disagrees
In a cord of three**

Their marriage is the proof
That God's ways are the glue
Sturdy bonds
In the way of the truth

Their hearts are never sad
Perfect is every strand
Listening to
All of God's commands

Their hearts will forever be

**The strength in a cord of three
Is a marriage for eternity
Two hearts with only one key
In a cord of three**

Instrumental

With one flesh for all eternity
Their hearts will forever be
Perfection in a cord of three

**The strength in a cord of three
Is a marriage of certainty
One flesh never disagrees
In a cord of three**

**The strength in a cord of three
Is a marriage for eternity
Two hearts with only one key
In a cord of three**

7 Don't Wait to Build Up in Love

A song about using positive words to build up a marriage.

How a good marriage is built by design
Built with just one good word at a time
A heart can break by the words we say
Forcing good times to simply fade away

With true love the light can shine
When there's no dark clouds to undermine
Two hearts as one are forever true
If only a good word we pursue

**Don't wait to say what is fine
In the hope for
A marriage that shines
Don't wait to say what is true
And empty words are never enough
Say what you mean with your love
And don't wait
Don't wait to build up with love**

How a strong bond cannot be denied
Using all the good words that fortify
A heart responds with what they hear
Knowing that your true love is near

And in their heart your words will shine
Strengthening your bonds time after time
With your good words you'll always prove
That your forever love is always true

**Don't wait to say what is fine
In the hope for
A marriage that shines
Don't wait to say what is true**

**And empty words are never enough
Say what you mean with your love
And don't wait
Don't wait to build up with love**

Instrumental

With true love the light can shine
When there's no dark clouds to undermine
Two hearts as one are forever true
If only a good word we pursue

**Don't wait to say what is fine
In the hope for
A marriage that shines
Don't wait to say what is true
And empty words are never enough
Say what you mean with your love
And don't wait
Don't wait to build up with love**

**Don't wait to say what is fine
In the hope for
A marriage that shines
Don't wait to say what is true
And empty words are never enough
Say what you mean with your love
And don't wait
Don't wait to build up with love**

8 Where the Deepest Love is Shown

A song about how love is found at home.

As the world turns over
We embrace our family
Everyone plays a part
It's a special place to be

A thousand reasons
To take every opportunity
To dwell together in our unity

**Take your place in the family
It's the perfect place to be
So comforting is our family home
Where the deepest love is shown**

When the daylight rises
We know where we want to be
Where loving everyone
Is the heart of the family

The warmest of feelings
Enjoying our home every day
A place where we always want to stay

**Take your place in the family
It's the perfect place to be
So comforting is our family home**

Where the deepest love is shown

**Our family is where we belong
A place where our love is strong
And ill feelings are unknown
Where the deepest love is shown**

*You can feel a warmth deep inside you
A place where your love is returned
And oh how love's fire will burn*

A thousand reasons
To take every opportunity
To dwell together in our unity

**Take your place in the family
It's the perfect place to be
So comforting is our family home
Where the deepest love is shown**

**Our family is where we belong
A place where our love is strong
And ill feelings are unknown
Where the deepest love is shown**

A close-up photograph of a stringed instrument, likely a sitar or a similar Indian stringed instrument. The image shows several thin, light-colored strings running diagonally across the frame. In the background, there is a large, circular sound hole (f-hole) with a dark, possibly black, interior. The rim of the sound hole is decorated with a pattern of small, dark, circular motifs. The overall color palette is warm, with shades of brown, tan, and black. The text "Section 5: Spiritual Education" is overlaid in white, bold, sans-serif font on the left side of the image.

Section 5: Spiritual Education

Take the Words From the Page

A song about learning from experiences found in God's word.

Answers you can find
When you look behind
Reaching out to
Give you a hand
History there to embrace
Learning truth by mistakes
Experiences that
Help understand

Examples can abound
Explanations can be found
A doorway to the
Answers we seek
A deep ocean full of life
Former times with advice
The days are waiting
And ready to speak

Scrolls that turn
Unleash memories

***Take the words from the page
And turn them into wisdom
Learning from the lives behind
Take the words from the page
And every answer will come
You can find the way
From the yesterday***

An understanding of the past
Is responding to what's asked

Answers behind every name
We're dwelling in the truth
Words answer with the proof
Every solution that
We can reclaim

Scrolls that turn
Unleash what we seek

***Take the words from the page
And turn them into wisdom
Learning from the lives behind
Take the words from the page
And every answer will come
You can find the way
From the yesterday***

Instrumental

Scrolls that turn
Unleash memories

***Take the words from the page
And turn them into wisdom
Learning from the lives behind
Take the words from the page
And every answer will come
You can find the way
From the yesterday***

A song about listening to God's voice only found in God's word.

Like the light shines across the skies
We hear your word in the heart of life
Like the breeze travels through the night
We hear your voice calling in these times

We know to listen to the loudest call
Your wisdom paves the way for us all
So many voices claim to know the way
Yet only your voice puts light in the day

We know your voice and its the food we love
Your message in your word comes from above

**Your every word draws us near
We read your word and its you we hear
We hear you clearly in the darkest times
The sound of your voice as we read the lines
A happy heart has nothing to fear
When your every word draws us near**

So many voices in the heat of these times
How they twist your words by their design
Never understanding your words of truth
Making many claims never providing proof

We know the sound of your commanding voice
We love to hear the sounds of your word and rejoice

**Your every word draws us near
We read your word and its you we hear
We hear you clearly in the darkest times
The sound of your voice as we read the lines
A happy heart has nothing to fear**

When your every word draws us near

**Your every word draws us near
We turn the page of truth and you're here
It's joy we feel when we hear your sound
When truth and wisdom is gaining ground
The wisest hearts no longer fear
When your every word draws us near**

We no longer stumble in the darkness
We came to know you in your word
Your voice is how the heart is sharpened
With the pearls of wisdom that we heard

Instrumental

We know your voice and its the food we love
Your message in your word comes from above

**Your every word draws us near
We read your word and its you we hear
We hear you clearly in the darkest times
The sound of your voice as we read the lines
A happy heart has nothing to fear
When your every word draws us near**

**Your every word draws us near
We turn the page of truth and you're here
It's joy we feel when we hear your sound
When truth and wisdom is gaining ground
The wisest hearts no longer fear
When your every word draws us near**

A song about your spiritual journey.

This is your journey
An adventure for your soul
And forever learning
You've made God's word your own

Experience comes from
The light in the day
Ending the night
When the sun's far away
Building a bridge
Made of knowledge and stone

Finding refreshment for your soul

**The night has ended with the day
The fear of dark has passed away
God's word
Shines forever
Knowledge found in the light
Every lie meets its demise
His every word
Comes together
His truth's a paradise
You've made the journey for your life**

Every way becomes clearer
Eyes opening in the light
The truth ever dearer
The light you cannot hide

God's word our journey
That will never end
The way is the way
All come to depend
And forever guided
By the light on the road

Using the knowledge we know

**The night has ended with the day
The fear of dark has passed away
God's word
Shines forever
Knowledge found in the light
Every lie meets its demise
His every word
Comes together
His truth's a paradise
You've made the journey for your life**

**Ways of truth that we confess
Lead to joy and happiness
The pulse of truth
Beats forever
Let light shine upon the heart
With every word that he imparts
And worth
Our endeavour
The truth's a paradise
You've made the journey for your life**

Paradise is what you know x 2

Instrumental

Finding refreshment for your soul

Choruses

Paradise is what you know

A song about learning the truth from the Bible, God's word.

With every motion
We have served you
Fulfilling the need
To plant every seed of truth

Living the best life
In the worst times
We were loving the way
In the times of decay we knew

Above and beyond
Heard and respond
We made our bond
With you

The days almost gone
We continued on
And relied upon
Upon you

**The last days are gone
But our love's living on
We're learning your truth
And being moulded by you
The last days are gone
But our love isn't new
We're learning your truth
And being moulded by you
A new world can't learn without truth
And our love finds no excuse
The last days are gone
But we carry on
We're learning your truth
And being moulded by you**

From every nation
We've come together
Turning the page
And learning the way of truth

With no distraction
We have come to action
Teaching the way

And starting the day anew

The days are through
And the world is new
And learn the truth
From you

It's our paradise
To break the ice
Learn and clarify
With you

**The last days are gone
But our love's living on
We're learning your truth
And being moulded by you
The last days are gone
But our love isn't new
We're learning your truth
And being moulded by you
A new world can't learn without truth
And our love finds no excuse
The last days are gone
But we carry on
We're learning your truth
And being moulded by you**

Instrumental

Above and beyond
Heard and respond
We made our bond
With you

The days almost gone
We continued on
And relied upon
On you

Chorus

A song about our appreciation for God's ways.

The earth can be filled
With our Father's glory
When the young obey

A trust from our God
They're of his creation
They need to know the way

Many are their days
If good conduct they display

Train them with love
Discuss
Our Father's ways

The young can abound
In perfect wisdom
As examples in the crowd

They're ready to learn
From God's Kingdom
Light that is strong and loud

Their hearts step out of the haze
When we teach them every day

Train them with love
Discuss
Our Father's ways

*A daystar is rising
Showing the way
We're providing
The way that is true
Open their hearts to see
Building their hearts for eternity*

Instrumental

Constructing with love
In perfect measure
A heart can believe

Teach our beloved
All our Father's treasures
Let their hearts receive

Perfection is our aim
Young ones free from blame

Train them with love
Discuss
Our Father's ways

Our Father's ways

A song about our spiritual progress in the new world.

Behind the shade
Contains the light shining through
Behind the scrolls
Shines the light of a world that's new

Years of time foretold
Open scrolls to reach every heart
Everyone will get to taste
Your wisdom that sets you apart

***Teach me your will
Let the new world begin in the heart
(in the heart)
Let your wisdom instil
All of my inner parts
You foretold a life forever
So the heart welcomes every single word you say
Let the new world begin in the heart***

Behind everyone
True perfection will come to be
Behind your son
Your winsome ways will be there to see

In every word we learn
How to make a perfect paradise
In every scroll that is turned

Will every heart entice
***Teach me your will
Let the new world begin in the heart
(in the heart)
Let your wisdom instil
All of my inner parts
You foretold a life forever
So the heart welcomes every single word you say
Let the new world begin in the heart***

Instrumental

In every promise fulfilled
Is a forever without endless pain
And every word that you say
Will echo through Jesus rein

***Teach me your will
Let the new world begin in the heart
(in the heart)
Let your wisdom instil
All of my inner parts
You foretold a life forever
The heart welcomes every single word you say
Let the new world begin in the heart***

7 Let God's Word Light the Way

A song about being guided by God's voice.

In the theatres of life
The script's always right
God's word follows through
Truth is in every word
That's spoken and heard
Every promise came true

Lies blown in the wind
Now the truth has entered in
There's never a truer word
Everything we hear,
Has already occurred

***Let God's word light the way
The truth can never disobey
All the promises of yesterday
Each one proved to be true
We're confident in the truth
Let God's word light the way
Fulfilling words won't delay
Listen to every pledge
And let God's word light the way***

Truth motivated within
No lies will He ever spin
Love is behind every truth
A guarantee in each word
What honest hearts prefer
True words have no dispute

Empty promises generate
distrust
With true words a heart is
touched
Every fulfilment brings delight

Every promise made
Is always in our sights

***Let God's word light the way
The truth can never disobey
All the promises of yesterday
Each one proved to be true
We're confident in the truth
Let God's word light the way
Fulfilling words won't delay
Listen to every pledge
And let God's word light the way***

Certainty is found in every
word
Like the light is found at day
Clarity can never become
blurred
All His promises are on their
way

Instrumental

Chorus

A song about how learning about God and His purpose.

In the dark there's only
lies
The forbidden place
Where we lived our lives
And never knowing where
We lived when we die
An aborted world living in fear
Where every heart cried

***Your word will always be our
paradise***

Eyes closed just like the
blind
And hidden truths left far
behind
Living in a world cold and
unkind
Until the day when God's word
started to shine

***Your word will always be our
paradise***

In every word there's a song
And desirable hearts want to
sing along
Everlasting life is where they
belong
Righteous hearts who want to
live only as one

***Your word will always be,
Your word will always be our
paradise***

*A day star rises in hearts that
Were blue
Days of darkness replaced with
the truth
A life of hope in a world that's
Now through
Eternity await hearts that
are true*

When truth was not known
Good news of true knowledge was
Sown
Hearts feeding from seeds that were
Grown
Life giving waters ever flowing
from the heavenly throne

***Your word will always be,
Your word will always be,
Your word will always be,
Your word will always be our
paradise***

A song about how we listened to the good news.

A delivered people
Receiving the crown of life
For all eternity
Delivered from evil
We learn to be truly wise
From harm we are free

Helped to see with our Father's insight
He teaches His perfect ways
Educated by the one in the heights
He shaped our heart
Like softened clay

**You heard the good word
Listened with an open heart
You heard the good word
For a timeless life
You heard the good word
And listened with all your soul
The sayings of pure gold**

Listened with an open heart

All eternity
Can hear the beat of your heart
As you're bonding with His ways
For a certainty
His food is what we impart
Every morsel adding days

When we listen the clearer we see
Eternal life we can foresee
Wisdom follows behind every word

With every gleaming gem
Our heart is stirred

**You heard the good word
And his wisdom you observed
You heard the good word
Loving the things that you heard
You heard the good word
Observing him as your guide
His sayings are for lasting life**

Listened with an open heart

Instrumental

Helped to see with the Father's insight
He teaches His perfect ways
Educated by the one in the heights
He shaped our heart
Like softened clay

Choruses 1 & 2

A song about how God's word transforms us.

We make every endeavour
To forge our forever
Armed with the truth
And forgetting the old days
With our former ways
That are through

All that we once believed
Has gone in a single day
Lies vanishing in the haze
We came to hear it
And now we believe it

**Now we've heard your word
Our hearts are changing
In the way God approves
Living a life that's true
Our hearts are changing
Now we've heard your word**

**Now we've heard your word
Our hearts can't deny it
We can see its true
The light is shining through
Our hearts are joyful
Now we've heard your word**

The light is more clearer
And now we feel nearer
Because of the truth
It's something we treasure
It's our joy and pleasure
And its shining through

A bright daystar in the heart
It's changing everything we are
Leaving all the old ways afar
We came to learn it
And now we yearn it

**Now we've heard your word
Our hearts are changing
In the way God approves
Living a life that's true
Our hearts are changing
Now we've heard your word**

**Now we've heard your word
Our hearts can't deny it
We can see its true
The light is shining through
Our hearts are joyful
Now we've heard your word**

Instrumental

All that we once believed
Has gone in a single day
Lies vanishing in the haze
We came to hear it
And now we believe it

Choruses

A song about how we value our relationship with our Father.

We heard the sound
Coming from afar
Hearing every word
Knowing who you are

You opened our eyes
To see the light
Teaching us the way
To do what's right

Satan's world obscured the way
Taking sunlight away
Out of the day
Educated so we can learn
As the pages turned
Our hearts would burn

**It's so good to know you
Know you
And it's changing our heart
We're learning to fear you
As we make a new start
It's so good to know you
Know you
Guiding steps that we make
We learn more about you
With every breath that we take**

Leaping from the page
We learned your ways
And gaining knowledge
With every passing day

Power in your words
Our emotions stirred
Finding the true way
In the truth that we heard

Gaining knowledge for lasting life
You we've come to know
The seed was sown
Words cutting just like a knife
Dividing right from wrong
In the heart they belong

**It's so good to know you
Know you
And it's changing our heart
We're learning to fear you
As we make a new start
It's so good to know you
Know you
Guiding steps that we make
We learn more about you
With every breath that we take**

Instrumental

Choruses

A song about how we love to hear God's word.

How we love to hear it x2

Our mind's awake and the day is fine
There's so many things to learn
Our ears alert and they're inclined
We never stop hearing
We never stop adhering
To his words
Turning darkness into light

**We yearn to learn the truths we know
How we love to hear it
The truth in our hearts will overflow
How we love to hear it
We know the words to our Father's song
So lets continue to sing along
In our heart the truth belongs
How we love to hear it**

Every word ignites the heart and it shines
His light reveals something new
With learning in our heart and mind
We never stop listening
It's only the beginning
The knowledge is great
Turning blindness into sight

**We yearn to learn the truths we know
How we love to hear it
The truth in our hearts will overflow
How we love to hear it
We know the words to our Father's song
So lets continue to sing along**

**In our heart the truth belongs
How we love to hear it**

Instrumental

His words echo every day and night
Every ear will hear what's true
Dark has no power against the light
There's no deception
There's no exception
The knowledge is great
Turning wrong into right

**We yearn to learn the truths we know
How we love to hear it
The truth in our hearts will overflow
How we love to hear it
We know the words to our Father's song
So lets continue to sing along
In our heart the truth belongs
How we love to hear it**

A song about our spiritual progress and maturity.

Everyone can hear
The sound of a heart
It speaks with the tongue
And facial expression
The sound can be good
Or it can turn friends away
And whatever we say
Will always finds that instant reaction

What we say is what we feel
And what we say is always real
Every soul has a heart inside
So strong and loud, it cannot hide

**Imperfection is fading
When we read through the pages
And we please our Father
When our heart is changing**

We can listen to
The sound of each sin
And we can learn
To change the sound within us
Each passing day
We learn more and more
Building a melody
That will benefit us forever and ever

Listen to God as He listens to you
Your figurative heart will be in tune
A changing heart is a changing sound
Perfection is turning, turning you around

**Imperfection is fading
When we read through the pages
And we please our Father
When our heart is changing**

**Perfect heart beating
When our sin is defeated
Pleasing our creator
When our heart is changing**

Instrumental

What we say is what we feel
And what we say is always real
Every soul has a heart inside
So strong and loud, it cannot hide

**Imperfection is fading
When we read through the pages
And we please our Father
When our heart is changing**

**Perfect heart beating
When our sin is defeated
Pleasing our creator
When our heart is changing**

A song about our discovery of the Bible and its accounts.

We're dwelling in their history
Living in the words that we read
How the mind sees
As we walk through many words
There are lessons to be learned
We can roam free

The former times is what we now know
And every word are seeds being sown
As we meander through their shadows
The heart will open like a window

**We are living in the words
To be seen to be heard
Every emotion is stirred
With our senses
We are living in the words
Another lesson learned
Experiences transferred
With our senses**

We can take a walk with our mind
Greeting those time left behind
Lives with meaning
Their reflections are in our eyes
Finding how their lives can apply

Seeing is believing

And as we read with no hesitation
How the eyes travel through creation

**We are living in the words
To be seen to be heard
Every emotion is stirred
With our senses
We are living in the words
Another lesson learned
Experiences transferred
With our senses**

**We are living in the words
To be seen to be heard
Every emotion is stirred
With our senses
We are living in the words
Another lesson learned
Experiences transferred
With our senses**

Instrumental

A song about how God's light destroys the darkness.

The light was too bright to handle
Blinding those who were in the dark
Flames blown out from their candle
No oxygen found in their heart

In the darkness a foot can stumble
As the dark never reveals the way
The dark can only lead to trouble
A heart without light is its prey

But his word was our compass
Holding the key to see us through

**So there's no darkness
When we live in the light
No darkness
Whoa
When the sun was down
Light still there to be found
No darkness**

Misguided in a world of darkness
Words ignored that cured the night
In the hearts that were sparkless
There was never the gift of life

A wicked heart always tumbles
When the light is too far away
And happiness begins to crumble
When the darkness is here to stay

The light seeks a heart to shine on
And it was shining in me and you

**So there's no darkness
In a heart that's upright
No darkness
Whoa
We held on to the light
In the heat of the night
No darkness**

**In the heat of the night
No darkness**

Instrumental

To the light our attention listened
And the sun never set in the night

**So there's no darkness
When we live in the light
No darkness
Whoa
When the sun was down
Light still there to be found
No darkness**

**So there's no darkness
In a heart that's upright
No darkness
Whoa
We held on to the light
In the heat of the night
No darkness**

A song about how we can hear God's voice over the noise of the world.

In the times of silent voices
Your message strong and loud
Found in the many pages
Is the one behind the clouds

In the times of many choices
We chose to hear your words
The world listened to the noises
That expressed their own terms

The sound of your voice never fade
To those who listened and obeyed

**Your many words we heard
Amongst the noise of the world
We were never afraid
To listen and obey
Oh the wisdom that we learned
And our deepest fears overturned
The loudest voice is your word
The loudest voice is your word**

In the time of so many noises
They were always lead astray
While those who are rejoicing
Benefit from every word you say

And in the times being far from silent
The greatest voice we became reliant

**Your many words we heard
Amongst the noise of the world
We were never afraid**

**To listen and obey
Oh the wisdom that we learned
And our deepest fears overturned
The loudest voice is your word
The loudest voice is your word**

Instrumental

The sound of your voice never fade
To those who listened and obeyed

**Your many words we heard
Amongst the noise of the world
We were never afraid
To listen and obey
Oh the wisdom that we learned
And our deepest fears overturned
The loudest voice is your word
The loudest voice is your word**

**Your guidance that we heard
Was our lighthouse in the world
A sound drawing us near
And destroying our fears
As the deaf ones felts disturbed
Your winsome words we preferred
The loudest voice is your word
The loudest voice is your word**

A song about how Satan deceives through religion and unbelievers.

The blinder of the believers
He twisted God's holy words
He is the master deceiver
Misbeliefs are what we heard

Using religion to stumble people
So they failed to know God's way
Redirecting the compass needle
And the sheeplike became a stray

Now we are purging every lie
And looking to the one on high

**The truth can only come from you
And twisted words can never be true
You know the melody of the earth
Man can only listen and observe
Never listen to those who construe
The truth can only come from you**

The blinder of the unbelievers
Led the people to their harm
They listened to God's creatures
Lives that never found their calm

Allowing the blind to lead the blind
Leaving all of God's sense behind
Those who hear listen to the word
Heard your voice and they observed

Now in the fullness of the days
We came to learn God's true ways

**The truth can only come from you
And twisted words can never be true
You know the melody of the earth
Man can only listen and observe
Never listen to those who construe
The truth can only come from you**

Instrumental

Now we are purging every lie
And looking to the one on high

**The truth can only come from you
And twisted words can never be true
You know the melody of the earth
Man can only listen and observe
Never listen to those who construe
The truth can only come from you**

Truth can only come from you

18 The Word of God Was Sown in Our Heart

A song about Jesus parable about the seed and soil types.

The blinder of the believers
He twisted God's holy words
He is the master deceiver
Misbeliefs are what we heard

Using religion to stumble people
So they failed to know God's way
Redirecting the compass needle
And the sheeplike became a stray

Now we are purging every lie
And looking to the one on high

**The truth can only come from you
And twisted words can never be true
You know the melody of the earth
Man can only listen and observe
Never listen to those who construe
The truth can only come from you**

The blinder of the unbelievers
Led the people to their harm
They listened to God's creatures
Lives that never found their calm

Allowing the blind to lead the blind
Leaving all of God's sense behind
Those who hear listen to the word
Heard your voice and they observed

Now in the fullness of the days
We came to learn God's true ways

**The truth can only come from you
And twisted words can never be true
You know the melody of the earth
Man can only listen and observe
Never listen to those who construe
The truth can only come from you**

Instrumental

Now we are purging every lie
And looking to the one on high

**The truth can only come from you
And twisted words can never be true
You know the melody of the earth
Man can only listen and observe
Never listen to those who construe
The truth can only come from you**

Truth can only come from you

A song about how being obedient to God brings happiness.

Like the insect drawn to the light
We are drawn to do what's right
Loving the way of righteousness
By the way you have guided us

How we love your perfect law
The good things that we adore
Teaching your subjects the way
From your law we never stray

We see the perfect light of day
Happy when we love to obey

**Happiness begins with your law
To your wisdom people are drawn
We trust your truest of ways
Benefiting each and every day
Happiness begins with your law
Your loving ways we are drawn**

Like iron is drawn by a magnet
We are drawn to your loving way
Like a catch taken by its dragnet
We love your perfect law everyday

Doing right is a powerful gravity
That draws a righteous heart
A far cry from a world of travesty
That tares our happiness apart

We love the joy your ways bring
Taught by the way of Jesus our king

**Happiness begins with your law
To your wisdom people are drawn
We trust your truest of ways
Benefiting each and every day
Happiness begins with your law
Your loving ways we are drawn**

Instrumental

We see the perfect light of day
Happy when we love to obey

**Happiness begins with your law
To your wisdom people are drawn
We trust your truest of ways
Benefiting each and every day
Happiness begins with your law
Your loving ways we are drawn**

Your loving way we are drawn

A song about how time gave us the opportunity to live by God's standards.

Time is a remedy for every injury
When the world's days were cold
Impatience is time's worst enemy
Appointed times eventually unfold

Time is a healer for a painful way
The pain was created through a lie
Allowing the evidence to shine upon
Our Father's rulership is truly right

We waited patiently for God's great day
And we learned His truth along the way

**God's word was written for our instruction
And guided us through the times of old
The companion while waiting for the day
Time allowed every good heart to unfold**

Time has been a friend to everyone
Gave us the time we need to learn
Each rotation of the wicked world
Gave time for former ways to burn

Time allowed the heart to prove true
Acting on the words that we heard
Gave opportunity to shine through

Mirroring the wisdom of God's word

We waited patiently for what we prayed
Turning to God's word guiding every day

**God's word was written for our instruction
And guided us through the times of old
The companion while waiting for the day
Time allowed every good heart to unfold**

Instrumental

We waited patiently for God's great day
And we learned His truth along the way

**God's word was written for our instruction
And guided us through the times of old
The companion while waiting for the day
Time allowed every good heart to unfold**

Time allowed every good heart to unfold

A close-up, artistic photograph of the internal mechanism of a brass instrument, likely a trumpet or trombone. The image shows various brass components, including valves, pistons, and tubing, with a warm, golden-brown color palette. The lighting is soft and focused, creating a bokeh effect in the background. The text "Section 6: Dedication and Baptism" is overlaid in white, bold, sans-serif font in the upper left quadrant.

Section 6: Dedication and Baptism

1 Your Heart is Unwavering

A song about our spiritual integrity at the point of baptism.

God's Holy spirit is guiding you
Like the moon's hold is guiding the tide
Walking with our God in the truth
Is where your given wisdom resides

Now you cling to truth and fact
And your heart cannot turn back inside

Your heart is unwavering

God's word has made a home in your heart

Your heart is awakening

To a journey where dedications the start

Wear God's wisdom upon your back
And make your very aim towards the stars
Carry the word of truth in your sack
This perfect journey will take you far

What you learned you can't forget
Like a diamond that's been set inside

Your heart is unwavering

God's word has made a home in your heart

Your heart is awakening

To a journey where dedications the start

*A journey further than the eye can see
From your dedication to eternity
Allow God's wisdom to live in you
And you'll make your way with the truth*

Instrumental

Your heart is unwavering

God's word has made a home in your heart

Your heart is awakening

To a journey where dedications the start

Your heart is unwavering

The truth has made a home in your heart

Your heart is awakening

To a journey where dedications the start

2 With the Dedication You Display

A song about displaying our dedication to our Father.

Traveling along the good road
To your eternal destination
Fuelling with true knowledge
Always powering your way
Learning every mile at speeds
Of your own variation
And never the narrow road
Did you ever want to stray

With the dedication you display
Ooo dedication you display

***You set your course right
Followed the true light
Your dedication show's
A heart ready to go
You set every sail true
With the knowledge within you
And now you're on your way
With the dedication you display
Dedication you display***

Belonging to the same roots
Each one of us a flower
Fuelling with true knowledge
Your beauty made a start
Your very heart opened
At your own personal hour
Always making sure that
You safeguard your heart

With the dedication you display
Ooo dedication you display

***You set your course right
Followed the true light
Your dedication show's
A heart ready to go
You set every sail true
With the knowledge within you
And now you're on your way
With the dedication you display
Dedication you display***

Instrumental

Learning every mile at speeds
Of your own variation
And never the narrow road
Did you ever want to stray

With the dedication you display
Ooo dedication you display

***You set your course right
Followed the true light
Your dedication show's
A heart ready to go
You set every sail true
With the knowledge within you
And now you're on your way
With the dedication you display
Dedication you display***

A song about our baptism and dedication.

Gaining the knowledge
And making it heartfelt
Learning the way with the proof
It's shaping your heartbeat
And making you complete
You're immersed in the truth

Learning the best way
And applying it always
Is the joy you wear everyday
You're sharing it gladly
Relating the truth exactly
You're immersed in the truth

***From the waters you arise
You've dedicate your life
And awoken from the night
You want to do what's right
Like the sun rises
To greet the light
You're immersed in the truth***

Knowing the right way
Creating a bright day
The way you'll never refuse
Listening to Yahweh

Obey life's composer
You're immersed in the truth

***From the waters you arise
You've dedicate your life
And awoken from the night
You want to do what's right
Like the sun rises
To greet the light
You're immersed in the truth***

Immersed in the truth x4

*Just like the stars that shine
Your heart has come to fully align
Discovering the place and time
You've arisen with your heart refined*

Instrumental

***From the waters you arise
You've dedicate your life
And awoken from the night
You want to do what's right
Like the sun rises
To greet the light***

A song about our quest for eternal life.

Your heart can unfold just like a new day
 Finding the way through an open door
 Dedication is only one way
 Never to return to before

Gone are the painful times of sorrow
 Imperfection always ruled the broken days
 A heart lives only for tomorrow
 Yesterday disappears in the haze

In the mist of former times
 The truth was undermined
 And now you heard the voice
 Now you've made the choice

Your decision lasts forever
Forever comes
When you dedicate your life
Accepting the light
Shining so bright
In times of dark
The quest for life you've embarked
Dedication is eternal
Forever comes
When Yahweh guides your way
Always yearning
Always learning
In times of dark
The quest for life you've embarked

Your heart reborn in the early morning
 All your tomorrows are about to start
 The sounds of truth are now calling
 As your imperfect ways depart

You've found the way to life
 With Yahweh as your guide

In your heart it belongs
 When your new day dawns

Your decision lasts forever
Forever comes
When you dedicate your life
Accepting the light
Shining so bright
In times of dark
The quest for life you've embarked
Dedication is eternal
Forever comes
When Yahweh guides your way
Always yearning
Always learning
In times of dark
The quest for life you've embarked

Instrumental

Your decision lasts forever
Forever comes
When you dedicate your life
Accepting the light
Shining so bright
In times of dark
The quest for life you've embarked
Dedication is eternal
Forever comes
When Yahweh guides your way
Always yearning
Always learning
In times of dark
The quest for life you've embarked

A song about how we learned the truth about God and His purpose.

Amongst all the noise
There's a voice that could be heard
A calling to a distant land
Built on our Father's word

A calling to everyone who's meek
Sounding every truth they seek

**How we learned the truth
And it grew
And today we stand
In a world that's new
In the best of times
We're reaping from the vines
And living a life that's true
How we learned the truth**

Amongst all the noise
We learned good news and rejoiced
How we changed our lives
When we heard our Father's voice

Happy are the ones who heard
A life forever is what we've earned

**How we learned the truth
And it grew
And today we stand
In a world that's new
In the best of times
We're reaping from the vines
And living a life that's true
How we learned the truth**

**How we learned the truth
And His name
Learning the way**

**Was our aim
God drew us near
Through the words we hear
And His people we became
How we learned the truth**

Instrumental

Happy are the ones who heard
A life forever is what we've earned

**How we learned the truth
And it grew
And today we stand
In a world that's new
In the best of times
We're reaping from the vines
And living a life that's true
How we learned the truth**

**How we learned the truth
And His name
Learning the way
Was our aim
God drew us near
Through the words we hear
And His people we became
How we learned the truth**

A song about making a dedication in prayer.

Today I make my dedication to you
And in my heart my eternal faith is true
I heard your voice, came to believe in you
You are there in everything I say and do

Today I make my dedication to you
My prayer my heart my will to do
Oh how I loved to read your every word
A melody of righteousness you conferred

I heard your call
It reached my heart
To my listening ears
My faith made a start

**Your word of truth lives in my heart
A desire so strong it can't be torn apart
Your truth came and left its mark
The fire inside that destroys the dark
Today I dedicate my life to you
Your word of truth lives in my heart**

Today I make my dedication to you
Your message of life shines on through
Your every command I desire to obey
It reflects in everything I do and say

I heard your word
And oh how it chimed
Your message of truth
In the darkest times

**Your word of truth lives in my heart
A desire so strong it can't be torn apart
Your truth came and left its mark**

**The fire inside that destroys the dark
Today I dedicate my life to you
Your word of truth lives in my heart**

**Your word of truth lives in my heart
How I have loved your word from the start
Hanging on to the truth that you impart
There's a voyage to life and I've embarked
Today I dedicate my life to you
Your word of truth lives in my heart**

Instrumental

I heard your call
It reached my heart
To my listening ears
My faith made a start

**Your word of truth lives in my heart
A desire so strong it can't be torn apart
Your truth came and left its mark
The fire inside that destroys the dark
Today I dedicate my life to you
Your word of truth lives in my heart**

**Your word of truth lives in my heart
How I have loved your word from the start
Hanging on to the truth that you impart
There's a voyage to life and I've embarked
Today I dedicate my life to you
Your word of truth lives in my heart**

Your word of truth lives in my heart

A song about how we make a dedication in our daily deeds.

We wear our identity on our heart
 Displaying our faith in every way
 Our dedication is the very start
 We declare publicly without delay

In our personality our faith is seen
 Faith is the hallmark of the soul
 Our conduct has become pristine
 The fruitage of God's spirit in control

Our heart is understood with our actions
 Showing good fruitage in our interactions

**We're arising from the Jordan every day
 When the fruitage of the spirit we display
 What's in our heart can be seen
 When we live a life that's clean
 Our conduct always has much to say when
 We're arising from the Jordan every day**

Fruitage is the recipe of our heart
 The ingredients that sets us apart
 A peaceful journey we will embark
 And earning many positive remarks

And our heart will forever be admired

When we wear qualities always desired

**We're arising from the Jordan every day
 When the fruitage of the spirit we display
 What's in our heart can be seen
 When we live a life that's clean
 Our conduct always has much to say when
 We're arising from the Jordan every day**

Instrumental

Our heart is understood with our actions
 Showing good fruitage in our interactions

**We're arising from the Jordan every day
 When the fruitage of the spirit we display
 What's in our heart can be seen
 When we live a life that's clean
 Our conduct always has much to say when
 We're arising from the Jordan every day**

**Our baptism is our public declaration
 Our conduct seen through every generation
 We're arising from the Jordan every day**

A song about how a small seed can produce the most perfect person.

There's a heart praising loud

The gravity will forever draw us in
The love inside that you find within
It captures your righteous heart
The smallest seed is the start

The pearl resides inside your soul
Draws you to the ancient one of old
The love that can't be torn apart
The smallest seed is the start

And the force found in our mind and core
Is a desire to worship the God we adore

**When the seed that we once heard
Grew when a sower sowed your word
Our love for God transformed the heart
When your word grew with ample time
Our heart eventually became refined
The love we have made the vow
From a seed and a whisper
There's a heart praising loud**

Its a melody enlivening the rhyme
And the gravity will last for all time
Its the organ that keeps us alive
Our progress is now your delight

The breath bringing life to a soul
It's a love we love to always hold

It's the force that makes us thrive
Our progress is now your delight

And the love we have will never fade away
It's a force that resides in all we do and say

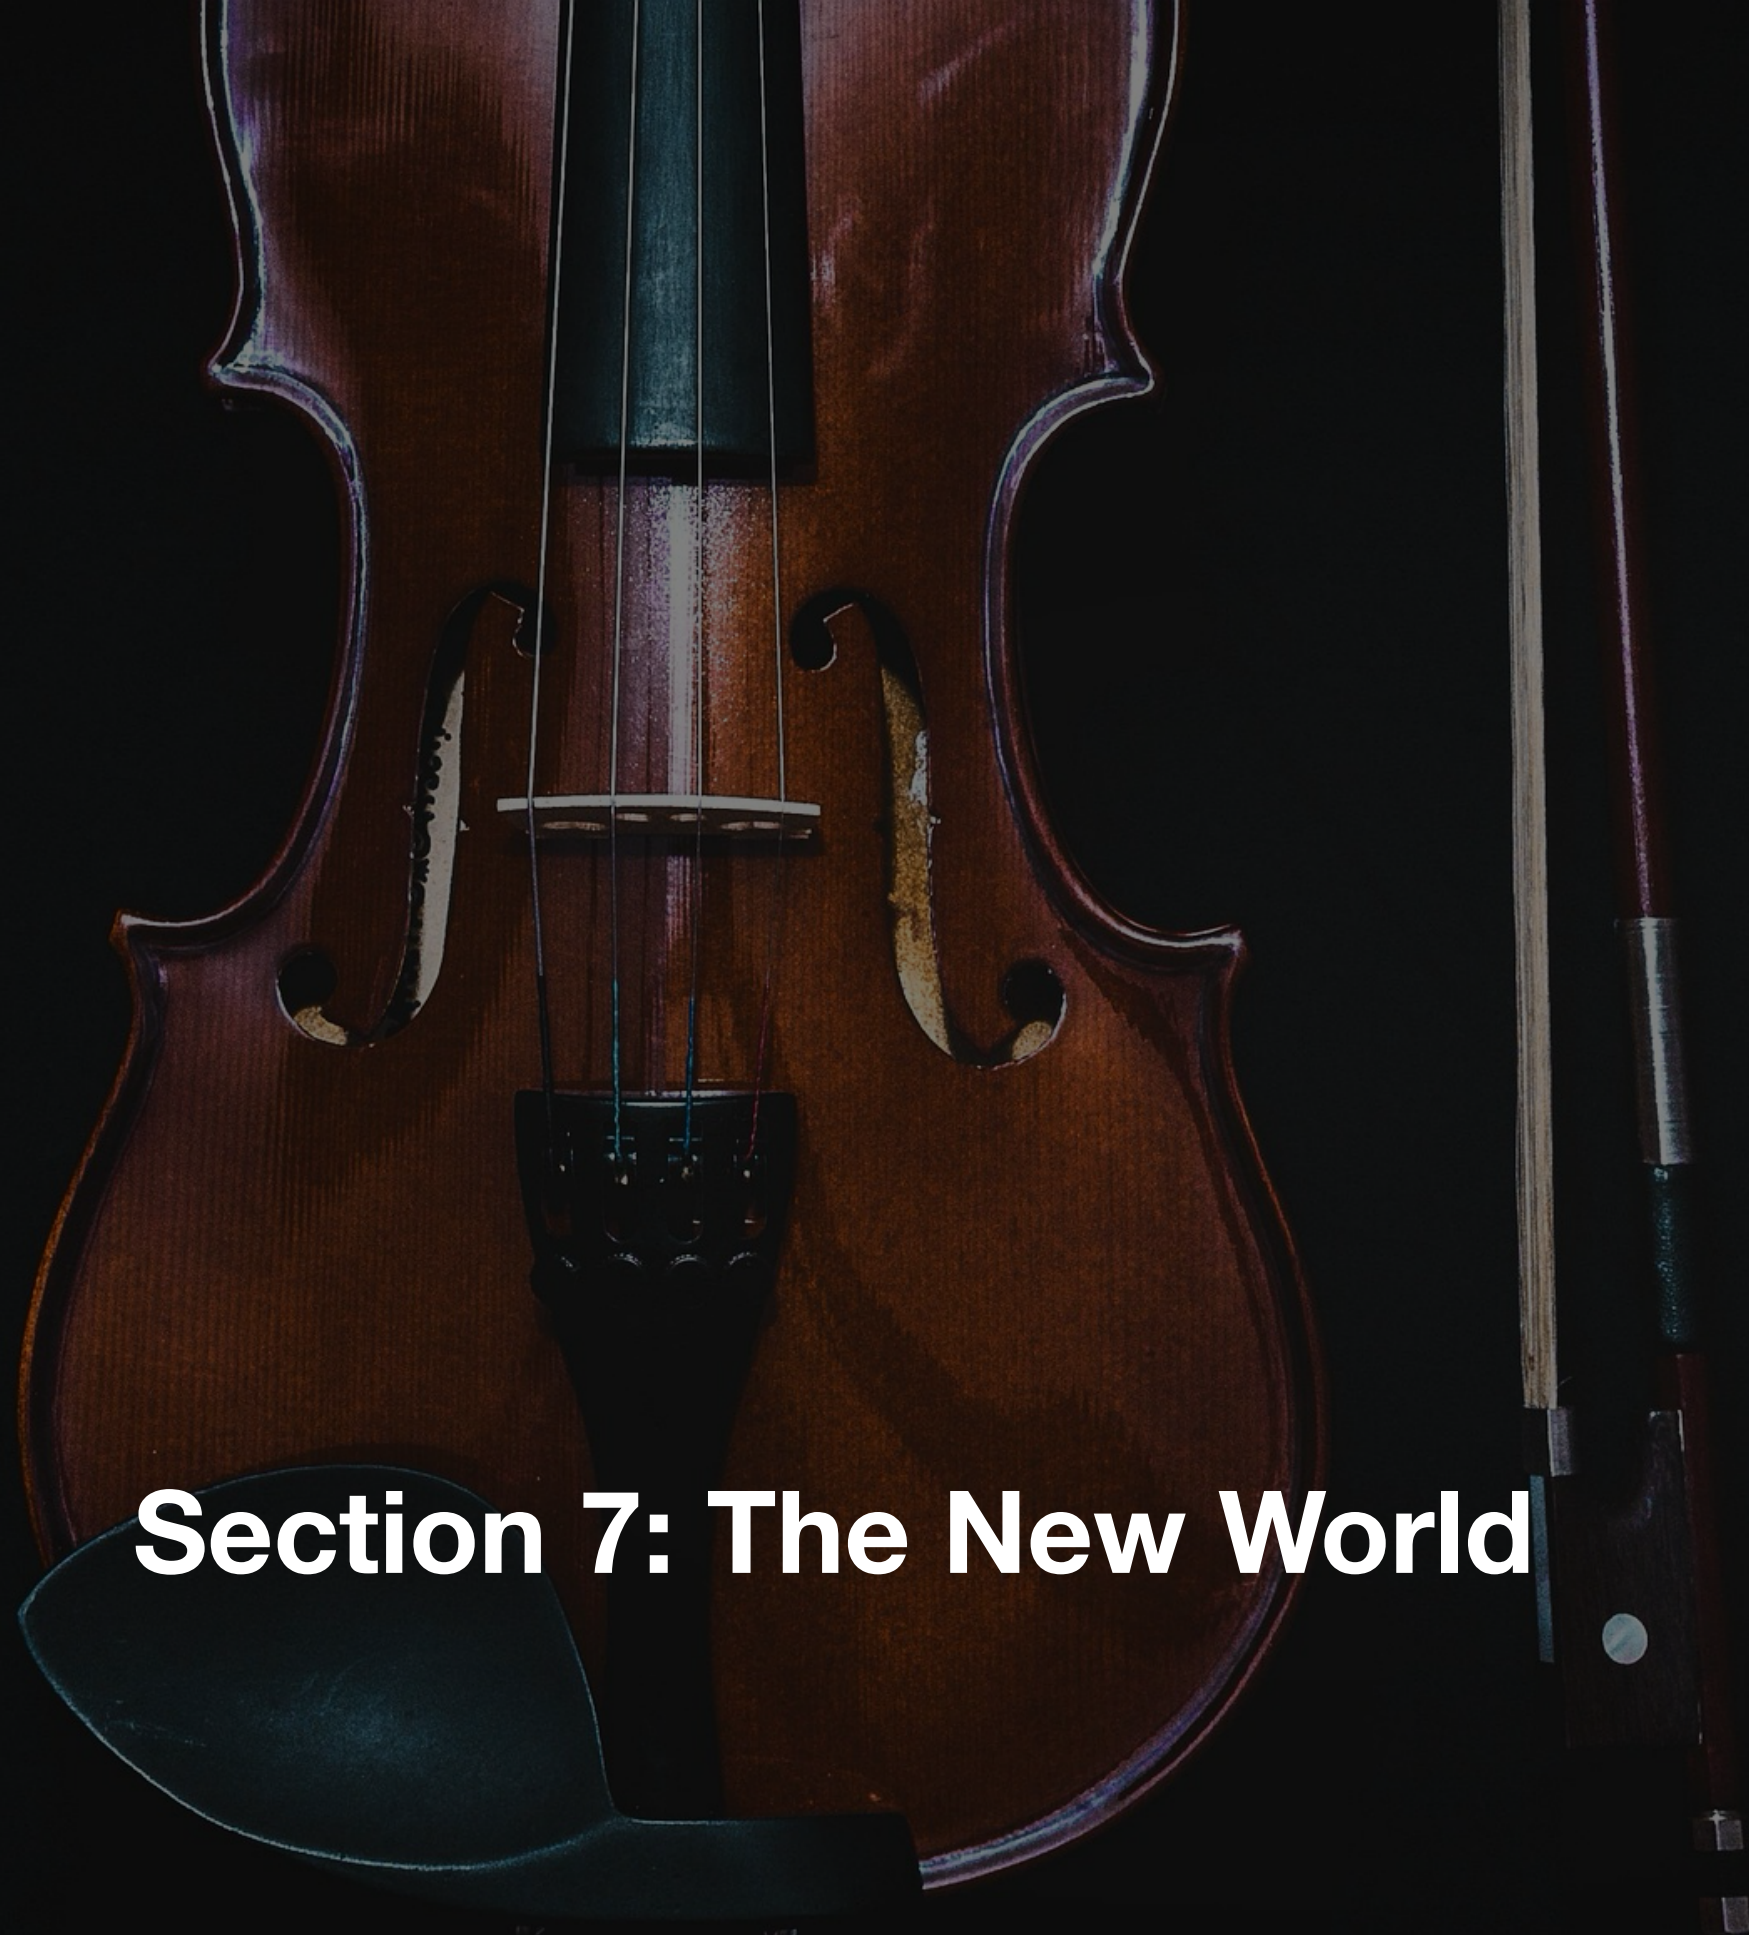

**When the seed that we once heard
Grew when a sower sowed your word
Our love for God transformed the heart
When your word grew with ample time
Our heart eventually became refined
The love we have made the vow
From a seed and a whisper
There's a heart praising loud**

Instrumental

And the force found in our mind and core
Is a desire to worship the God we adore

**When the seed that we once heard
Grew when a sower sowed your word
Our love for God transformed the heart
When your word grew with ample time
Our heart eventually became refined
The love we have made the vow
From a seed and a whisper
There's a heart praising loud**

There's a heart praising loud

Section 7: The New World

Our Hearts Come Alive (Never Looks Behind)

A song about how we should not look at the things left behind.

A broken door to a world no more
No longer can it be opened
A world that died and lived a lie
A fools paradise deepened

Eyes cannot see what used to be
Time kills a flame's illumination
A heart will find not look behind
At the world's forgotten generation

***What we've gained
Dwells in our mind
Our hearts come alive
Never looks behind
Nothing has been lost
Re-creation has no cost
Our hearts come alive
Never looks behind***

***Yesterday's demise
Forgotten with the sunrise
Our hearts come alive
Never looks behind
Peering behind
Can only make us blind
Our hearts come alive
Never looks behind***

Life has changed, a world estranged
Memories forgotten forever

All things new and they are true
Worth every endeavour

Life is bleak if the past you seek
It's a journey with one destination
This world will stay without delay
A world with only one direction

***What we've gained
Dwells in our mind
Our hearts come alive
Never looks behind
Nothing has been lost
Re-creation has no cost
Our hearts come alive
Never looks behind***

***Yesterday's demise
Forgotten with the sunrise
Our hearts come alive
Never looks behind
Peering behind
Can only make us blind
Our hearts come alive
Never looks behind***

Instrumental

Chorus

A song about our appreciation for the benefits of the new world.

We've stepped out from a hopeless world
With knowledge from the scrolls unfurled
There's now a kingdom to remain forever
Binding true peace and justice together

While the swords plough the fertile land
Enjoying food planted by our own hand
The righteous now congregate together
To worship our Heavenly Father forever

We entered a door leading us into the light
The only door that brings us everlasting life

**We came to treasure the pearl
In the new way of the world
Promises you gave in your word
Reaping good things that we've earned
Your righteous people are living
In the new way of the world**

From the desert we stepped into Eden
Bountiful lands awaiting to be eaten
Our only symptom are lasting smiles
In God's new world that is undefiled

We have stepped into a new world of change

From the old world that is now estranged

**We came to treasure the pearl
In the new way of the world
Promises you gave in your word
Reaping good things that we've earned
Your righteous people are living
In the new way of the world**

Instrumental

We entered a door leading us into the light
The only door that brings us everlasting life

**We came to treasure the pearl
In the new way of the world
Promises you gave in your word
Reaping good things that we've earned
Your righteous people are living
In the new way of the world**

In the new way of the world

A song about how God resolved the disobedience in Eden.

When the world met its calamity
And trust can be no longer seen
Imperfection became a reality
Through the sinful offspring of Eve

When the dust would cause dismay
A perfect world inevitably fades away
The fruitage that mankind would bring
Was the world full of woe from sin

But perfection was never out of sight
When a loving Father turns wrong to right

**When disobedience burned the true way
Stealing God's light from the sunny days
Our Father proved his love so true
Creating the way to start a world anew
No longer do the righteous cry in pain
His perfect light shone through the rain
His perfect light shone through the rain**

When the world experienced the cold
God's people relied on the one of old
When He provided every written scroll
To guide us in every way we know

Providing his son to rescue those lost
Remembering those who time forgot
They were resurrected from the dust
His mercy saved a world then unjust

And no matter how dark the skies above
Our Father will save every soul he loves

**When disobedience burned the true way
Stealing God's light from the sunny days
Our Father proved his love so true
Creating the way to start a world anew
No longer do the righteous cry in pain
His perfect light shone through the rain
His perfect light shone through the rain**

Instrumental

But perfection was never out of sight
When a loving Father turns wrong to right

**When disobedience burned the true way
Stealing God's light from the sunny days
Our Father proved his love so true
Creating the way to start a world anew
No longer do the righteous cry in pain
His perfect light shone through the rain
His perfect light shone through the rain**

His perfect light shone through the rain

4 It's the Good News That's For Sure

A song about the good news of God's Kingdom.

When the truth meets the heart
Its where joy starts to dwell
Every tear now departs
With good stories to tell
There's no wicked lies
For Satan to sell

A heart beats with the truth
Admiring all that is new
Every smile on a face
Provides every proof
Joy found in the eyes
In hearts that are true

The joy in our heart is real
The Kingdom behind how we feel

***It's the good news that's for sure
Every happy face now shows
God makes us feel secure
A happy heart will know
The joy that we feel
Making our life surreal
Never has a cure
It's the good news that's for sure***

There's a shine in our eyes
Reflecting everything new
Happy those who apply
Smiles revealing the truth
Happy are those who
Are bearing good fruit

Our unity is the key
Living forever as one

Without disparity
The old ways are gone
Heaven and earth
Stand forever beyond

No more heartache to endure
As the joy on our face assures

***It's the good news that's for sure
Every happy face now shows
God makes us feel secure
A happy heart will know
The joy that we feel
Making our life surreal
Never has a cure***

***It's the good news that's for sure
Our joy is clearly shown
A perfect beat in every heart
Everyone will come to know
Life is surreal
As the joy that we feel
Can't be torn apart
It's the good news that's for sure***

Instrumental

The joy in our heart is real
The Kingdom behind how we feel

Choruses

A song about learning every way of the truth.

A time to depart
When the time was right
Proving Satans world
Should be left so far behind

The narrow gate
That let you in
Allowed you time
To inherit Gods ways within

God gave your heart time to grow
And true worship you came to know

***Each and every truth
Was a seed that grew
In your heart it belongs
Each and every truth
Became a part of you
It made you strong***

The truth needed time
To create a world
Of desirous hearts
Shining like a pearl

Time was the gift
For truth to grow
To build a people
With perfect hearts that glow

An old world came to its end
And gave our heart time to mend

***Each and every truth
Was a seed that grew
In your heart it belongs
Each and every truth
Became a part of you
It made you strong***

***Each and every truth
Found it's way in you
In your heart it will stay
Each and every truth
Proved to be true
Learning the way***

Instrumental

God gave your heart time to grow
And true worship you came to know

***Each and every truth
Was a seed that grew
In your heart it belongs
Each and every truth
Became a part of you
It made you strong***

***Each and every truth
Found it's way in you
In your heart it will stay
Each and every truth
Proved to be true
Learning the way***

A song about worldwide unity in the new world.

A new world, welcomes you
 So many things to do
 With the love God approves
 Skills that we can use
 There's never an excuse
 For the skills we introduce

There's a celebration
 For using all our inspiration
 A busy family of renovation
 All Worshipping as one

Like words forming a song
 Our father's throng
 Getting along

***Our unity is
 A new world worth living
 We're worshipping as one
 Under the rule of God's son
 Our unity is
 A new world worth living
 Our family ties never end
 The love our new world depends***

A paradise returns again
 This time with the proof
 Of our father's right to rule
 A perfect community
 A kingdom standing tall
 And Never will it fall

Shoulder to shoulder
 Unified forever
 Serving God together

Love is paving the way
 Joy in what we say
 Every day
 Come what may

***Our unity is
 A new world worth living
 We're worshipping as one
 Under the rule of God's son
 Our unity is
 A new world worth living
 Our family ties never end
 The love our new world depends***

Instrumental

Like words forming a song
 Our father's throng
 Getting along

***Our unity is
 A new world worth living
 We're worshipping as one
 Under the rule of God's son
 Our unity is
 A new world worth living
 Our family ties never end
 The love our new world depends***

A song about God's promises being fulfilled.

A resistor to be despised
A serpent selling lies
A world bleeding

A prophecy foretold
A King you should know
A world believing

We dwell in a promised world anew
Enjoyed by everyone who's true
Living the promises told to you

Live God's promises
They always proved true for you
Live God's promises
Because His every word is true

A sovereignty proclaimed
An end to all the pain
A world behind us

A righteous world we see
A way to eternity
A world we trust

Every promise we were told came true

And now only the skies are deep blue
Living the prophecies told to you

Live God's promises
They always proved true for you
Live God's promises
Because His every word is true

Live God's promises
Set in stone and here to stay
Live God's promises
His word is without delay

Instrumental

We dwell in a promised world anew
Enjoyed by everyone who's true
Living the prophecies told to you

Live God's promises
They always proved true for you
Live God's promises
Because His every word is true

Live God's promises
Set in stone and here to stay

8 Eternity is Our Friend Forever

A song about eternity and our relationship with it.

Every journey made
A start and an end
Now our eternal life
We've learned to depend

The world that appears and never goes
Surrounded by the times of long ago

Furnished with eternity
Earth's motion will always be
Every footstep we take
Walks through the unforeseen

God designed His creation that we see
To forever live and breathe eternally

***The world that we know
Is making eternal life a pleasure
Everything we see lives for all eternity
Eternal life is our eternal friend
Time turns never ends
Eternity is our friend forever***

Taught by God on high
Knowledge we forever know
Rivers never run dry

The eternal waters flow

The days pass by yet time is never old
Forever contains the stories left untold

The stars forever shine
Eternity in their design
A people who always smile
Joy that will never sigh

Eternity is all we will ever know
God ensures the good things never go

***The world that we know
Is making eternal life a pleasure
Everything we see lives for all eternity
Eternal life is our eternal friend
Time turns never ends
Eternity is our friend forever***

Instrumental

***Eternal life is our eternal friend
Time turns never ends
Eternity is our friend forever***

A song about using our skills in unison.

A task for each soul
 Each heart has its own goal
 A purpose for all to contribute
 Each with a skill we can attribute

Our gifts to God we cannot hide
 Our capabilities are brought into the light
 To achieve perfection

***A multitude
 Achieving one purpose
 Each with their own skills to show
 In everyone
 There's a prowess
 We're achieving one purpose
 With the gifts inside of you***

God searches inside
 For every skill that resides
 He knows us more than we know ourselves
 He leaves no servant upon the shelf

Each of our gifts bring us dignity
 To serve God together in unity
 To achieve perfection

***A multitude
 Achieving one purpose
 Each with their own skills to show
 In everyone
 There's a prowess
 We're achieving one purpose
 With the gifts inside of you***

Instrumental

Our gifts to God we cannot hide
 Our capabilities are brought into the light
 To achieve perfection

***A multitude
 Achieving one purpose
 Each with their own skills to show
 In everyone
 There's a prowess
 We're achieving one purpose
 With the gifts inside of you***

***A multitude
 Achieving one purpose
 Each with their own skills to show
 In everyone***

10 In a Multitude of Blessings We Take Delight

A song about the multitude of blessings God provides.

A world of insecurity we've always known
Like leaves that are tossed in the windstorm
Security dwells in the prophecies we were shown
In the recreation

We came to experience what we've never known
Gathering grain in what our hands have sown
Now the face of the earth has seen the son
The breath of security resides in everyone

***Now we show, our appreciation to our Father
The earth we know now dwells in it's true light
Hearts now swell with gratitude to our Father
In a multitude of blessings we take delight***

Creatures of the earth never cause us harm
Dwelling together in God's holy mountain
There are no wicked that cause alarm
Love pours like a fountain

Homes of love by the work of our own hands
And where good health is found in every land
Every heart dwells in an earthly paradise
Made yes by means of Christ's sacrifice

***Now we show, our appreciation to our Father
The earth we know now dwells in it's true light
Hearts now swell with gratitude to our Father
In a multitude of blessings we take delight***

Instrumental

The real life we've come to see at hand
And true worship will now forever stand
A new Heaven and earth has come to be
And now all life dwell in your security

***Now we show, our appreciation to our Father
The earth we know now dwells in it's true light
Hearts now swell with gratitude to our Father
In a multitude of blessings we take delight***

A song about how we enjoy rebuilding the new earth together.

With a re-creation to create
And good news to relate
Time falls into busy hands
Excitement in our hearts
A new world begins to start
The paradise expands

An artwork under progress
Our hands failing to rest
Our joy is never undermined
We're excited and enthused
With the work there is to do
Under God as our guide

***The joy of creating a world that's new
A unified people with a work to do
Loving the goal we pursue
The joy of creating a world that's new***

The momentum in our heart
Is reflected in our art
As progress makes its way
With one goal to pursue
With every skill we use
We achieve without delay

With tasks we're assigned
Joy is always what we find
When our skills contribute
Our reward is God's smile
On every man woman and child
Serving in our vigour of youth

***The joy of creating a world that's new
A unified people with a work to do
Loving the goal we pursue
The joy of creating a world that's new***

***The joy of creating a world that's new
Enjoying every skill God gave to you
With our hearts enthused
The joy of creating a world that's new***

Instrumental

An artwork under progress
Our hands failing to rest
Our joy is never undermined
We're excited and enthused
With the work there is to do
Under God as our guide

A song about the ways of the new world.

The scars now unseen
They are hidden
Behind days gone by
A single heart
Cannot be heard breaking

Tears wiped from the earth
Disappearing into the dust
Hearts are no longer crying
In joy we now do trust

**The earth always smiles
There's only joy in our eyes
Gone are the days
When hearts beat with a cry
All the snow is melting
In the heat of new times
Love and joy is
Earth's new story
Joy paves the way
Never saying goodbye
Feeling safe and warm
Under the bluest of skies
Love and joy is
Earths new story**

Tears now fail to exist
They have dried
In the warmth of our love
Our joy denies
A heart that's raining

Every smile on our face
Outnumbers the sand
On the shore
Leaving memories scarring
Never to return any more

**The earth always smiles
There's only joy in our eyes
Gone are the days
When hearts beat with a cry
All the snow is melting
In the heat of new times
Love and joy is
Earth's new story
Joy paves the way
Never saying goodbye
Feeling safe and warm
Under the bluest of skies
Love and joy is
Earths new story**

*Living the prophecy
In the joy that we find all around
Our tears are an imperfect stranger
Tears fade deeper, and never to be found*

Choruses

A song about how we feel secure in the truth we have learned.

The lands had drifted apart
Their own way they would do
The world had a broken heart
Without God's will shining through

And now the world is holding hands
Because God's will we've come to understand
Because we listen and obey
There is unity
Found throughout eternity

**We're finding security in our heart
As doing God's will is our art
To listen is to obey
We're finding security in our heart**

There's comfort in God's will
We always know the way to go
In our heart we bare the skill
To obey instruction and be fulfilled

And our joy will now increase
His perfect direction has brought us peace
When we listen and obey
Each and every day
We always know the way

**We're finding security in our heart
As doing God's will is our art
To listen is to obey
And finding security in our heart**

**We're finding security in our heart
A listening ear is the start
We're ready to obey
And finding security in our heart**

Instrumental

And now the world is holding hands
Because God's will we've come to understand
Because we listen and obey
There is unity
Found throughout eternity

**We're finding security in our heart
As doing God's will is our art
To listen is to obey
And finding security in our heart**

**We're finding security in our heart
A listening ear is the start
We're ready to obey
And finding security in our heart**

A song about how peace has replaced the wicked.

Satan tried to dampen devotion
With those who tried to sully your name
They'd try to twist our emotions
To stumble those who worship your fame

In the heat of their suggestions
They never knew they were hurting themselves
And taking the opposite direction
Broad and spacious for those who rebel

Like the dark shadows that disappear
They're now gone and one thing is clear

**Where the wicked stood
Peace has taken their place
It's to our God and Father
Well never again see their face
Where the wicked stood
Is the good that we see
It's to our God and Father
There's now peace and unity**

How many ears that were deafened
To the sounds of the kingdom good news
And to your word they were beckoned
But turning their back on everything true

They loved their many possessions
With their future burning up in the flames
Carrying out their many transgressions
Their lack of peace was their only gain

Opening their eyes but the light didn't show
They're now gone and it's good to know

**Where the wicked stood
Peace has taken their place
It's to our God and Father
Well never again see their face
Where the wicked stood
Is the good that we see
It's to our God and Father
There's now peace and unity**

Instrumental

Like the dark shadows that disappear
They're now gone and one thing is clear

**Where the wicked stood
Peace has taken their place
It's to our God and Father
Well never again see their face
Where the wicked stood
Is the good that we see
It's to our God and Father
There's now peace and unity**

A song about our Father fulfilling His purpose for the earth.

It was the darkest day
 Eve's obedience was flawed
 Man ruling over the earth
 The worlds chaos
 It can't be ignored

The earth revolved around destruction
 When man lacked God's instruction
 We listened
 We envisioned
 To a time when man could harm no longer

**Today's the day
 We live in harmony
 And God's rule
 Is now our ecstasy
 We hoped for
 Prayed for
 Our God's sovereignty
 Now today's the day
 We live in peace and harmony**

Rains of hardship fell
 From the clouds of human rule
 We could see the light
 Of God's peace
 Instead of the cruel

We learned the good name of our Father
 And Satan's world would soon be over
 We tasted
 We related
 Waiting for our only perfect ruler

**Today's the day
 We live in harmony
 And God's rule
 Is now our ecstasy
 We hoped for
 Prayed for
 Our God's sovereignty
 Now today's the day
 We live in peace and harmony**

**Today's the day
 The dead are back to stay
 We're enjoying life
 With more along the way
 No hoping
 No praying
 For a better day
 As today's the day
 We live in peace and harmony**

Instrumental

The earth revolved around destruction
 When man lacked God's instruction
 We listened
 We envisioned
 To a time when man could harm no longer

Choruses

16 For God's Kingdom Is What We Prayed

A song about the Kingdom, something that we prayed for regularly.

We're starting the day anew
When Satan's nations have now gone
God's sovereignty is now approved
To stand forever and continue on

Each step that mankind made
Could never equal God's ways
The effect of poor decisions cascade
When God's standards they don't display

Gone are the days of human nations
God now rules in his perfect ways

**To God we turned, his ways we learned
Leaving the nations to have their day
To God we turned, the nations burned
For His kingdom is what we prayed**

Those nations ran out of time
They were no match for Bible truth
Fools gold that lost their shine
God's vindication has been proved

Days of peace cannot be found
When a weapon dominates the ground
God's will now takes their place
To be enjoyed by the human race

Creation's revolving and it is solving
The harm that fell upon all mankind

**To God we turned, his ways we learned
Leaving the nations to have their day**

**To God we turned, the nations burned
For His kingdom is what we prayed**

Instrumental

Gone are the days of human nations
God now rules in his perfect ways

**To God we turned, his ways we learned
Leaving the nations to have their day
To God we turned, the nations burned
For His kingdom is what we prayed**

**To God we turned, his ways we learned
Leaving the nations to have their day
To God we turned, the nations burned
For His kingdom is what we prayed**

A song about how our Father lives up to his name and promises.

We're looking back to the end
From the recreation so perfect
God came through again
Yes our endurance was worth it

Life in the earth is aglow
As God we know
His promises we rely on
Death has melt with the snow
Our age doesn't show
The old ways we knew have gone

**Our God provided
How he lives up to his name
And we're reminded
Of His love time and again
Goodness provided
His people invited
To live an eternal life
Our God provided
How he lives up to his name**

Love is the food that he grows
Its abundant and mountain high
His provisions will overflow
We are never without supply

And how thankful we are
We express with our heart
There's nothing to be afraid of
A peaceful reservoir
Futures stretch far
To our Father we show our love

**Our God provided
How he lives up to his name
And we're reminded
Of His love time and again
Goodness provided
His people invited
To live an eternal life
Our God provided
How he lives up to his name**

*His people entered through his door
To his paradise that we adore*

Instrumental

Life in the earth is aglow
As God we know
His promises we rely on
Death has melt with the snow
Our age doesn't show
The old ways we knew have gone

**Our God provided
How he lives up to his name
And we're reminded
Of His love time and again
Goodness provided
His people invited
To live an eternal life
Our God provided
How he lives up to his name**

A song about how our Father provides through His love.

The last of last days
Challenges we faced
God standing beside us
Every necessity
He provides abundantly
Hard times are just illusions

God's love for us is real
How he provides for us reveals

**When we walk
With our God by our side
His love is providing
When we talk
With our God as our guide
His love is providing
His love is providing**

We wake for the day
His love is conveyed
His people are never lacking
We're safe in his arms
Never coming to harm
Every necessity he is adding

He provides each and every day
His provisions his love displays

**When we walk
With our God by our side
His love is providing
When we talk
With our God as our guide**

**His love is providing
His love is providing**

**When in fear
Our God takes our hand
His love is providing
When sincere
He delivers a promised land
His love is providing
His love is providing**

Instrumental

God's love for us is real
How he provides for us reveals

**When we walk
With our God by our side
His love is providing
When we talk
With our God as our guide
His love is providing
His love is providing**

**When in fear
Our God takes our hand
His love is providing
When sincere
He delivers a promised land
His love is providing
His love is providing**

A song about our brotherly love.

How we choose to spend our time
Working together and feeling fine
Our hands thirst for work to do
Achieving before the day is through

Many hands and the work is light
Enjoying our friends as we go
And when the sun goes down
Our friendship can still be found

**Being there for one another
Shoulder to shoulder
We're there for you
Showing love for our brothers
The sun's gone down
But our love's not through**

How we love to spend our time
Helping each other and being kind
Always walking that extra mile
How it's worth to see their smile

Happiness is its own reward
As we work together with joy
When the night begins to fall
Our happy memories we recall

**Being there for one another
Shoulder to shoulder
We're there for you
Showing love for our brothers
The sun's gone down
But our love's not through**

**Being there for one another
Being a true friend
Each and every day
Working for each other
The day's almost gone
But our love's here to stay**

Instrumental

Many hands and the work is light
Enjoying our friends as we go
And when the sun goes down
Our friendship can still be found

**Being there for one another
Shoulder to shoulder
We're there for you
Showing love for our brothers
The sun's gone down
But our love's not through**

**Being there for one another
Being a true friend
Each and every day
Working for each other
The day's almost gone
But our love's here to stay**

20 Reflecting the Light From Above

A song about reflecting our Father's qualities the best we can.

Every ear has come to hear
Sounds of the truth so clear
Lies begin to disappear
Old memories have come to fade
A new way of life we've come to obey

Every eye has come to see
God ways that set us free
All the untruths are history
And no one is on their own
In every heart
The truth we've come to know

We're living in God's ways
Because everyone displays
The true way of life
And we never stray
Giving praise with all our love

**Found in everybody
Found in every soul
Is the word of God
We have come to know
And the way of every heart
Reflecting the light from above**

Everyone has come to feel
The way of God and its surreal
Joy and peace now feels so real
And no one is on their own
In every heart
The way we've come to know

God has written in the heart
Every perfect way
Living our life
By the words he says
Giving praise to our Father above

**Found in everybody
Found in every soul
Is the word of God
We have come to know
And the way of every heart
Reflecting the light from above**

*The word of the father
Will reach you
Your heart is where
It will roam
His ways are our home*

Instrumental

We're living in God's ways
Because everyone displays
The true way of life
And we never stray
Giving praise with all our love

**Found in everybody
Found in every soul
Is the word of God
We have come to know
And the way of every heart
Reflecting the light from above**

**Found in everybody
Found in every soul
Is the word of God
We have come to know
And the way of every heart
Reflecting the light from above**

A song about how the new world will reflect God's light.

Pure worship is based on the truth
There's no lie that could ever sooth
And never ever should we assume
Failing Yahweh's way

No confusion where there's truth
Lies are the way to a world untrue
A fabrication could never prove
Failing the true way

**This new world shines in the light
The earth rotates without the lies
And the truth is no secret in these times
This new world shines in the light
Every truth is hidden in plain sight
There are no lies lurking in the night
This new world shines in the light**

Who really wants to know a lie?
Should the truth just pass us by?
It's only truth that never dies
It's Yahweh's way

Lies are lonely without the facts
Truth has a heart that will attract
Building trust that always lasts
It's the only way

**This new world shines in the light
The earth rotates without the lies
And the truth is no secret in these times
This new world shines in the light
Every truth is hidden in plain sight
There are no lies lurking in the night
This new world shines in the light**

Yahweh can never lie
The truth is always right
And every day and night
The truth will always be our delight

Instrumental

**This new world shines in the light
The earth rotates without the lies
And the truth is no secret in these times
This new world shines in the light
Every truth is hidden in plain sight
There are no lies lurking in the night
This new world shines in the light**

**This new world shines in the light
The earth rotates without the lies
And the truth is no secret in these times
This new world shines in the light
Every truth is hidden in plain sight
There are no lies lurking in the night
This new world shines in the light**

A song about how God calls us to his wonderful light.

A great crowd gathered in your holy name
Cornerstones who worship your fame
Your penetrating gaze has made a claim
On righteous hearts you want to remain

Your voice we now hear,
And to you we now fear

**You called us out of the distance
We came to call upon your holy name
You provided the needed assistance
To be earth's new foundation again
A purpose now being fulfilled
With the earth that you willed
You called us out of the distance
A true people for your holy name**

From a world blinded by many tears
You brought the right-hearted ones here
A Kingdom message fell upon the heart
To make the end the same way as the start

We heard your loving call,
Now we give you our all

**You called us out of the distance
We came to call upon your holy name
You provided the needed assistance
To be earth's new foundation again
A purpose now being fulfilled
With the earth that you willed**

**You called us out of the distance
A true people for your holy name**

Instrumental

Your voice we now hear,
And to you we now fear

**You called us out of the distance
We came to call upon your holy name
You provided the needed assistance
To be earth's new foundation again
A purpose now being fulfilled
With the earth that you willed
You called us out of the distance
A true people for your holy name**

**You called us out of the distance
We came to call upon your holy name
You provided the needed assistance
To be earth's new foundation again
A purpose now being fulfilled
With the earth that you willed
You called us out of the distance
A true people for your holy name**

A song about how joyful we feel when we learn the truth about our Father.

Knowledge seeks an empty heart
Learning God's word is only the start
We demonstrate good that we learn
Happiness speaks louder than words

There's a feeling burning deep inside
And it's the joy you just cant hide

**Happy are the ones who come to know
When the truth inside of you begins to grow
It's a joy that can't be overthrown
Let God's word bring joy to your heart**

There's a smile inside your heart
Learning God's word made you a part
God gave his good gift to you
It's the way and your happiness proves

How your expression is a clear sign
God's word in you has begun to shine

**Happy are the ones who come to hear
When the truth inside of you wipes away the tears
There's a joy inside that's always near
Let God's word bring joy to your heart**

Instrumental

Your heart x4

There's a feeling burning deep inside
And it's the joy you just cant hide

**Happy are the ones who come to know
When the truth inside of you begins to grow
It's a joy that can't be overthrown
Let God's word bring joy to your heart**

**Happy are the ones who come to hear
When the truth inside of you wipes away the tears
There's a joy inside that's always near
Let God's word bring joy to your heart**

**Happy are the ones who come to know
When the truth inside of you begins to grow
It's a joy that can't be overthrown
Let God's word bring joy to your heart**

A song about our brotherly affection and family.

Our brotherhood is where our heart glows
It's the place where our love flows
And our affection ignites
Suddenly everything's bright

Our happiness comes to shine more
With Satan's world behind a locked door
Our Joy is found in daylight
And never sleeps in the night

*All you can hear
Are the sounds of good cheer
What you can see
Has permanency
The word brotherhood
Means more than it means*

It's an air that surrounds you

**With each other in our heart
Love can't be torn apart
The brotherhood
Is the warmest feeling
When the world loves you
And its appealing
When you love them too**

**With each other on our mind
Affection is entwined
The perfect place
Where our love roams free
Everyone you meet
Is our family**

A friendly smile on the horizon
Our affection will always widen
You don't have to wait
It never arrives late

Love is our disposition
As they talk we love to listen
It's only the sky that is blue
When our love is true

A joy living inside you

**With each other in our heart
Love can't be torn apart
The brotherhood
Is the warmest feeling
When the world loves you
And its appealing
When you love them too**

**With each other on our mind
Affection is entwined
The perfect place
Where our love roams free
Everyone you meet
Is our family**

Instrumental

Loves getting to know you

**With each other in our heart
Love can't be torn apart
The brotherhood
Is the warmest feeling
When the world loves you
And its appealing
When you love them too**

**With each other on our mind
Affection is entwined
The perfect place
Where our love roams free
Everyone you meet
Is our family**

**Everyone you meet
Is our family x2**

25 He Provides a Home for the Heart

A song about how God provides a loving home for all.

They refused to listen to God and Father
And they refused the good life too
Instead of living forever
Their own lives they did forsake
No commitment there to break

But our spiritual family are true

**Our Father,
Gave us our friends to rely on
And nothing can keep us apart
Moreover,
A family that will last forever
We're never alone
He provides a home for the heart**

Hear the sound of echoing voices
They're all saying 'I love you'
A spiritual family rejoices
They never wait to welcome you
And love and peace will infuse

Affection lives in a heart that is true

**Our Father,
Gave us our friends to rely on
And nothing can keep us apart
Moreover,
A family that will last forever
We're never alone
Yes never alone
He provides a home
Provides a home for the heart**

*A world full of family
As far as eyes can see
And our love is the key
God's promises are unbroken*

Instrumental

But our spiritual family are true

**Our Father,
Gave us our friends to rely on
And nothing can keep us apart
Moreover,
A family that will last forever
We're never alone
Yes never alone
He provides a home
He provides a home for the heart**

**Our Father,
Gave us our friends to rely on
And nothing can keep us apart
Moreover,
A family that will last forever
We're never alone
Yes never alone
He provides a home**

He provides a home for the heart

26 The Disobedient Will Be No More

A song about how the wicked made their own choice.

With your will there is submission
Many hearts that are ready to obey
The righteous walk in obedience
Where the wicked go their own way

The wicked work to attain harm
The good remain in their calm
The stupid ones spoil their day
But the righteous will live always

Broad and spacious is their choice
But your people listen to your voice

**The disobedient will be no more
Their choice to walk through the door
The righteous will always walk the way
Walk the path to receive endless days
For our individual works you will repay**

The good will benefit your people
The wicked work against our peace
Theirs a choice of good and evil
And the wicked will come to cease

For your world to become perfection
Wickedness negates a perfect world

Security travels the right direction
When the wicked to dust they return

The narrow gate we came to enter
Our obedience to you we did render

**The disobedient will be no more
Their choice to walk through the door
The righteous will always walk the way
Walk the path to receive endless days
For our individual works you will repay**

Instrumental

Broad and spacious is their choice
But your people listen to your voice

**The disobedient will be no more
Their choice to walk through the door
The righteous will always walk the way
Walk the path to receive endless days
For our individual works you will repay**

For our individual works you will repay

A song about our strong faith in the Kingdom good news.

Written in the tablet of our heart
Seeds of good news made a start
The soothing tones of God's word
Forming desire for what we heard

A lively message we never ignored
And eternal life was our reward
The strong desire for what we learn
The Kingdom was what we yearn

Yes hope is something that might occur
But our hearts believed in what we heard

**With the anchor in our heart
It delivered us out of the dark
Waiting for God's great day
A kingdom for which we prayed
In those days we stayed awake
With the anchor in our heart
With the anchor in our heart**

A forever kingdom written in stone
It couldn't leave our hearts alone
Kingdom seeds began to take root
Knowing that every word is true

Happiness is for those who hear
To words that bring forever cheer
The power behind God's word

Motivated by what we learned

Hope is something living in the heart
But faith grew by words God imparts

**With the anchor in our heart
It delivered us out of the dark
Waiting for God's great day
A kingdom for which we prayed
In those days we stayed awake
With the anchor in our heart
With the anchor in our heart**

Instrumental

Yes hope is something that might occur
But our hearts believed in what we heard

**With the anchor in our heart
It delivered us out of the dark
Waiting for God's great day
A kingdom for which we prayed
In those days we stayed awake
With the anchor in our heart
With the anchor in our heart**

Ooooo Anchor in our heart

A black and white photograph of hands playing a piano. The focus is on the right hand in the foreground, with fingers positioned over the keys. The left hand is visible in the background, also playing. The piano keys are clearly visible, and the lighting creates a dramatic, high-contrast effect. The text 'Section 8: Resurrection' is overlaid in the bottom left corner in a white, sans-serif font.

Section 8: Resurrection

A song about the resurrection on the last day.

***Your heart forever beats a sound
The ending never comes around
Forever is waiting to be found
The dust has risen from the ground***

Imperfection stole your heartbeat
Your eternal life met its defeat
The days ahead took their toll
When each day, another day old

A ransom vowed our sins retreat
Now the dead returned to their feet
A price was paid to return to life
Appreciation to our King's sacrifice

***Your heart forever beats a sound
The ending never comes around
Forever is waiting to be found
The dust has risen from the ground***

The sun will rise to form another day
The dead came to rise along the way
Ageing skin has been left behind
The gift of life never undermined

Now the dust is free of Adamic sin
Resurrection to eternal life begins
With a new earth comes a new soul
An eternal life you have enrolled

***Your heart forever beats a sound
The ending never comes around
Forever is waiting to be found
The dust has risen from the ground***

Instrumental

A ransom vowed our sins retreat
Now the dead returned to their feet
A price was paid to return to life
Appreciation to our King's sacrifice

***Your heart forever beats a sound
The ending never comes around
Forever is waiting to be found
The dust has risen from the ground***

A song about the resurrection of the dead on the last day.

Facing eternity
Are the ones being set free
The breath of life
Is found in each soul
Everlasting death
Cannot be condoned

Arms opened wide
Welcoming those who died
Friendships discovered
All over again
The curse of sin
Has come to an end

They listened to the sounding call

***Now they reside with us
Wiping the tears from our eyes
Returning from the dust
The friendships that arise
Everlasting life they find
Gone are the dangerous times
Now they reside with us
Written in the book of life***

No days of sympathy
The dead have come to breathe
The sound of a heartbeat
Pounds once again
Beats to a rhythm
That never come to an end

Oh how they will learn
God's ways they will discern
They have awoken
In light of day
Discovering success
In all God's ways

Hearing the way to lasting life

***Now they reside with us
Wiping the tears from our eyes
Returning from the dust
The friendships that arise
Everlasting life they find
Gone are the dangerous times
Now they reside with us
Written in the book of life***

Instrumental

They listened to the sounding call

***Now they reside with us
Wiping the tears from our eyes
Returning from the dust
The friendships that arise
Everlasting life they find
Gone are the dangerous times
Now they reside with us
Written in the book of life***

A song about how shallow the grave is owing to the resurrection of the dead.

Every soul that sleeps
Can make your heart groan
Death has never been
Written in stone
They await the key
To an open door

And every death will appear to be small
When those sleeping hears Jesus call

***It's a shallow grave
Only death will die
Every soul will be saved
Wiping tears from every eye
It's a shallow grave
And every eye is dry***

Every knot that's tied
Can always come undone
After the night comes the sun
Starting another bright new day

A new way of life they will learn
From the dust they will return

***It's a shallow grave
Death will be no more
Every soul that breathes
To new heights will soar
It's a shallow grave
When death has a cure***

*Though they died
They forever lived in God's mind
They're free from Satan's lies
Through the door to paradise*

And death will be a distant memory
Like muddy waters that are clearing

Choruses

4 Where Death Once Was Stood

A song about how eternal life replaces sin and death.

No longer does the heart
Feel pain from separation
The lost have been found again
We've waited for their return
With eager desperation
It was just a matter of when

Eyes open to allow in the sunlight
Facing the day instead of a dark night

**They listened to the call
And now they're reunited
They'll taste everything that is good
Our reflection in their eyes
Standing where
Death once was stood**

No longer do our eyes
Weep with our expectations
The day of return is here
No longer do we wait
For our past generations
They've arisen to our cheer

Their sleep was good and refreshing
Facing a new world full of blessings

**They listened to the call
And now they're reunited
They'll taste everything that is good
Our reflection in their eyes
Standing where
Death once was stood**

**They listened to his voice
With eternal life on the horizon
Along with the friends that they love
Discovering a new world
Standing where
Death once was stood**

Instrumental

Eyes open to allow in the sunlight
Facing the day instead of a dark night

Choruses

5 In Their Death They'll See Life

A song about how those who die will see life on the last day.

When the lights were down
On the darkest of dark nights
The dead fell asleep forever
With only the unknown in sight

Believing heaven a destination
And leaving every sad relation
Distorted whispers far from truth

How they attempted communication
To reach the dead in their generation
And the very idea will bare no excuse

**There will be a great day
When the dead return to life
How we'll look into their human eyes
A day of judgement we will see
The good will find their eternity
The wicked will face a sudden demise
In their death they'll see life**

Jesus said they're in sleep
What we sow we will reap
Waiting the full resurrection
The day Jesus pays a return

Safely remembered in God's memory
A restoration to their life they will see
Hearing Jesus timely call

Jesus sacrifice has paved the way
For the dead to return on the day
Judgement day for us all

**There will be a great day
When the dead return to life
How we'll look into their human eyes
A day of judgement we will see
The good will find their eternity
The wicked will face a sudden demise
In their death they'll see life**

*The earth will be restored
And death will be no more
A heart beat is forever to stay*

Instrumental

Hearing his voice to return to life

**There will be a great day
When the dead return to life
How we'll look into their human eyes
A day of judgement we will see
The good will find their eternity
The wicked will face a sudden demise
In their death they'll see life**

A song about the resurrection on the last day.

Our sin brought us into a fatal situation
Asleep in death like a bear in hibernation
We become a memory in our Father's mind
And in the memories of griever's left behind

Our Father never forgets a soul
Death was never to be condoned
Eternal life was to be God's way
So the dead will rise on the last day

**There's a truth about those who have gone
On the last day they will return like the dawn
Their sin robbed the dead of their very energy
They're asleep in death
They're awake in God's memory
Asleep in death, awake in God's memory**

Our father has locked death's doors
So that those sinners can live once more
And sickness and death will be destroyed
Through the ransom sacrifice he deployed

Our Father will form from the dust
The resurrection we can now trust
And on the day that Jesus returned
The spark of life will come to burn

**There's a truth about those who have gone
On the last day they will return like the dawn
Their sin robbed the dead of their very energy
They're asleep in death
They're awake in God's memory
Asleep in death, awake in God's memory**

Instrumental

Our Father never forgets a soul
Death was never to be condoned
Eternal life was to be God's way
So the dead will rise on the last day

**There's a truth about those who have gone
On the last day they will return like the dawn
Their sin robbed the dead of their very energy
They're asleep in death
They're awake in God's memory
Asleep in death, awake in God's memory**

**Our Father can never forget those who died
Eternal life is where his people will reside
Asleep in death, awake in God's memory**

Section 9: God and His Attributes

Your Complete Holiness Sets You Apart

A song about God's Holiness that sets Him apart from everyone else.

Our Father is the Most Holy
Upon land, sea and the skies
His subject's are the most lowly
Seeking Him with admiring eyes

A Heavenly Father standing for purity
His standards can never be surpassed
And even in our spiritual maturity
Our Father can never ever be matched

Our God in His holiness brings us security
As He is the one
We can rely upon

**Your complete holiness sets you apart
To trust you completely is in our heart
You invite us to worship you so
And your ways we came to know
Your complete holiness sets you apart
Your wisdom always excels the mark
It's easy for us to love you so
When your complete holiness sets you apart**

We could never hope to find
All your ways with our eyes
We can see but we are blind
Upon you we need to rely

A Heavenly Father standing for eternity
He is resounding in all His perfect ways
His goodness beyond the good we see
You can see it in the works He displays

Our God in His holiness brings us certainty
His Holiness forever
It's without measure

**Your complete holiness sets you apart
To trust you completely is in our heart
You invite us to worship you so
And your ways we came to know
Your complete holiness sets you apart
Your wisdom always excels the mark
It's easy for us to love you so
When your complete holiness sets you apart**

Instrumental

Our God in His holiness brings us security
As He is the one
We can rely upon

**Your complete holiness sets you apart
To trust you completely is in our heart
You invite us to worship you so
And your ways we came to know
Your complete holiness sets you apart
Your wisdom always excels the mark
It's easy for us to love you so
When your complete holiness sets you apart**

**His perfection is so flawless
And we worship Him in chorus
Holiness sets our God apart**

A song about how Holiness features many attributes and qualities.

Like a recipe that generates flavour
Many colours in the art of a painter
A garden stands vibrant with variety
Holiness are qualities in their entirety

The stars create the perfect nighttime
Good words make a desirable rhyme
Orchestra's produce soothing music
Your many qualities are therapeutic

We worship you the God who is upright
Your many qualities add to your pure light

**Your ways are deeper than the ocean
Like the night a masterpiece in motion
Ever present, powerful and knowing
Your Holiness are the pure ways in you**

The Bible consists of many writers
Forests feature the trees we desire
Vibrant rainbows are many colours
Holiness is a show of many others

We worship you the Almighty that we love
Your holiness are perfect ways from above

**Your ways are deeper than the ocean
Like the night a masterpiece in motion
Ever present, powerful and knowing
Your Holiness are the pure ways in you**

Instrumental

We worship you the God who is upright
Your many qualities add to your pure light

**Your ways are deeper than the ocean
Like the night a masterpiece in motion
Ever present, powerful and knowing
Your Holiness are the pure ways in you**

**Your holiness we love to admire
Providing much warmth like a fire
Your holiness are the pure ways in you**

A song about how we can reflect God's holiness.

At the time of our birth to life
We are innocent in God's eyes
Surrounded by the world of sin
Now imperfect ways will enter in

God's word here to save the day
With the way to life it contains
The art of returning to a good life
To reflect His holiness inside

**We are reflecting the way to life
Using your holiness as our guide
We can be pure in your sight
When striving to be upright
We are reflecting the way to life
Your holiness a model we apply
Knowing Him through his word
We are reflecting the way to life**

God's holiness is our template
The fruitage to gain perfection
His love we cannot separate
When we follow His direction

When we come to know him
We get to know the true way

His holiness works to our benefit
Reflecting his ways every day

**We are reflecting the way to life
Using your holiness as our guide
We can be pure in your sight
When striving to be upright
We are reflecting the way to life
Your holiness a model we apply
Knowing Him through his word
We are reflecting the way to life**

Instrumental

**We are reflecting the way to life
Using your holiness as our guide
We can be pure in your sight
When striving to be upright
We are reflecting the way to life
Your holiness a model we apply
Knowing Him through his word
We are reflecting the way to life**

Reflecting the way to life

A song about how God's attributes give us security and confidence.

How we value our Good creator
Omnipotent are all his ways
There is nobody that's greater
Than the good ancient of days

Omniscient is your wisdom
How we rely on your guidance
How we trust in your very kingdom
When your wisdom is our reliance

How your qualities create happiness in the heart

**You are Holy and you are just
You are love and you are trust
You are merciful and gracious
You are unchangeable and faithful
Security to those formed from the dust**

Omnipresent you keep us safe
Eyes that see behind the wall
Where we stand is your domain
To you your universe is so small

How your goodness creates security in the heart

**You are Holy and you are just
You are love and you are trust
You are merciful and gracious
You are unchangeable and faithful
Security to those formed from the dust**

Instrumental

How your qualities create happiness in the heart

**You are Holy and you are just
You are love and you are trust
You are merciful and gracious
You are unchangeable and faithful
Security to those formed from the dust**

Security to those formed from the dust

A song about how close our Father is to us.

The power behind creation
Reveals his love in every way
Each step we take
He guides us
The sunlight in our day

Wisdom follows his instruction
And its proven with our smile
A father and a child
A guide eternally
Direction with every mile

A hand held forever

***His power is with you
A guiding force proving true
His love is forever
And no matter
Where you may stand
If we obey His command
Our Father holds our hand***

The source of living waters
Reveals His wisdom every day
When we partake
He teaches us
Every step of the way

His protection is our guidance
Our joy is found in His shade
Our complete reliance

Is a close friend
The happiness never fades

A hand held forever

***His power is with you
A guiding force proving true
His love is forever
And no matter
Where you may stand
If we obey His command
Our Father holds our hand***

Instrumental

Wisdom follows his instruction
And its proven with our smile
A father and a child
A guide eternally
Direction with every mile

A hand held forever

***His power is with you
A guiding force proving true
His love is forever
And no matter
Where you may stand
If we obey His command
Our Father holds our hand***

A song about approaching our Father for forgiveness.

When we bow to God and pray
We should never ever feel afraid
To ask for forgiveness of every sin
No matter how deep the pain within

The true God is always slow to anger
Each and every time imperfection falls
Temptations regularly throw their anchor
Even in severity on his love we can call

**In our weakness there is a strength
Turning to our Father is the only way
Providing wisdom and understanding
During the times when our heart fails
In our weakness there is a strength
When we turn to our God and repent**

When there's a stain in our heart
There's a loving father who is true
When pangs of guilt begin to start
He is always willing to listen to you

And the true God is forever patient
When our imperfect heart loses its way
Wisdom is with the good and ancient
And He forgives us even when we stray

**In our weakness there is a strength
Turning to our Father is the only way
Providing wisdom and understanding
During the times when our heart fails
In our weakness there is a strength
When we turn to our God and repent**

Instrumental

The true God is always slow to anger
Each and every time imperfection falls
Temptations regularly throw their anchor
Even in severity on his love we can call

**In our weakness there is a strength
Turning to our Father is the only way
Providing wisdom and understanding
During the times when our heart fails
In our weakness there is a strength
When we turn to our God and repent**

**In our weakness there is a strength
When we turn to our God and repent**

7 We're Residing in Your Faithfulness

A song about God's faithfulness to His people.

God's people are loyal and constant
Proving our unswerving faithfulness
Our devotion is a melody in concert
Our sounds of loyalty never deterred

Our Father He sets a fine example
He is forever steadfast always true
Eternally He is faithful to his people
His provisions are never overdue

And how our joy comes from His faithfulness
Every day, every night,
His loyalty is in our sights

**We're residing in your faithfulness
And your promises have proved true
You have forgiven our sinfulness
Providing those who are serving you
We're residing in your faithfulness
How you delivered every single soul
Into your land of righteousness
Loyal to your people is your goal**

Our father will protect and deliver
Even when our hearts are wrong
It is His people that he considers
Because it's to Him that we belong

And we are forever confident in his loyalty

Every day, every night
He provides us constantly

**We're residing in your faithfulness
And your promises have proved true
You have forgiven our sinfulness
Providing those who are serving you
We're residing in your faithfulness
How you delivered every single soul
Into your land of righteousness
Loyal to your people is your goal**

Instrumental

And how our joy comes from His faithfulness
Every day, every night,
His loyalty is in our sights

**We're residing in your faithfulness
And your promises have proved true
You have forgiven our sinfulness
Providing those who are serving you
We're residing in your faithfulness
How you delivered every single soul
Into your land of righteousness
Loyal to your people is your goal**

**We're residing in your faithfulness
Loyal to your people is your goal**

As song about God's supreme wisdom and understanding.

A sunrise too far in the horizon
 Yet the sun rises another day
 The light is clear in our God's eyes
 He can see what comes our way

Our view obscured with lack of foresight
 God's view is always right

***You can only look back
 The future's not ours
 We can't see ahead of time
 A complete view we lack
 The knowledge is our Father's
 We trust in God we do
 God's view is always wise***

We can come to know one another
 But we can never read their heart
 There's so much we can discover
 But its only just the start

We can only see with our eyesight
 But we never see beyond the light

***You can only look back
 The future's not ours
 We can't see ahead of time
 A complete view we lack
 The knowledge is our Father's
 We trust in God we do
 God's view is always wise***

Instrumental

Our view obscured with lack of foresight
 God's view is always right

***You can only look back
 The future's not ours
 We can't see ahead of time
 A complete view we lack
 The knowledge is our Father's
 We trust in God we do
 God's view is always wise***

***A complete view we lack
 The knowledge is our Father's
 We trust in God we do
 God's view is always wise***

9 It's Written in All You've Made

A song about how love is reflected in His creative works.

In every brush
There's a stroke
Creating a thousand words
Your qualities
Are revealed
Insight in everything observed

In every day every night,
Your works reveal what's you
Proving your love that's true
Every work of your fingers bring something new,
Love's in all you do

***It's written in all you've made
It's there in what we perceive
(A love thats' true)
Like the sun that never fades
Your love is there for all to see***

In every word
There's a thought
A personality expressed
Everything we see
With every sense
Reveals you at your best

Awe inspiring designs
Declares a love that's real
Proving your love surreal
Every work of your
hands is revealing you,

Love's in all you do

***It's written in all you've made
It's there in what we perceive
(A love thats' true)
Like the sun that never fades
Your love is there for all to see***

In every heart
There's a beat
Creating the rhythm of life
In everyone
There's a love
Affection for the one on high

In every moment in time
Reveals a moment of your love
A quality that never fades
It shines in
everything that you've made
Your love bears no shade

Chorus

***It's written in all you've made
It's there in what we perceive
(A love thats' true)
Like the sun that never fades
Your love is there for all to see***

A song about our life revolves around God's love in creation.

Marvel the birds
Up in the sky
How your works are mountain high
Look at the stars
Beauty afar
Your creation through human eyes

Travel land and sea
Follow the breeze
Your great power we can see
The moon in the night
The sun in the day
Love expressed in creations way

We find your love each and every day

**Your love is our life
Creation reveals every day
Love expressed in so many ways
Your love is our life
We have come to depend
And your love never comes to an end**

Instrumental

The miracle of life
With much variety
Motion as far as the eye can see
Hearts beat beyond
The existence of time
Living their lives in a way thats fine

We find your love in every way

**Your love is our life
Creation reveals every day
Love expressed in so many ways
Your love is our life
We have come to depend
And your love never comes to an end**

Instrumental

**Your love is our life
Creation reveals every day
Love expressed in so many ways
Your love is our life
We have come to depend
And your love never comes to an end**

**Your love is our life
Creation reveals every day
Love expressed in so many ways
Your love is our life
We have come to depend
And your love never comes to an end**

**This is the sign that
Your love is our life**

A song about how we should draw close to our Father.

Millions of friends crowd around us
Many voices around the earth who we know
And we should never need a reminder
It's to our Father we have a need to draw close

Not just there for the hard times
Our Father is more than a dealing
He wants to draw close to you
Do we draw close too?

***Wherever you are, wherever you go
Our Father is the one you need to know
Whatever you do,
Draw close and he'll draw close to you***

Millions of brothers always surround us
Our earthly home can seem very small
And we should never need a reminder
The voice of our Father is the one that stands tall

Not just there when we need him
God is more than a feeling
He wants you to be his friend
Is this what you depend?

***Wherever you are, wherever you go
Our Father is the one you need to know
Whatever you do,
Draw close and he'll draw close to you***

Millions of faces can be so hard to remember
In a human family that fills all the earth
Let's never forget the face of our Father
He is the one devising our birth

Not a just a voice in the distance
God is more than just hearing
He's our God, Father and friend
A friendship that never ends

***Wherever you are, wherever you go
Our Father is the one you need to know
Whatever you do,
Draw close and he'll draw close to you***

A song about trusting in God and doing what is good to do.

Take a look to the future
Only a spark can ignite a flame
And wisdom's never to blame
Leaning on our understanding
Doesn't help us get by another
day
The solutions just fade away

***In every waking moment we need
you***

In every way we should

***In every painful moment we need
to***

***Trust in God, and do what
is good***

Take a look to the Bible
Injecting pages of light into the
day
Let your word find a way
Relying on our imagination
Our human eyes don't see far
away
Let our God guide the way

***In every waking moment we need
you***

In every way we should

In every painful moment we need

***to
Trust in God, and do what
is good***

*Man has dominated man
to reveal that man's so blind
We can't live apart from God, no never
We need to rely on him forever,
Rely on him forever*

Take a look to our Father
Rivers of peace from heaven
above
Torrents of wisdom and love

***In every waking moment we need
you***

In every way we should

***In every painful moment we need
to***

***Trust in God, and do what
is good***

A song about our Father's immutable standards and personality.

Like the sun and moon they always rise
As our God's qualities will never retire
Unchanging like the north star in the sky
God's love and protection will never tire

The moon's hold on the earth will never fail
God is the oxygen that we forever inhale
Like the breeze that powers a ship to sail
His unchanging qualities will always prevail

Your immutable attributes we benefit day by day
There's permanency in all you do and all you say

**Your perfect qualities are always your way
While generations change throughout the age
No matter how many times the seasons change
Your perfect ways will always stay the same**

The wings of a bird are designed to fly
Your ways they carry your people high
The guiding star seen both day and night
The path to take is always in our sight

Your unchanging ways we see clearly day by day
We enjoy stability in all you do and all you say

**Your perfect qualities are always your way
While generations change throughout the age
No matter how many times the seasons change
Your perfect ways will always stay the same**

Your perfect ways bring us a life to enjoy
They are the current that you have deployed
So the stormy waters we will come to avoid
The stability that we find in your good voice

Instrumental

**Your perfect qualities are always your way
While generations change throughout the age
No matter how many times the seasons change
Your perfect ways will always stay the same**

Your perfect ways will always stay the same

A song about God's victory on the Great Day.

Hopeless feelings
That we once beheld
Turn to joy
In the land that we dwell
Gone is the darkness
In the true light of day
We feel secure
Our tears wiped away

A new earth that's been impearled
Liberated from Satan's world
It's the start of a new day
Living in God's perfect ways

***A mighty hand has set us free
Celebrate our Father's victory
The day His promises came to be
The promises we believed
Fulfilment we now see
A mighty hand has set us free
Celebrate our God's supremacy
We now greet the morning light
With the promises we received***

A sphere of badness
The earth left behind
The tears of sadness
From a world so unkind

No more the wicked
Are we forced to endure
Gone are the days when
Sickness had no cure

God's hand the only way through
And His every word is always true
It's the start of a new day
Now the old world has gone away

***A mighty hand has set us free
Celebrate our Father's victory
The day His promises came to be
The promises we believed
Fulfilment we now see
A mighty hand has set us free
Celebrate our God's supremacy
We now greet the morning light
With the promises we received***

*The heavens will now rejoice
God's power can't be denied
The earth now reflects His glory
Like the sun shines in the skies*

Instrumental

Choruses

A song about how we always find our Father near to us.

We walked in the darkness
Never seeing without the light
The world was far from harmless
Forever needing
Needing a good guide in life
A good guide in life

The last days were full of danger
And we needed a guiding hand
The way to go was a stranger
Needing guidance
Guidance that we understand
That we understand

***As we followed the way
We found light in the day
When the rains began to pour
We sheltered from the storm
We found our Father near
We found our Father near***

In the night we were endangered
We found refuge in God's good light
Finding an answer in every scripture
We made our way
Made our way through the night
Through the night

When the world looked in despair

We could see beyond the night
With an answer from every prayer
We followed
We followed His guiding light
His guiding light

***As we followed the way
We found light in the day
When the rains began to pour
We sheltered from the storm
We found our Father near
We found our Father near***

Every truth that we heard
We found in your word
Everything that you say
God provided the way
We found our Father near
We found our Father near

Instrumental

***As we followed the way
We found light in the day
When the rains began to pour
We sheltered from the storm
We found our Father near
We found our Father near***

A song about how God's ways benefit all.

What was good went amiss
When obedience they resist
Two perfect hearts fell apart
As imperfection made a start

How we listened to the music
But the tune was far from right
Deep within the streams of time
All God's people will be upright

***It takes time to see
God's ways are meant to be
Time is a healer
How the years will set us free
Time is the guarantee
God's ways are meant to be
Where good hearts will rendezvous
God's ways are meant to be
As time has come to prove***

Man had lost the fight
Losing track of what was right
When the blind guide the blind
All good morals are left behind

With a world facing danger
Revolving the wrong way
Righteousness was a stranger
The night was far from day

***It takes time to see
God's ways are meant to be
Time is a healer
How the years will set us free
Time is the guarantee
God's ways are meant to be
Where good hearts will rendezvous
God's ways are meant to be
As time has come to prove***

God's ways are meant to be
As time has come to prove

Instrumental

How we listened to the music
But the tune was far from right
Deep within a thousand years
All God's people will be upright

***It takes time to see
God's ways are meant to be
Time is a healer
How the years will set us free
Time is the guarantee
God's ways are meant to be
Where good hearts will rendezvous
God's ways are meant to be
As time has come to prove***

A song about how God knows everything beyond our comprehension.

The sounds of joy are in view
Hearing the promises never broken
As the world we once knew
Gone with the words that were spoken

Foresight sharper than light
Bringing clarity in the daytime
No distance can hinder His sight
Seeing forever and providing insight

***There's a blindness in our eyes
Guiding us to a way of error
On His wisdom we rely
God knows all things forever***

Like the sound of the voice
Supreme clarity in every vision
His insight we can employ
He's guiding our every decision

The future cannot be disguised
There's precision in every measure
Faultless sight and never blind
He is perfect in every endeavour

***There's a blindness in our eyes
Guiding us to a way of error
On His wisdom we rely
God knows all things forever***

***We cannot walk through the night
We need a perfect hand to guide us
Our Father provides the light
God knows all things forever***

*God see's the way before us
Knowledge that we need to guide us
The compass that keeps our course true*

Instrumental

***There's a blindness in our eyes
Guiding us to a way of error
On His wisdom we rely
God knows all things forever***

***We cannot walk through the night
We need a perfect hand to guide us
Our Father provides the light
God knows all things forever***

A song about prophecies being fulfilled in the fullness of time.

With every word of a scripture
You painted a picture
Of the times
With every word spoken
No promises broken
Watching the signs

With every word of truth you convey
Proven with the passing of days
Depths of time never in the way
And when we hear it
We believe it

**In the fullness of time
Your prophecies unfolded as described
Your words could never be denied
Your every promise has always shined
In the fullness of time
Your words of yesterday we relied
Your prophecies are always right
How we relied on your insight**

Your words reach into the future
And never a rumour
They are sure
Your very eyes see forever
Without need for measure
Not obscured

With your every word we came to trust
Knowing every event during the days

And your words are bare no delay
And when we hear it
We will see it

**In the fullness of time
Your prophecies unfolded as described
Your words could never be denied
Your every promise has always shined
In the fullness of time
Your words of yesterday we relied
Your prophecies are always right
How we relied on your insight**

Instrumental

With every word of truth you convey
Proven with the passing of days
Depths of time never in the way
And when we hear it
We believe it

**In the fullness of time
Your prophecies unfolded as described
Your words could never be denied
Your every promise has always shined
In the fullness of time
Your words of yesterday we relied
Your prophecies are always right
How we relied on your insight**

A song about being a believer and having personal strong faith.

Your power is beyond our minds
And everything is of your design
Your miracles always remind
That every word you say
Actions follow behind

The extraordinary will meet our eyes
Your promises are never out of line
You surpass every norm defined
What you say today
You fulfil in due time

**What you say you do
And we believe it
We have faith in you
Your every word is true
What you vow you prove
We believe it
We never question you
Because your words are truth**

What we hear is what we will see
As your word acts as a guarantee
Your power is a certainty
What we can't foresee
Will surely come to be

There is no doubt in what you say
It's as certain as the light meets day
We trust in what you convey
There is never any delay
It's your forever way

**What you say you do
And we believe it
We have faith in you
Your every word is true
What you vow you prove
We believe it
We never question you
Because your words are truth**

Instrumental

Your power is beyond our minds
And everything is of your design
Your miracles always remind
That every word you say
Actions follow behind

**What you say you do
And we believe it
We have faith in you
Your every word is true
What you vow you prove
We believe it
We never question you
Because your words are truth**

20 When God Dwells in Your Heart

A song about how God is near to us in every way.

You're never truly on your own
When God you've come to know
He's always home

In your heart
There's a special place
He's guiding you
With his warm embrace

If there's one thing you can be sure
The bonds of love will always soar

**There's a love that brings you bliss
Hands held that never miss
When God dwells in your heart
There's a love you can't forsake
Because his love is wide awake
When God dwells in your heart**

When there's nowhere else to turn
God's love for you still burns
You're not alone

In your heart
There's a promised land
When you lean on him
And then take his hand

You never have to look too far
God is standing where you are

**There's a love that brings you bliss
Hands held that never miss**

**When God dwells in your heart
There's a love you can't forsake
Because his love is wide awake
When God dwells in your heart**

**There's a friend you can't deny
With your protection in his eyes
When God dwells in your heart
There's a love that you can see
As he's with you constantly
When God dwells in your heart**

Instrumental

You never have to look too far
God is standing where you are

**There's a love that brings you bliss
Hands held that never miss
When God dwells in your heart
There's a love you can't forsake
Because his love is wide awake
When God dwells in your heart**

**There's a friend you can't deny
With your protection in his eyes
When God dwells in your heart
There's a love that you can see
As he's with you constantly
When God dwells in your heart**

A song about our pure worship will always prevail.

How we walked through the times
When your worship fell into decline
Man's way they would go
Your ways they didn't know

How we walked through the times
When pure worship fell out of line
And every page they forgot
How fallen trees would rot

But there were a people who loved your word
And how their worship your words incurred

**Pure worship always prevails
And love is the wind in the sails
Powering the way to worship you
The God who always proves true**

**Pure worship always prevails
When our love for you is unveiled
We desire to revere you so
How our pure worship prevails**

How we walked through the times
When true worship was declined
Hearing your word every day
Ignites the spark in every way

How we walked through the times
When they chose to ignore all the signs
But how we loved your word
The way of truth we did not defer

We were your people who listened to you
Because we knew your every word is truth

**Pure worship always prevails
And love is the wind in the sails
Powering the way to worship you
The God who always proves true**

**Pure worship always prevails
When our love for you is unveiled
We desire to revere you so
How our pure worship prevails**

Instrumental

But there were a people who loved your word
And how their worship your words incurred

**Pure worship always prevails
And love is the wind in the sails
Powering the way to worship you
The God who always proves true**

**Pure worship always prevails
When our love for you is unveiled
We desire to revere you so
How our pure worship prevails**

Pure worship prevails

A song about how fascinated we are with creation.

There is fascination in your creation

In this world where we breathe
There's a miracle that's complete
The works of God's fingers testify
In this world that we now enjoy
All God's creatures now rejoice
How awe in your works intensifies

From the sunshine in the morning
To the starry skies in the night
Your works are always visible
Your works always in our sight

**There is fascination in your creation
We see it each and every day
From the world's vast formation
Your works of art forever on display
There is fascination in your creation
And it is always to your praise
So many marvels in combination
Beauty abound for everyone to gaze**

How we love to study every detail
How we admire your works of art
In your miracles we always avail
The eye never knows where to start

From the colours in the morning light
To the sparkle at the end of the day
Your creation makes a heart bright
So much beauty will come our way

**There is fascination in your creation
We see it each and every day
From the world's vast formation
Your works of art forever on display
There is fascination in your creation
And it is always to your praise
So many marvels in combination
Beauty abound for everyone to gaze**

Instrumental

From the sunshine in the morning
To the starry skies in the night
Your works are always visible
Your works always in our sight

**There is fascination in your creation
We see it each and every day
From the world's vast formation
Your works of art forever on display
There is fascination in your creation
And it is always to your praise
So many marvels in combination
Beauty abound for everyone to gaze**

Beauty abound for everyone to gaze

A song about our Father's great mercy towards us.

Our Father you are merciful
Your compassion beyond compare
Our Father you are forgiving
And a saddened heart you repair

When the guilt of sin is heavy
When the weight is too much to bare
We can depend on your love
And no longer do we feel despair

**How your love outweighs our sins
And your forgiveness ensures we win
Our past has been defeated
Conquered by the mercy you feel within
How your compassion guides us
To a good conscience feeling free
No longer crushed by our sins
Conquered by the mercy you feel within**

Our Father provides atonement
And His son died as a ransom for us all
Our Father provided rescue
Paying for all our sins large and small

When the guilt is our burden
When we feel the burning pangs of despair

Our deliverance is certain
Even when our good standing is impaired

**How your love outweighs our sins
And your forgiveness ensures we win
Our past has been defeated
Conquered by the mercy you feel within
How your compassion guides us
To a good conscience feeling free
No longer crushed by our sins
Conquered by the mercy you feel within**

Instrumental

When the guilt of sin is heavy
When the weight is too much to bare
We can depend on your love
And no longer do we feel despair

**How your love outweighs our sins
And your forgiveness ensures we win
Our past has been defeated
Conquered by the mercy you feel within
How your compassion guides us
To a good conscience feeling free
No longer crushed by our sins**

A song about our Father's will and purpose that can never be hindered.

Satan orchestrated Eve's fatal error
Forming mankind's history of terror
Becoming alienated from our Father
Now owing to our own sinful nature

Jesus perfect life came as a sacrifice
God's will he came to earth to magnify
To purchase Adam's life that was lost
Satan's machinations were quashed

The earth is rotating in its chaos
Our Father not the one to blame

**Our Father is our God almighty
The one who created the earth
His will is never taken lightly
God's will governs our world
No matter what the calamity
That hinders His true way
His will becomes our security
As God's will governs our world**

The perfect love found in our Father
Preserving the purity of his name
He sent his begotten son as a ransom
For the believing people to live again

Christ atones for each sin we make
Owing to his death upon the stake

Wages of sin is found in our death
Jesus returns our eternal breath

The world awaited the great day
Eternal arrives for those who obey

**Our Father is our God almighty
The one who created the earth
His will is never taken lightly
God's will governs our world
No matter what the calamity
That hinders His true way
His will becomes our security
As God's will governs our world**

Instrumental

**Our Father is our God almighty
The one who created the earth
His will is never taken lightly
God's will governs our world
No matter what the calamity
That hinders His true way
His will becomes our security
As God's will governs our world**

God's will governs our world

A close-up photograph of a wooden box, possibly a chest or a small cabinet, with a light-colored wood grain. The box is secured with several dark, round metal rivets along its top edge. A metal latch, featuring a circular base with a central pin and a curved, ornate handle, is attached to the front of the box. The background is dark and out of focus, showing some indistinct shapes and textures.

Section 10: God's Kingdom

A song about how God's kingdom drew us to the truth.

We became inclined
To cross over the finish line
Guided in every way
Running the race
Until the end of the days

Making our way
Through tears and sadness
Learning the good news
With joy and gladness

The darkest days
The light took away
As we endeavour
To live life forever

***God's Kingdom guided us to the light
As we walked through the darkest times
The light of day has now aligned
With the promises told in former times
Your commands ran through our veins
Rays of light burning up the rains
Drying out the tears and pain
Celebrating the joy
God's kingdom retains***

We learned and obeyed
As the former world decayed
The hope we adored
We taught others
To find and explore

Walking through the
World of darkness
Only brought us
Fear and badness

A future so bright
Built in the light
A kingdom resides
Peace calming the tides

***God's Kingdom guided us to the light
As we walked through the darkest times
The light of day has now aligned
With the promises told in former times
Your commands ran through our veins
Rays of light burning up the rains
Drying out the tears and pain
Celebrating the joy
God's kingdom retains***

Instrumental

*Forgotten are the days
Sunsets of tears and pain
The kingdom in which we prayed
Provided true life the only way*

Choruses

A song about remaining separate from Satan's world.

The world was far removed
From the good ways of God
The chaos He never approved
The people that spared the rod

Like a compass that pointed south
Every utterance from God's mouth
They were ignored and forgotten
And the ways of the world were rotten

But we listened to your every word
Watching the world that never learned

**Remaining separate remaining forever
Your words of truth were our endeavour
Satan's world was beyond corrupt
And we maintained our fine conduct
Remaining separate remaining forever
Your guidance saved us in bad weather
We studied your holy writings
Keeping clean in our striving
Remaining separate remaining forever**

The signs of the time were silent
To those who never sought the way
And seeking God they were defiant
They never saw the light in the day

With an anchor that never berthed
In the stormy waters of the world
They were carried away by the tide
Overlooking guidance God provides

We listened to the melody of your voice
Keeping away from the world was our choice

**Remaining separate remaining forever
Your words of truth were our endeavour
Satan's world was beyond corrupt
And we maintained our fine conduct
Remaining separate remaining forever
Your guidance saved us in bad weather
We studied your holy writings
Keeping clean in our striving
Remaining separate remaining forever**

Instrumental

But we listened to your every word
Watching the world that never learned

**Remaining separate remaining forever
Your words of truth were our endeavour
Satan's world was beyond corrupt
And we maintained our fine conduct
Remaining separate remaining forever
Your guidance saved us in bad weather
We studied your holy writings
Keeping clean in our striving
Remaining separate remaining forever**

**The satanic world has gone
Obeying your guidance carries on
Remaining separate remaining forever**

A song about how the earth is now under God's control through the kingdom.

We were delivered from insecurity
The world that peace never knew
Creation lacked God's authority
Much instability in everything we do

Now the world parallels with Eden
Anxiety blown away in the breeze
Like transitions between seasons
We now find security in all we see

The rivers of relief now flow across the earth
Watering the lands where security will emerge

**The world now resides in God's hands
The kingdom ruling across his lands
A garden without room for insecurity
Soothing the earth with his purity
The world now resides in God's hands
Creating peace with his commands
Life worth living in his sovereignty
Peace beyond our eyes can see**

The world where justice failed to show
Now filled with a people who God knows
All unrighteousness has been overthrown
No more will your heart come to groan

No more do we suffer effects of a satanic world
Every promise from our God has been reaffirmed

**The world now resides in God's hands
The kingdom ruling across his lands
A garden without room for insecurity
Soothing the earth with his purity
The world now resides in God's hands
Creating peace with his commands
Life worth living in his sovereignty
Peace beyond our eyes can see**

Instrumental

The rivers of relief now flow across the earth
Watering the lands where security will emerge

**The world now resides in God's hands
The kingdom ruling across his lands
A garden without room for insecurity
Soothing the earth with his purity
The world now resides in God's hands
Creating peace with his commands
Life worth living in his sovereignty
Peace beyond our eyes can see**

Beyond our eyes can see

A song about how we are the wheat from the harvest.

The fires of life bring us warmth
But the smoke will bring us harm
The wheat can bring good cheer
Even when the weeds are near

How good people bring us together
Designed to exist forever and ever
As the weeds are cast into the fire
Remaining wheat are God's desire

Time has taken the confusion away
Weeds are gone, wheat forever stay

**We're the fruit from the bitter harvest
Bought from the times that were darkest
The fruit that is here to stay
To live day after day
A delivered people that were harnessed
We're the fruit from the bitter harvest
Growing together when days were hardest
The harvest was great
For the great day we await
We're the fruit from the bitter harvest**

Dreams can lead to disappointment
But our dreams can feel so good
Wheat can bring us much enjoyment
Unless the weeds are misunderstood

Behind the clouds exists the sunshine
But the sun burns the clouds away
Negative words can make a rhyme
But the good words save the day

And the times never waited for the day
For the weeds who came to betray

**We're the fruit from the bitter harvest
Bought from the times that were darkest
The fruit that is here to stay
To live day after day
A delivered people that were harnessed
We're the fruit from the bitter harvest
Growing together when days were hardest
The harvest was great
For the great day we await
We're the fruit from the bitter harvest**

Instrumental

Time has taken the confusion away
Weeds are gone, wheat forever stay

**We're the fruit from the bitter harvest
Bought from the times that were darkest
The fruit that is here to stay
To live day after day
A delivered people that were harnessed
We're the fruit from the bitter harvest
Growing together when days were hardest
The harvest was great
For the great day we await
We're the fruit from the bitter harvest**

We're the fruit from the bitter harvest

A song about how we worshipped the one many did not come to know.

In those days we swam against the tide
Satan's world promoted lie after lie
And like the spine of the holy Bible
We were bound by God's word so vital

The world's compass had lost its needle
Ignorance surrounded God's loyal people
But we held on to you
Your word is the truth
Rejecting Satan's world of evil

**We worshipped who they didn't know
He was a distant voice in a memory
And our faith would always grow
We were cultivating our identity
We worshipped who they didn't know
To the blind his light never showed**

Surrounded by those without the truth
How their wicked ways they would do
God's word in our heart came to prove
There's a great crowd who worship true

Like the ship guided by a turbulent storm
Steering away from the safe and warm
But every day we did pray

And come what may
Our confidence in our God became the norm

**We worshipped who they didn't know
He was a distant voice in a memory
And our faith would always grow
We were cultivating our identity
We worshipped who they didn't know
To the blind his light never showed**

Instrumental

The world's compass had lost its needle
Ignorance surrounded God's loyal people
But we held on to you
Your word is the truth
Rejecting Satan's world of evil

**We worshipped who they didn't know
He was a distant voice in a memory
And our faith would always grow
We were cultivating our identity
We worshipped who they didn't know
To the blind his light never showed**

We worshipped who they didn't know

6 Keep Taking Life's Water Free

A song about taking life's waters coming from heaven.

Every feathered bird
Needs to know how to fly
For us to reach perfect skies
We discover how and why

Under authority of King's and priests
Guides to everlasting life for us to reach

***So if you
Drink life giving water
Wisdom becomes ocean deep
And perfection we will reap
So keep taking life's water free***

Copious rains flow
And in best of weather
Water like the finest wines
In the heart is where it shines

For the heart is where wisdom grows
Water from above fall on what is sown

***So if you
Drink life giving water
Wisdom becomes ocean deep
And perfection we will reap***

So keep taking life's water free

Instrumental

As rains flow from a God of love
So drink waters from the one above

***So if you
Drink life giving water
Wisdom becomes ocean deep
And perfection we will reap
So keep taking life's water free***

***So if you
Drink life giving water
In God's image we will be
Everlasting life we will see
So keep taking life's water free***

***So if you
Drink life giving water
Wisdom becomes ocean deep
And perfection we will reap
So keep taking life's water free***

A song about global unity in the future.

We're now safe from stormy seas
In every happy face there's eternity
Where God united every nation
To this time of joy and celebration

Now we live under our Father's sovereignty

Worst of times are now set behind you
A tribulation we've been delivered through
From Satan's world we were divided
To a new world we were guided

There's nothing impossible its true

***So with, each ray of sunshine
Will bring another good time
Paradise is fun and laughter
Love lasts forever after
Look around and see
There's a world with unity***

We could see it coming together
And worth our every endeavour
A great crowd now stands forever
All worshippers of our Father

Living under our creators sovereignty

***So with, each ray of sunshine
Will bring another good time
Paradise is fun and laughter
Love lasts forever after
Look around and see
There's a world with unity***

***So with, each ray of sunshine
Will bring another good time
Paradise is fun and laughter
Love lasts forever after
Look around and see
There's a world with unity***

***Look around and see
There's a world with unity***

There's a world with unity

8 Eyes Now See with Perfect Sight

A song about how we once mislead through false religious organisations.

Religions of many ways
Shared their distorted views
Lead those with genuine hearts
Further from the truth
Always transforming themselves
Into teachings of the light

***We relied on the Bible
Eyes now see with perfect sight***

They were mislead
With every Satanic lie
Wrong clothing worn
In the stormy skies
A compass that failed to turn
And then truth we came to learn

***We relied on the Bible
Eyes now see with perfect sight***

*The truth was sown
In hearts that would groan
Misbeliefs forgotten in time*

***We relied on the Bible
We relied on the Bible
Eyes now see with perfect sight***

Instrumental

***We relied on the Bible
Eyes now see with perfect sight***

Satan had blinded minds
Away from the truth
He shrouded everything
That we know is true

***We relied on the Bible
We relied on the Bible
Eyes now see with perfect sight***

Eyes now see with perfect sight

There's No Life (Where There's No Truth Inside)

Using your holy name
False religions they became
Bible truth they disclaimed
Bringing every reproach on you

A decoy from what's true
Twisting the words of truth
Words they couldn't prove
Taking many souls away from you

Many escaped through the doors
So they couldn't mislead any more
Like birds flying away

**And there were
So many snares in the world
But we heard your voice
Through pages we unfurled
There's no life
Where there's no truth inside**

**And we were
Drawn to the light of the truth
When they stumbled
For the words they couldn't prove
There's no life
Where there's no truth inside**

Their own rules they did impart
Heavy burdens on their hearts
Destroying faith was their art
Bringing every reproach on you

Human rules were observed
And justice never served
As truth was never heard
Taking many souls away from you

Your voice in your word was true
Setting us free into pastures new
A people for your name

**And there were
So many snares in the world
But we heard your voice
Through pages we unfurled
There's no life
Where there's no truth inside**

**And we were
Drawn to the light of the truth
When they stumbled
For the words they couldn't prove
There's no life
Where there's no truth inside**

Instrumental

Many escaped through the doors
So they couldn't mislead any more
Like birds flying away

Choruses

A song about God's Kingdom in the run up to the Great Day.

Heavy seas make the rocks fall
And in worst of times
No human power stands tall
There's a Kingdom, a guiding light
That stands forever
And endures the night

It's a bright light showing the true way
Leading God's people to another day

***Your Kingdom is the key that fit the door
To enter the paradise restored
You delivered your great crowd***

Foundations secure the fragile home
And in the worst of storms
You are a strong cornerstone
A lighthouse that shone far away
Guiding your people
Turning the night into day

How your Kingdom swept violent tides away
And living the prophecy foretold yesterday

***Your Kingdom guided us in stormy times
To the promised land that is sublime
You delivered your great crowd***

*Your Kingdom lit the night
Revealing the way that's right
Giving your people perfect sight
No other Kingdom could ever bring
True peace to every breathing thing*

You delivered your great crowd

You delivered your great crowd

A song about cultivating intense love for one another and displaying it.

Well every soul needs another
We can never stand on our own
And with our affection for our brothers
Our love will always find a home

Oh Find affection in the eyes
They're never running dry

And love, will always last forever
Loosing count with each embrace
And when you, greet every colour
Love is mirrored upon their face

Oh Love in our heart is
Where our friendship starts

**Cultivate love and show it
So together
Creation can stand as one
Cultivate love and show it
Reflecting the likeness
Of God and His son**

Cultivate love x 2

Love is a voyage of discovery
Exploring every soul you meet
And you can, find a friend in everyone
Loneliness finds its defeat

Oh Love can't be denied
It's bound in every tie

**Cultivate love and show it
So together**

**Creation can stand as one
Cultivate love and show it
Reflecting the likeness
Of God and His son**

**Cultivate love and show it
So affection
Is found in everyone
Cultivate love and show it
It's the way
Of God and His son**

Cultivate love x 2

Instrumental

Oh Find affection in the eyes
They're never running dry

**Cultivate love and show it
So together
Creation can stand as one
Cultivate love and show it
Reflecting the likeness
Of God and His son**

**Cultivate love and show it
So affection
Is found in everyone
Cultivate love and show it
It's the way
Of God and His son**

A song about how we all live by God's ways in the new world.

Our hearts are the same
We laud our Father's name
Many cultures serve as one
Though our skin another shade

Every bird that will fly
Every colour in the skies
Living in a world of diversity
We're human in heart and mind

Every colour bares a need
To live in love and harmony

***Every heart beats the same
Living under God's name
Every colour, every shade
We all Live by God's ways***

Not every colour is blue
Creation has so many hues
Everything that we are inside
Is created in Yahweh's truth

The red blood in our veins
The colour always the same
Everyone can hurt and heal
Every culture strives to obey

Every human soul unique

But the same in what we seek

***Every heart beats the same
Living under Yahweh's name
Every colour, every shade
We all Live by God's ways***

***Every soul needs to love
As taught by our God above
Every colour, every shade
We live by God's ways***

Instrumental

Every colour bares a need
To live in love and harmony

***Every heart beats the same
Living under Yahweh's name
Every colour, every shade
We all Live by God's ways***

***Every soul needs to love
As taught by our God above
Every colour, every shade
We all live by God's ways***

A song about the kingdom we came to know in the last days.

Everybody looking for something
more
In the world with so many doors
How could we find our way?
To fill all the empty days

Our capabilities were misplaced
Used in a world with bad taste
Tired hands brought a life of
pain
And materialism all there was
to gain

***All this time
Behind the clouds
Was a Kingdom message
Strong and loud
A beacon of hope
To guide us through the storm
All this time
Was the way
True gifts of light
Found in every ray
Providing what we need
All we were searching for***

Always seeking but never found
Only sadness in a world unsound
The night never turned to day
The light moving further away

The world promised empty dreams
Lies that could never be

redeemed
A good life could never be
attained
Always striving but we never
gained

***All this time
Behind the clouds
Was a Kingdom message
Strong and loud
A beacon of hope
To guide us through the storm
All this time
Was the way
True gifts of light
Found in every ray
Providing what we need
All we were searching for***

The kingdom hope is our
motivation
Finding the meaning for our
creation
A blood that runs through our
veins
A reason for life to be
sustained

Chorus

14 I Wonder Where You Are Right Now?

A song about those who did not keep on the watch.

Walking around blind in the darkness
They couldn't listen but had much to say
Relying on the blind
Leaving sense behind

I wonder where you are right now?

Making plans that found no solutions
The garment that they wore with style
Their minds always spinning
And never were they winning

I wonder where you are right now?

I wonder where you are right now?

It's a drama of their own making
Treading loose boards on their stage
Saw the signs that they should be taking
Got the book but never turning a page

Instrumental

Following the world and its fashion
The current that swept them away
Trends that they followed
Left them empty and hollow

I wonder where you are right now?

I wonder where you are right now?

Alarms were set yet they never woke up
Oh how they slept through the days
Never followed the road on the atlas
The true destination not theirs to take

They lived by the heart and its passions
Striving to fill all the hours in the day
Their life was unfulfilling
Wanting to make a living

I wonder where you are right now?

I wonder where you are right now?

I wonder where you are right now?

I wonder where you are right now?

A song about being on the narrow path to life.

There are only two roads
A road ever degrading fast
The other is built to last
And never ends in the night

So perfect is the good road
Shedding every heavy load
Finding the only way to go
To a future warm and bright

Heading to a world sublime
In another time

***On the road to endless days
It's the only route that has no left or right
It's so safe you can even travel at night
On the road to endless days
It's a road taking us back to the start
Where obedience is found in every human heart
So drive on***

It's a way without red lights
Watching the signs pass by
Looking forward with our eyes
The golden sun begins to rise

We're keeping true and in line
The mirrors only see behind
Powered by truth in our heart
And keeping God's day in mind

The storms come sometimes
But you'll be just fine

***On the road to endless days
It's the only route that has no left or right
It's so safe you can even travel at night
On the road to endless days
It's a road taking us back to the start
Where obedience is found in every human heart
So drive on***

Instrumental

***On the road to endless days
It's the only route that has no left or right
It's so safe you can even travel at night
On the road to endless days
It's a road taking us back to the start
Where obedience is found in every human heart
So drive on***

***On the road to endless days
It's the only route that has no left or right
It's so safe you can even travel at night
On the road to endless days
It's a road taking us back to the start
Where obedience is found in every human heart
So drive on***

A song about the light of God's wisdom.

Was the end now the start
A beginning to a life that's perfect
Unrolling the scrolls in our heart
Discovering the knowledge to reflect

Wisdom shines from the scrolls
And the world needs to know
The sky has released its daylight

Behind every good word
Is the wisdom that stirs
Shining from the great heights

**In the heart of daylight
The scrolls are lauding your name
Providing every insight
The wisdom for that you are famed
Like a rock you are steady
And your people are ready
Guiding them every step of the way
In the heart of daylight
Your wisdom is an undying flame**

Your perfect scrolls light the way
Containing wisdom of your design
Never do your words pass away
How they stand fast for all time

Your words we draw near
And we're longing to hear
Your winsome words of perfection

Your every word crystal clear
Your commands we hold dear
Giving every one our subjection

**In the heart of daylight
The scrolls are lauding your name
Providing every insight
The wisdom for that you are famed
Like a rock you are steady
And your people are ready
Guiding them every step of the way
In the heart of daylight
Your wisdom is an undying flame**

*Your scrolls are unlocking all the doors
To a world that has been restored*

Instrumental

**In the heart of daylight
The scrolls are lauding your name
Providing every insight
The wisdom for that you are famed
Like a rock you are steady
And your people are ready
Guiding them every step of the way
In the heart of daylight
Your wisdom is an undying flame**

A song about the feeling of liberation we feel when learning the truth.

Every word reveals something better
And your every word is guaranteed
There is no more stormy weathers
Now that the truth has set us free

The truth can never be denied
And the light you cannot hide
The future is now for all to see

**It puts the rhythm in your heart
The shine in your eyes
With the truths you begin to see
It puts the breath in your body
The joy in your soul
How the good news sets you free**

Repairing every heart that is broken
As we learn the way to eternal life
Overwhelmed with every emotion
Life through the ransom sacrifice

The truth you cannot deny
Destroying Satan's lies
Our future is plain to see

**It puts the rhythm in your heart
The shine in your eyes
With the truths you begin to see
It puts the breath in your body
The joy in your soul
How the good news sets you free**

**It puts the light in your veins
The smile on your face
We forget what we once believed
It takes away the rains
Adding light in the day
How the good news sets you free**

Instrumental

The truth can never be denied
And the light you cannot hide
The future is now for all to see

**It puts the rhythm in your heart
The shine in your eyes
With the truths you begin to see
It puts the breath in your body
The joy in your soul
How the good news sets you free**

**It puts the light in your veins
The smile on your face
We forget what we once believed
It takes away the rains
Adding light in the day
How the good news sets you free**

A song about the return of God's sovereignty.

With every human election
It's the same old reflection
Always loosing their way
Every second has proven
In the heat of the moment
They darkened each day

Never finding their way to Eden
The directions were wrong
And their peace was gone
Their joy fell apart for a reason
They never followed God's way
Their world fell to decay

**Earth's under the Almighty's rule again
And we're here to remain forever
His direction proves to be a loyal friend
And our lives get better and better
Under God's rule again**

They lived on human opinion
In their worldwide dominion
Vision lost in their haze
How they rule without knowing
And confusion kept growing
In the darkness of days

Ignoring their own imperfections
They sought out the light
With their own fallible sight
Heading the other direction

They were willing to pay
For mistakes that they made

**Earth's under the Almighty's rule again
And we're here to remain forever
His direction proves to be a loyal friend
And our lives get better and better
Under God's rule again**

Instrumental

Never finding their way to Eden
The directions were wrong
And their peace was gone
Their joy fell apart for a reason
They never followed God's way
Their world fell to decay

**Earth's under the Almighty's rule again
And we're here to remain forever
His direction proves to be a loyal friend
And our lives get better and better
Under God's rule again**

**Earth's under the Almighty's rule again
His rule we'll always savour
Our true peace will never come to an end
And it will never ever waiver
Under God's rule again**

A song about food being plentiful in the new world.

Good food is growing
And its mountain high
How we turn our hand
To the fertile land

With vibrant colour
In every fruitful tree
God provides abundantly
You can taste and see

There's more grain
On the way in time
And it's never late
The harvest always great

**Abundant grain
Satisfying every
Soul and joyful heart
Oh Abundant grain
A gift from God above
Show him abundant love**

Everyone enjoying
Fruit from the vines
We can talk a while
With wine and a smile

Providing tasty food
Good health to you
Feeling more than fine
How it makes you shine

There's more fruit
Growing on the vine
The land is plentiful

And every heart is full

**Abundant grain
Satisfying every
Soul and joyful heart
Oh Abundant grain
A gift from God above
Show him abundant love**

Instrumental

There's more grain
On the way in time
And it's never late
The harvest always great

**Abundant grain
Satisfying every
Soul and joyful heart
Oh Abundant grain
A gift from God above
Show him abundant love**

**Abundant grain
Satisfying every
Soul and joyful heart
Oh Abundant grain
A gift from God above
Show him abundant love**

20 The World Hangs on God's Law

A song about how the whole world relies on God's commandments.

The earth moves with its guide
Suspended on nothing but the skies
And full of human life
A world rotating free of strife

The whole world hangs on nothing
But we hang on God's every word
The whole world hangs on applying
Every single law that we've learned

The world hangs on God's law
Living a good life without the flaws
The world hangs on God's law
We live in peace
Forever more

Separating the day from night
The earth rotates providing light
God guides us in his ways
Ensuring we have perfect sight

The whole world hangs on nothing
But we hang on to God each day
The whole world hangs on learning
As we follow God's good way

The world hangs on God's law
Living a good life without the flaws
The world hangs on God's law
We live in peace
Forever more

The world hangs on God's law
And his standards can't be ignored
The world hangs on God's law
Best way of life
Forever more

Instrumental

The whole world hangs on nothing
But we hang on God's every word
The whole world hangs on applying
Every single law that we've learned

The world hangs on God's law
Living a good life without the flaws
The world hangs on God's law
We live in peace
Forever more

The world hangs on God's law
And his standards can't be ignored
The world hangs on God's law
Best way of life
Forever more

A song about how war will be no more in the new world.

Without love there is war
Closing all the doors
When our flesh is the same
We pummel our tears
When turning swords into shears
And all for our God's name

So lets turn this world around
It's where our peace is found

Our war against war
To let the ice thaw
When our love's warm each day
Turning our back on the fear
Sounds of peace we can hear
And all for our God's name

Take your stand
We're at war
Peace is what we're fighting for
We'll no longer fear this world
Love's your spear
Aim it here
And make war disappear
Aim for peace
We'll no longer fear this world
War in captivity
For eternity
Aim for peace
We'll no longer fear this world

With your love on your face
Hate can't find space
And their peace is in our hands
There is no one to blame
When love is a flame
It's all for our Father's name

Take their hand
We're at peace
War is now deceased
We'll no longer fear this world
Take your love

Aim it high
War disappears overnight
Aim for peace
We'll no longer fear this world
Find true security
For eternity
Aim for peace
We'll no longer fear this world

Instrumental

Take your stand
We're at war
Peace is what we're fighting for
We'll no longer fear this world
Love's your spear
Aim it here
And make war disappear
Aim for peace
We'll no longer fear this world
War in captivity
For eternity
Aim for peace
We'll no longer fear this world

Take their hand
We're at peace
War is now deceased
We'll no longer fear this world
Take your love
Aim it high
War disappears overnight
Aim for peace
We'll no longer fear this world
Find true security
For eternity
Aim for peace
We'll no longer fear this world

A song about how we held on to our Father during fiery trials.

There's a beauty in loyalty
When it faced such a test
And in times of adversity
Faithfulness looks its best

We were never tempted
More than we can bare
Loyalty never exempted
Our devotion never impaired

Because we held on
With all our might
We could see forever
With our imperfect human eyes

**We held on to you
Proved our integrity
We held on to you
With our certainty
Your words of everlasting life
Could never be our sacrifice**

**We held on to you
In the last of last days
We held on to you
And remained in your ways
We hoped in the things unseen
Waited for you to intervene**

**We held on to you
For your sovereignty**

Every test bares a danger
Each one made us weak
God's word was no stranger
We found the answers we seek

There's strength in numbers
The shield we sought to keep
A flock that never slumbered
While the world was asleep

Though in the darkness

We knew the light
We saw the treasure
With our imperfect human eyes

**We held on to you
Proved our integrity
We held on to you
With our certainty
Your words of everlasting life
Could never be our sacrifice**

**We held on to you
In the last of last days
We held on to you
And remained in your ways
We hoped in the things unseen
Waited for you to intervene**

**We held on to you
For your sovereignty**

Instrumental

**We held on to you
Proved our integrity
We held on to you
With our certainty
Your words of everlasting life
Could never be our sacrifice**

**We held on to you
In the last of last days
We held on to you
And remained in your ways
We hoped in the things unseen
Waited for you to intervene**

**We held on to you
For your sovereignty**

A song about how we chose to obey God and His kingdom.

Failed mankind
In a four horseman ride
Unable to take the stride
To make all man's problems right

Times foretold
A rulership made of gold
Given to the one of old
To the one the ransom sold

And it's to him
Because he's got good news for you
And happiness thrives on spiritual food
Happy are the ones who see it's true

**You chose his Kingdom Rule
To help create a world thats new
Endured among his foot stool
You've been made alive
In his light so bright**

A rise and fall
Satan blind folded all
Justice has payed a call
To the wicked who were walking tall

Life without end
In a purpose we depend
Robes of perfection he will mend
While bought ones have their lives to tend

Take a breath
Those who died are back again
No longer do we try to remember them
Sin's claws have lost their hold on death

**You chose his Kingdom Rule
To help create a world thats new
Endured among his foot stool
You've been made alive
In his light so bright**

Instrumental

And it's to him
Because he's got good news for you
Happiness thrives on God's sweet food
Happy are the ones who see it's true

**You chose his Kingdom Rule
To help create a world thats new
Endured among his foot stool
You've been made alive
In his light so bright**

**You chose his Kingdom Rule
To help create a world thats new
Endured among his foot stool
You've been made alive
In his light so bright**

You chose his kingdom rule

24 Your Word Meant Life

A song about how God's word meant eternal life for us today.

We took a vow
We took a stand
We used God's word
Power in our hands

We took the truth
We took the time
We heard the good word
Strength in our prime

We learned the word in the darkest times

We took the day
We took the night
Reading your word
With all your insight

We took our love
We took our cheer
We spread the word
And showed no fear

We endured the cold rain of the days

Your word meant life
It gave us a cure
And your promises
Are always sure
Your word meant life
A lamp to our way
Your promises
Of a brighter day

It has been our guide
Your word meant life

We showed our love
We showed the truth

We learned your word
And gave us proof

We saw the light
We saw the way
Gave us your word
Without any delay

Your word lives in the heart of what we say

Your word meant life
It gave us a cure
And your promises
Are always sure
Your word meant life
A lamp to our way
Your promises
Of a brighter day

It has been our guide
Your word meant life

And we were searching
And we were searching

Your word meant life
Yes we are sure
We're living in the time
We've been waiting for
Your word meant life
We followed the signs
It's been our guide
Your word meant life

It's been our guide
Your word meant life

A song about the new world and how joyful we will be.

Memories forgotten in time
And peace we can find
Memories don't last forever
Pain fades in the night
And we wake in the light

Time takes away all our tears

Memories tend to disappear
When the days begin to break
And pain will be gone forever
And nightmares never reappear
When we're wide awake

The light steals our darkest fears

What breaks a heart
What found its way in
They will be gone forever
What tears you apart
What hurts you within

Eyes so dry and you can see

**You can't hold on to your tears
They dry up and disappear
When the joy of our God is now here
The pain you stored in your heart
Can no longer play a part
When the joy of our God is now here**

When the joy of our God is now here x2

It never takes a thousand years
For tears to fade away
They are gone before tomorrow
And every time the light appears
Tears vanish in the haze

The warmth inside destroys our tears

Your tears dry out
Your joy enters in
They are wiped away forever
Our eyes are in drought
Where pain never wins

Eyes so dry and you can see

**You can't hold on to your tears
They dry up and disappear
When the joy of our God is now here
The pain you stored in your heart
Can no longer play a part
When the joy of our God is now here**

When the joy of our God is now here x2

Instrumental

What breaks a heart
What found its way in
They will be gone forever
What tears you apart
What hurts you within

Eyes so dry and you can see

**You can't hold on to your tears
They dry up and disappear
When the joy of our God is now here
The pain you stored in your heart
Can no longer play a part
When the joy of our God is now here**

When the joy of our God is now here x2

Our eyes are in drought
When pain never wins

26 Healing of the Nations

A song about how God's kingdom will heal the nations.

In a world in two
Waiting times a new
During right and wrong

With the sharpest eye
On the worst of times
We kept on the watch

And in the darkest times
Our fears burned away
Knowing his arrival was
Due any day

The sun is rising
The day's looking blue
Oh how we waited
For the good times anew

**Healing of the nations
Every tear is wiped away
Security is here to stay
With every day break
Healing of the nations
No ill to make us sigh
Only death will ever die
Hearts beat for all time
Enjoying our peace of mind
We patiently waited for you
The healing of the nations**

With widening smiles
Not hiding the trials
Because the sky is blue

No more hearts to blame
Unique but all the same
Worshipping the one who's true

And in the darkest times
Waiting for the great day
No more the wicked

Will get in our way

The meek are rising
And holding God's hand
Delivering us safely
To His promised land

**Healing of the nations
Every tear is wiped away
Security is here to stay
With every day break
Healing of the nations
No ill to make us sigh
Only death will ever die
Hearts beat for all time
Enjoying our peace of mind
We patiently waited for you
The healing of the nations**

Instrumental

The sun is rising
The day's looking blue
Oh how we waited
For the good times anew

**Healing of the nations
Every tear is wiped away
Security is here to stay
With every day break
Healing of the nations
No ill to make us sigh
Only death will ever die
Hearts beat for all time
Enjoying our peace of mind
We patiently waited for you
The healing of the nations**

A song about how God's hand will guide us.

Each and every step we take
We can walk with our certainty
When our Father is by our side
No anxiety nor fear that aches
Loyal ones he cannot forsake
Our Father always will provide

As we walk through this life
Facing days full of strife
There's a power in our hands
As we talk through our heart
His reassurance will now start
Giving us comfort to withstand

The many dangers that we face
God's comfort we will now taste

**Our God's hand is no stranger
To every loyal friend
And there is never a danger
Bringing life to an end
There's a power that is guiding you
His peace you feel through and through
Our God's hand is no stranger
On his great power we can depend**

Each and every day we wake
His power is forever by our side
Facing each day with confidence
His invisible power always opaque
When His hand is seen day after day
God's protection is in His presence

As we walk through this life
When the dangers are fully rife
His strength is found in our hands
As we talk through our heart
Our anxieties will now depart
Knowing our Father understands

When the trials make there call
God's people are walking tall

**Our God's hand is no stranger
To every loyal friend
And there is never a danger
Bringing life to an end
There's a power that is guiding you
His peace you feel through and through
Our God's hand is no stranger
On his great power we can depend**

Instrumental

**Our God's hand is no stranger
To every loyal friend
And there is never a danger
Bringing life to an end
There's a power that is guiding you
His peace you feel through and through
Our God's hand is no stranger
On his great power we can depend**

**Our God's hand is no stranger
On his great power we can depend**

28 The Light Judged Hearts that Were Dark

A song about how God judges every heart in the world.

How the wicked ones once prospered
In the many times from long ago
Immoral ones causing tribulation
Oh how their seeds they would sow

The wheat grew amongst the darnel
But the weeds would one day choke
As the wheat ones would forever sparkle
The weeds will burn in their fatal smoke

Our Christ Jesus came to take the weeds away
The hearing righteous ones now see endless days

**The light judged hearts that were dark
The eternal road they did not embark
Their heart was far removed from life
As they slept hard through the night
The light judged hearts that were dark
Turning the hand against themselves
They paid with their own sacrifice
Jesus came to save the upright
The light judged hearts that were dark**

The wicked ones have now perished
And in the heat of their own evil works
How they struck the righteous people
But it was themselves that they would hurt

Weeds and wheat would grow together
Until the night collided with the day
The wheat would one day live forever
While the weeds would be done away

Our Christ and King came to turn the night into day
Rescuing God's people while the wicked fade away

**The light judged hearts that were dark
The eternal road they did not embark
Their heart was far removed from life
As they slept hard through the night
The light judged hearts that were dark
Turning the hand against themselves
They paid with their own sacrifice
Jesus came to save the upright
The light judged hearts that were dark**

Instrumental

Our Christ Jesus came to take the weeds away
The hearing righteous ones now see endless days

**The light judged hearts that were dark
The eternal road they did not embark
Their heart was far removed from life
As they slept hard through the night
The light judged hearts that were dark
Turning the hand against themselves
They paid with their own sacrifice
Jesus came to save the upright
The light judged hearts that were dark**

The light judged hearts that were dark

29 Eternal Life Depends on the Truth We Know

A song about our eternal life depending on the commandments we learn.

Step by step we made the journey
We were learning the way as we go
We ensured that we were worthy
In our heart God's word was sown

The oil that we used lit the way to go
Lamps that burn makes our heart glow
And imperfect ways can be overthrown
A God who is good we have come to know

We fought the fine fight of the faith because

**Eternal life depends on the truth we know
And our very heart learned the way to go
Making sure we travelled the eternal road
Powered by the solid foods in overflow
Eternal life depends on the truth we know
Crossing the finish line was always our goal
Allowing God's word to take full control
How God's every word we fed our very soul
As eternal life depends on the truth we know**

Step by step we ran the race to win
Keeping the fine treasure as an anchor
Awaited the one who paid for our sins
Enduring the force of Satan's anger

We fought the fine fight of the faith because

**Eternal life depends on the truth we know
And our very heart learned the way to go
Making sure we travelled the eternal road
Powered by the solid foods in overflow
Eternal life depends on the truth we know
Crossing the finish line was always our goal
Allowing God's word to take full control
How God's every word we fed our very soul
As eternal life depends on the truth we know**

Instrumental

We fought the fine fight of the faith because

**Eternal life depends on the truth we know
And our very heart learned the way to go
Making sure we travelled the eternal road
Powered by the solid foods in overflow
Eternal life depends on the truth we know
Crossing the finish line was always our goal
Allowing God's word to take full control
How God's every word we fed our very soul
As eternal life depends on the truth we know**

Depends on the truth we know

30 Their Wicked Heart Stood at a Distance

A song about those who lacked a willing heart.

How they would boast their many actions
Though love for God was not their style
Like a painted smile on a sculptured statue
Yet there's no love behind its vacant smile

Though their works of good were many
A glow of hypocrisy was showing through
A veneer of words they used in deception
While their wicked heart was far removed

The lips and their tongue always in motion
But their love for God contained no emotion

**Their wicked heart stood at a distance
Untouched emotions were persistent
When their works lacked a willing heart
Their wicked heart stood at a distance
Insincerity robbed their own existence
When mighty works came to fall apart**

Trying to take the good path to eternity
But never stopped to admire the view
Their works lacked the force of energy
That only comes from a love that is true

Words and actions based on motivation
And we are motivated by our love for you

Faith with works is a fine combination
But only when a genuine heart is true

They needed to be seen at the heat of day
But their hearts could never find their way

**Their wicked heart stood at a distance
Untouched emotions were persistent
When their works lacked a willing heart
Their wicked heart stood at a distance
Insincerity robbed their own existence
When mighty works came to fall apart**

instrumental

The lips and their tongue always in motion
But their love for God contained no emotion

**Their wicked heart stood at a distance
Untouched emotions were persistent
When their works lacked a willing heart
Their wicked heart stood at a distance
Insincerity robbed their own existence
When mighty works came to fall apart**

Their wicked heart stood at a distance

A song about leaving Satan's world behind.

Energy burned with frustration
Owing to the earth's situation
The earth was our enemy
God's kingdom our remedy

The danger of nefarious nations
Met with our daily expectations
The wicked a constancy
Never acting responsibly

The world had lost its trajectory
Until God's Kingdom set us free

**Every turn of the day you'll find
There are no mountains to climb
Satan's world has been left behind
The ways of the world now refined
Every turn of the day you'll see
Lives enjoy peace and security
From harm we are truly free
Every life will last for eternity
Every turn of the day
No harm we will see**

The Fathers way was never found
As their hearts became unsound
Goodness was forgotten
As the times were rotten

The hard snow did forever fall
As frozen hearts ruled them all
Materialism was the way
Taking light from the day

The warm skies instantly reappeared
A Kingdom made the storm disappear

**Every turn of the day you'll find
There are no mountains to climb
Satan's world has been left behind
The ways of the world now refined
Every turn of the day you'll see
Lives enjoy peace and security
From harm we are truly free
Every life will last for eternity
Every turn of the day
No harm we will see**

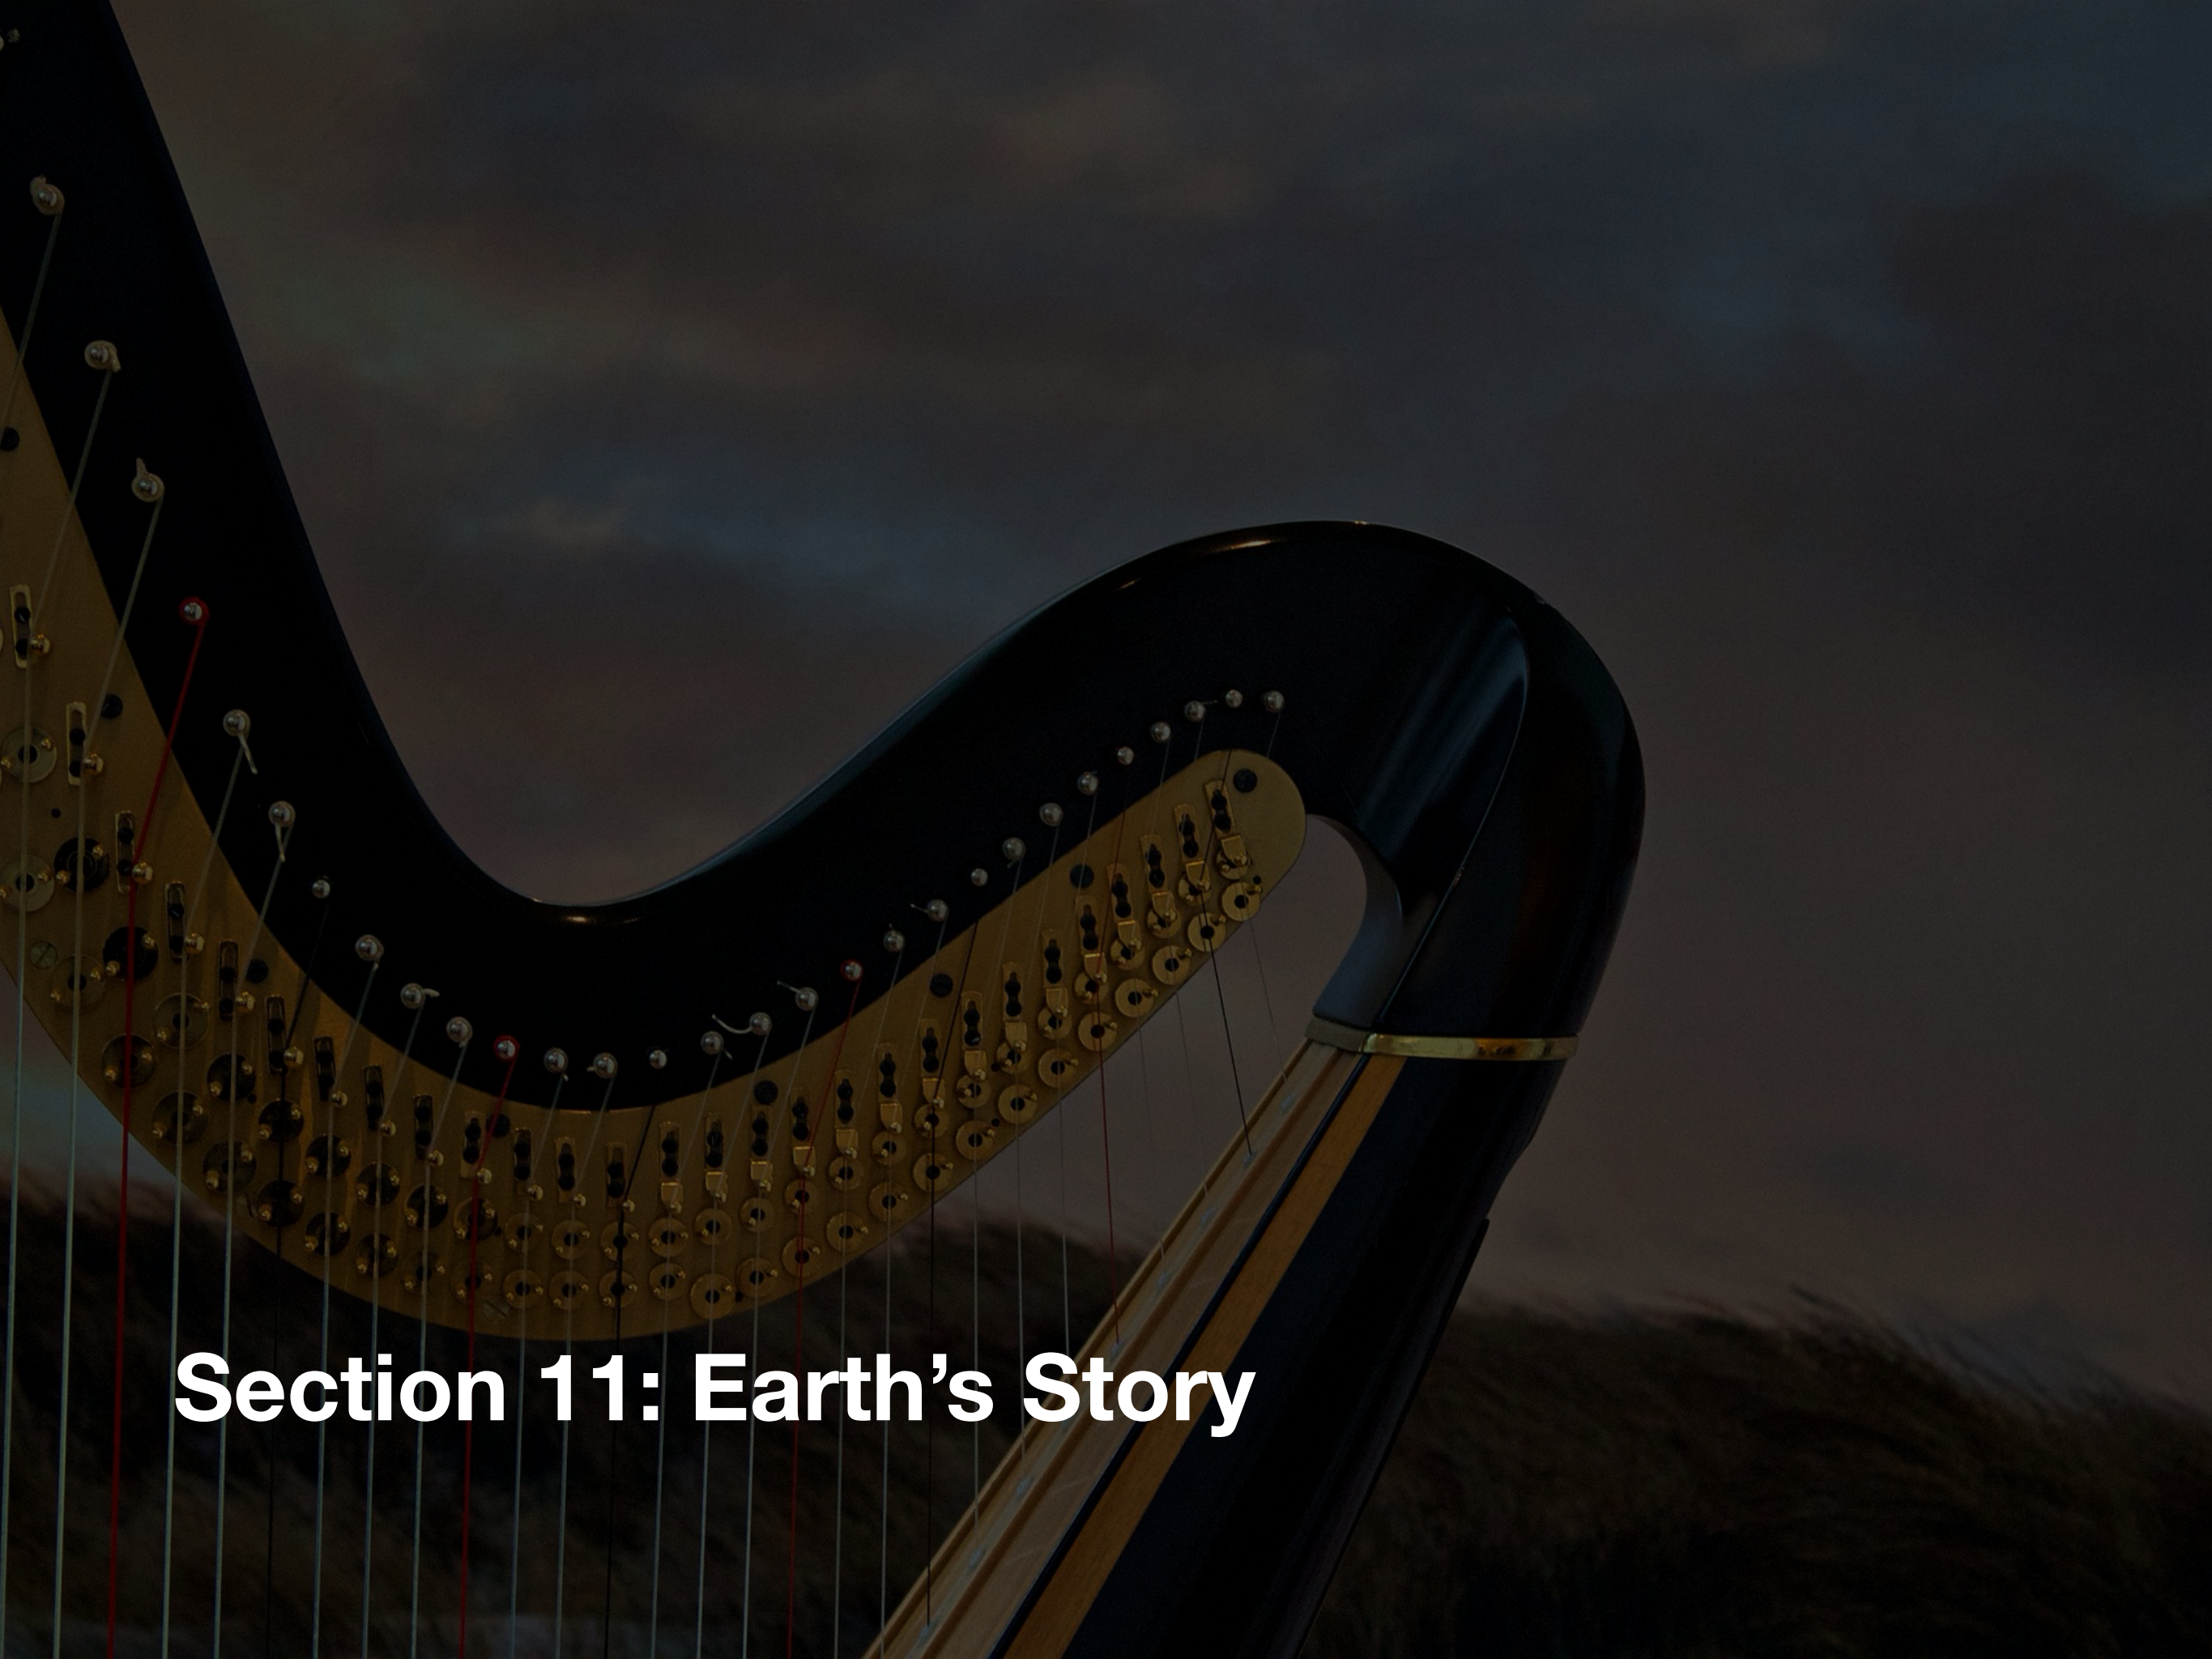

Instrumental

The world had lost its trajectory
Until God's Kingdom set us free

**Every turn of the day you'll find
There are no mountains to climb
Satan's world has been left behind
The ways of the world now refined
Every turn of the day you'll see
Lives enjoy peace and security
From harm we are truly free
Every life will last for eternity
Every turn of the day
No harm we will see**

oh-woah

**No harm will come our way
Every turn of the day**

Section 11: Earth's Story

A song about the creation of Heavens and the Earth.

Through God's eternal mighty power
He created the first born of heaven
Jesus Christ was the master worker
Myriads of angels in loves expression

On God's earth the light did arrive
Followed by the skies and its waters
From the flows of seas land derived
And the vegetation began to follow

**With the first sunrise above the earth
The love you showed was being told
Exposing the sunlight on your worth
Giving you praise on what we behold
There are many wonders to observe
With the first sunrise above the earth**

The lights in the great expanse above
Illuminates the large circle of the earth
Light and life to creatures in their love
As they fill the globe with their birth

The man Adam formed from the dust
The complement of Eve from his soul
To fill the earth was to be in their trust
Dominion of the earth in their control

**With the first sunrise above the earth
The love you showed was being told
Exposing the sunlight on your worth
Giving you praise on what we behold
There are many wonders to observe
With the first sunrise above the earth**

Instrumental

His mighty works that reflect his glory
He rested on the Holiest seventh day
A beginning of the earth's new story
The pattern set for all never to stray

**With the first sunrise above the earth
The love you showed was being told
Exposing the sunlight on your worth
Giving you praise on what we behold
There are many wonders to observe
With the first sunrise above the earth**

**Exposing beautiful works of our God
The first sunrise above the earth**

2 The Two Souls Made From One

A song about Adam and Eve in their perfect state.

The template of mankind Adam
Was perfect in each and every way
Introduced to the vibrant gardens
With just one instruction to obey

A complement from his own body
And yoked together with his Eve
The perfect woman in the garden
With a human offspring to achieve

Being blessed in body and mind
They were the best of humankind

**The two souls made from one
Had perfection as their way
Never with the view to die
To live forever in eternal days
The two souls made from one
To fill the earth with their seed
With contentment for everyone
God's will was bound to succeed**

Creatures found upon the earth
Adam came to give them call
Maintaining the Edenic gardens
Every wonder large and small

Food abundant from vegetation
Every texture and every taste
Eden was a delicious location

No rotten fruit came to waste

Blessings in the garden of Eden
Perfect in its stunning completion

**The two souls made from one
Had perfection as their way
Never with the view to die
To live forever in eternal days
The two souls made from one
To fill the earth with their seed
With contentment for everyone
God's will was bound to succeed**

Instrumental

Being blessed in body and mind
They were the best of humankind

**The two souls made from one
Had perfection as their way
Never with the view to die
To live forever in eternal days
The two souls made from one
To fill the earth with their seed
With contentment for everyone
God's will was bound to succeed**

**The two souls made from one
God's will bound to succeed**

3 Their Final Steps In a Paradise

A song about Adam and Eve's disobedience in Eden.

In the centre of forever paradise
The fruit with a bitter aftertaste
The disobedience of a woman
Ushering in the human disgrace

From the forbidden tree she took
Listened to Satan's deadly hook
Offered her marital flesh the same
Thus forcing mankind to disobey

From a paradise to thorns and thistle
From Eden they faced their dismissal

Their last steps in a paradise
Alienated mankind from God
Not seeing with perfect eyes
Sin spread to the times beyond
Their last steps in a paradise
They now brought stormy skies
Leading mankind to fatal times
Their last steps in a paradise

Realising their sudden nakedness
Covering over their sinful way
With their sudden wakefulness
God punishes those who disobey

With Sin introduced into Eden
They were thrown into their toil
The ways of sin now deepened

As sin spread to those beyond

Eternal life to the grey hair of death
Mankind no longer with eternal breath

Their last steps in a paradise
Alienated mankind from God
Not seeing with perfect eyes
Sin spread to the times beyond
Their last steps in a paradise
They now brought stormy skies
Leading mankind to fatal times
Their last steps in a paradise

Instrumental

From a paradise to thorns and thistle
From Eden they faced their dismissal

Their last steps in a paradise
Alienated mankind from God
Not seeing with perfect eyes
Sin spread to the times beyond
Their last steps in a paradise
They now brought stormy skies
Leading mankind to fatal times
Their last steps in a paradise

Their last steps in a paradise

4 The Holy Storm of Righteousness

A song about Noah and his family who had a strong relationship with God.

Angelic ones in the heavens above
Look to the human ones with love
Admiring their compelling form
Producing offspring not the norm

As the world became so wicked
With the hybrid ones of renown
Upon the holy perfect face of God
And from his throne He did frown

God regret the creatures that he had made
Disheartened by the horror they displayed

**The Holy Storm of Righteousness
God's will cleansed the entire earth
Removing the ones of lawlessness
The wicked people without worth
The Holy storm of righteousness
The deluge of justice in God's way
As His purity is His flawlessness
His rains cleansed the wicked days**

A man and his family trusted God
Noah was favoured for his bond
Crafting the ark through guidance
On his God he showed reliance

Gathering all creatures of the earth
They boarded for safety to preserve
Closing the door to the robust ark

The deluge of waters began to start

Noah and his family obeyed God above
And God spared them with His loyal love

**The Holy Storm of Righteousness
God's will cleansed the entire earth
Removing the ones of lawlessness
The wicked people without worth
The Holy storm of righteousness
The deluge of justice in God's way
As His purity is His flawlessness
His rains cleansed the wicked days**

Instrumental

God regret the creatures that he had made
Disheartened by the horror they displayed

**The Holy Storm of Righteousness
God's will cleansed the entire earth
Removing the ones of lawlessness
The wicked people without worth
The Holy storm of righteousness
The deluge of justice in God's way
As His purity is His flawlessness
His rains cleansed the wicked days**

**His rains cleansed the wicked days
The Holy Storm of Righteousness**

A song about the promised seed through Abraham.

God's worshippers in their old age
Where given the promise of a seed
Vaster than the sand upon the shore
Their offspring on earth will exceed

Beyond their laugh was the truth
Isaac became the seed in youth
And in every corner of the earth
Children of Abraham by their faith

Abraham formed the Hebrew nation
Through God's promise of population

**God's purpose for the earth remains
And His will can never be changed
The jewel of the earth always rotates
His many promises are never late
God's purpose for the earth remains
And His will runs through our veins
Its found in the seed of His people
God's purpose for the earth remains**

Providing a people to worship God
A people to live forever and beyond
Under the care of our loving creator
Living in unity with God and neighbour

God's purpose for our home unchanged
Through the seed of Abraham attained

**God's purpose for the earth remains
And His will can never be changed
The jewel of the earth always rotates
His many promises are never late
God's purpose for the earth remains
And His will runs through our veins
Its found in the seed of His people
God's purpose for the earth remains**

Instrumental

Abraham formed the Hebrew nation
Through God's promise of population

**God's purpose for the earth remains
And His will can never be changed
The jewel of the earth always rotates
His many promises are never late
God's purpose for the earth remains
And His will runs through our veins
Its found in the seed of His people
God's purpose for the earth remains**

**And His will can never be changed
God's purpose for the earth remains**

A song about the promised seed being delivered out of Egyptian slavery and oppression.

The descendants of Jacob in slavery
A people gathered for our God's name
Enduring oppression with their bravery
God delivered them with His fame

A man who was raised in a palace
Moses the Hebrew who was meek
His vocals to speak to the callous
Moses and Aaron they were unique

With God's fear inspiring mighty hand
They embarked to the promised land

**The power of our Father's mighty hand
Delivering his people to a promised land
He is unstoppable and unshakeable
Nothing to stop our Father's ways
The power of our Father's mighty hand
He always achieves what He demands
He is inevitable, an unfailing force
What comes to be is what He says**

A sojourn through a wilderness bleak
God never fails to strengthen the meek
Providing His people with their needs
The deliverance of Abraham's vital seed

We have confidence in our God's hand
He proves to deliver what he commands

**The power of our Father's mighty hand
Delivering his people to a promised land
He is unstoppable and unshakeable
Nothing to stop our Father's ways
The power of our Father's mighty hand
He always achieves what He demands
He is inevitable, an unfailing force
What comes to be is what He says**

Instrumental

With God's fear inspiring mighty hand
They embarked to the promised land

**The power of our Father's mighty hand
Delivering his people to a promised land
He is unstoppable and unshakeable
Nothing to stop our Father's ways
The power of our Father's mighty hand
He always achieves what He demands
He is inevitable, an unfailing force
What comes to be is what He says**

**Our confidence is in all His promises
The power of our Father's mighty hand**

7 The True Way is Written in Stone

A song about the ten commandments and how we apply them today.

In our heart there is no other one
Who we can worship every day
There's no other idols we idolise
No other gods against your face

Never take your holy name in vain
We use it in reverence every day
Resting often to reflect upon you
So that our spiritual heart is true

Your good standards we strive to do
Happy are the ones applying them too

**The true way is written in stone
There for generations to know
Happy are the ones who obey
The true way is written in stone
Today we make them our own
We benefit each and every day**

Honouring the parents of our birth
Life the most precious thing on earth
Our marital mate is the only one
Like one set of words to a song

In this life there's nothing to steal
When the true way is what's real

Honesty is in all we do and say
And our desires will never stray

Your good standards keeps us safe
So we can live forever day after day

**The true way is written in stone
There for generations to know
Happy are the ones who obey
The true way is written in stone
Today we make them our own
We benefit each and every day**

Instrumental

Your good standards we strive to do
Happy are the ones applying them too

**The true way is written in stone
There for generations to know
Happy are the ones who obey
The true way is written in stone
Today we make them our own
We benefit each and every day**

The true way is written in stone

A song about how sin and death spread to all men.

Our heavenly Father is holy and true
And He is perfectly just in every way
When disobedience entered the world
Growing old in death entered the day

Our imperfect human parents of old
Our conduct are sins still to be told
Yes we want to do right in our time
But our hearts always fell out of line

Satan's rebellion is paving the way
For the heart of mankind to fall away

**Grown in the garden are souls that die
Future generations left to wonder why
Your word had the answer deep inside
One rule broken and the world defied
One rule broken and the world defied**

Satan misled the many demons above
Thrown to the earth with their hate
They persecuted the ones God loves
Chaos on the earth they now create

They manipulate the ones in power
To oppress the lowly and the meek
Severing humans from the true God

False religion sour the God they seek

Contained in your word is your voice
Rescuing the ones in your name rejoice

**Grown in the garden are souls that die
Future generations left to wonder why
Your word had the answer deep inside
One rule broken and the world defied
One rule broken and the world defied**

Instrumental

Satan's rebellion is paving the way
For the heart of mankind to fall away

**Grown in the garden are souls that die
Future generations left to wonder why
Your word had the answer deep inside
One rule broken and the world defied
One rule broken and the world defied**

**Grown in the garden are souls that die
One rule broken and the world defied**

9 Immanuel Reveals God is With Us

A song about the birth and death of Jesus who surrounded his life for God's people.

With a people living in fatal danger
Unable to redeem their lifeless soul
The perfect ransom from a stranger
Lived on earth with a life saving goal

A message of love from our Father
The sacrifice of His firstborn son
Redeeming us from a sinful nature
His perfect sacrifice the battle won

Every soul on earth owes his life
To the one who made the sacrifice

**Immanuel reveals God is with us
The ransom sacrifice for us all
The way to life is forever near us
For those who hear Jesus call
Immanuel reveals God is with us
Giving us the way to eternal life
A kingship to willingly guide us
The one who made the sacrifice**

A ransom made eternal life forever
He's paving the way for all eternity
Creating a people his endeavour
A great crowd to worship eternally

Teaches God's people in his speech
Guiding a world that spins beneath
With his eyes constantly upon us

Saving those who came to believe

Everyone alive owes appreciation
Saving the souls from many nations

**Immanuel reveals God is with us
The ransom sacrifice for us all
The way to life is forever near us
For those who hear Jesus call
Immanuel reveals God is with us
Giving us the way to eternal life
A kingship to willingly guide us
The one who made the sacrifice**

Instrumental

Every soul on earth owes his life
To the one who made the sacrifice

**Immanuel reveals God is with us
The ransom sacrifice for us all
The way to life is forever near us
For those who hear Jesus call
Immanuel reveals God is with us
Giving us the way to eternal life
A kingship to willingly guide us
The one who made the sacrifice**

Immanuel reveals God is with us

A song about the earthly ministry of Jesus Christ and his disciples.

From prophecies that were foretold
 Came the firstborn son from long ago
 Reflecting his Father's light so bright
 Drawing attention of those in the night

There were no shepherds for the flock
 Jesus taught the droves that were lost
 How the blind ones would come to see
 Jesus paved the way for their eternity

Jesus healed the meek ones in blindness
 Revealed his compassion and his kindness

**He is the master worker for the earth
 Saving the meek who came and heard
 Teaching joyful truths from God's word
 The kingdom message was his concern
 He is the master worker for the earth
 Our trust in him can never be reversed
 How we waited patiently for his return
 He is the master worker for the earth**

He sought the apostles and they came
 They forged a people for God's name
 Enthused by the good news they teach
 Not needing encouragement to preach

His actions foreshadowed his kingdom
 They fell asleep and Jesus raised them
 Revealing wisdom in their weaknesses

Healing the faithful of their sicknesses

Jesus set the example for compassion
 Showed the poor mercy was his passion

**He is the master worker for the earth
 Saving the meek who came and heard
 Teaching joyful truths from God's word
 The kingdom message was his concern
 He is the master worker for the earth
 Our trust in him can never be reversed
 How we waited patiently for his return
 He is the master worker for the earth**

Instrumental

Jesus healed the meek ones in blindness
 Revealed his compassion and his kindness

**He is the master worker for the earth
 Saving the meek who came and heard
 Teaching joyful truths from God's word
 The kingdom message was his concern
 He is the master worker for the earth
 Our trust in him can never be reversed
 How we waited patiently for his return
 He is the master worker for the earth**

The master worker for the earth

11 Your Act of Love Was Bittersweet

A song about Christ's Sacrifice for rescuing Mankind from sin and death.

Every era exposes your purpose
Your certain motive for the earth
Following the ancestors of Jesus
That led to his his human birth

Undoing what Satan had done
Thus bringing life to everyone
Every human heart with faith
Are rewards of the battle won

**Your act of love was bittersweet
Christ brings death to its defeat
His sacrifice provides our release
His perfect life now paves the way
For man to live out eternal days
Your act of love was bittersweet
Our love for him will never cease**

Every soul that lives on the earth
Appreciates the ransom's worth
His act of love with self sacrifice
An act of love that is magnified

Provides a key to unlock the door
And we can stand forever more
Our works cannot be condoned
But His forever mercy was shown

**Your act of love was bittersweet
Christ brings death to its defeat
His sacrifice provides our release
His perfect life now paves the way
For man to live out eternal days
Your act of love was bittersweet
Our love for him will never cease**

Instrumental

His sacrifice a shine in our eyes
With eternal love that he provides
Removing the sleep in our night
So that eternal life is our delight

**Your act of love was bittersweet
Christ brings death to its defeat
His sacrifice provides our release
His perfect life now paves the way
For man to live out eternal days
Your act of love was bittersweet
Our love for him will never cease**

**Our love for him will never cease
His act of love was bittersweet**

A song about the apostles preaching good news to the ends of the earth.

Jesus taught his disciples what to say
 So his Kingdom is known day to day
 Cleansing the earth from moral decay
 Bringing God's holy ways
 To remain forever always

He instructed his disciples what to do
 The commandments to see them through
 To forge a people for an earth that's new
 Living in His ways aright
 Bringing the way to life

To preach and teach was there drive
 A select people opening the gates to life

Preaching to the ends of the earth
Declaring the kingdom good news
The way to life they also learned
Drawing souls to a world that's new
Teaching the ways they observe
Preaching to the ends of the earth
Preaching to the ends of the earth

In the times without the word of God
 They declared kingdom news beyond
 Helping those who came to respond
 They would teach the way
 Promised the best of days

Bringing hope to the lowly and poor
 Directing God's people to the door

Placing the kingdom first and before
 They were always shod
 With the words of God

To preach and teach was an endeavour
 To discover a people to live forever and ever

Preaching to the ends of the earth
Declaring the kingdom good news
The way to life they also learned
Drawing souls to a world that's new
Teaching the ways they observe
Preaching to the ends of the earth
Preaching to the ends of the earth

Instrumental

To preach and teach was there drive
 A select people opening the gates to life

Preaching to the ends of the earth
Declaring the kingdom good news
The way to life they also learned
Drawing souls to a world that's new
Teaching the ways they observe
Preaching to the ends of the earth
Preaching to the ends of the earth

They taught us the ways for all days
Preaching to the ends of the earth

A song about God's spirit empowering his people during the last days.

His spirit poured upon his people
During last days of Satan's world
Like the compass with a needle
Now guided by our Father's word

The peace of our God is with us
During wickedness of the earth
Faith in the God that we trust
Waiting for the redeemers return

During the last days of adversity
We know our life is for an eternity

**In the last days of the darkest time
We can feel God's peace within us
God's ways the world has declined
In our heart God's word we do trust
In the last days of the darkest time
Satan's anger will flare beside us
And God's promises are our spine
Making us steadfast and robust**

The last days of a satanic anger
Man came to ruin his perfect home
Threw the stability of God's anchor
Turbulent waters he began to roam

Disharmony amongst the nations
Consequences always remained
Failed to turn to God's education
The love of God they turned away

As God's spirit never sailed away
The peace was there day after day

**In the last days of the darkest time
We can feel God's peace within us
God's ways the world has declined
In our heart God's word we do trust
In the last days of the darkest time
Satan's anger will flare beside us
And God's promises are our spine
Making us steadfast and robust**

Instrumental

During the last days of adversity
We know our life is for an eternity

**In the last days of the darkest time
We can feel God's peace within us
God's ways the world has declined
In our heart God's word we do trust
In the last days of the darkest time
Satan's anger will flare beside us
And God's promises are our spine
Making us steadfast and robust**

**We could stand steadfast firm in mind
In the last days of the darkest time**

A song about Christ's arrival and the separation of the sheep and the goats.

In the dramatic words of the Bible
Forewarned a coming day of trouble
A tribulation that is beyond compare
Bringing a time of both joy and despair

On the very last day our King arrived
Saving God's people so they survive
He came to burn the chaff in the fire
Earth stands with those God desires

And we prayed for, and hoped for
Waited for the day earth is restored

**After the storm of great measure
The righteous will stand forever
Jesus came forming a world anew
To worship our God who's true
After the storm of great measure
The righteous will stand forever**

At the time when our Christ arrived
Those resurrected either lived or died
Separated by angels from the heights
Eternity for those in the book of life

And we prayed for, and hoped for
For Satan and his seed to be no more

**After the storm of great measure
The righteous will stand forever
Jesus came forming a world anew
To worship our God who's true
After the storm of great measure
The righteous will stand forever**

Instrumental

And we prayed for, and hoped for
Waited for the day earth is restored

**After the storm of great measure
The righteous will stand forever
Jesus came forming a world anew
To worship our God who's true
After the storm of great measure
The righteous will stand forever**

**No wicked with their endeavours
The righteous will stand forever**

15 The Smiles on the Earth (Are Forever More)

A song about the blessings of Kingdom governance under the care of King Jesus.

Under the care of our reigning king
Many blessings Christ Jesus brings
Experiencing pain will be no more
Fear of death behind closed doors

Love inside the heart will now spring
The fountain of waters we will drink
The abundance of food all can enjoy
Everyone will listen to God's voice

The melody of life every soul will sing
Joy is the sound in the world he brings

**The smiles on the earth are forever more
With the new world that is now restored
And everyone taking life's waters free
Living together under our God's security
The smiles on the earth are forever more
Now gone the days we endured before
Enjoying a kingdom that brings us peace
Every day our happiness has increased**

With his perfect peace and security
There's no room for pain and injury
No more hearing the saddened cry
Sickness and death has now died

Deathly curse of sin has now gone
A sound of perfection in everyone
The colours of the earth we will see

Admiring a paradise for all eternity

The melody of life found in our joy
Happiness is now found in our voice

**The smiles on the earth are forever more
With the new world that is now restored
And everyone taking life's waters free
Living together under our God's security
The smiles on the earth are forever more
Now gone the days we endured before
Enjoying a kingdom that brings us peace
Every day our happiness has increased**

Instrumental

The melody of life every soul will sing
Joy is the sound in the world he brings

**The smiles on the earth are forever more
With the new world that is now restored
And everyone taking life's waters free
Living together under our God's security
The smiles on the earth are forever more
Now gone the days we endured before
Enjoying a kingdom that brings us peace
Every day our happiness has increased**

Every day our happiness has increased

A song about the end of the thousand years of restoration under Jesus Christ.

At the end of Jesus peaceful reign
A thousand years but never aged
God's people in a land now secure
Living so joyfully and forever more

Handing the kingdom to our God
Now we reside in a land restored
Far from a calamity Satan caused
That brought a world without law

A thousand years of Kingdom perfection
Living in security under God's direction

**God's victory is the battle won
Now the restoration is now done
Eternal youth in an eternal world
Perfect jewel is the earth in pearl
God's victory is the battle won
Against an enemy and his throng
In chaff's fires the chaff destroyed
Creation is forever now overjoyed**

In the release of the land of Gog
They gather them against our God
To mislead secure people is his goal
Our Father's kingdom still in control

Fire is the substance that will purge
A land of clean people will emerge
The wicked now gone forever more
Locked away behind a secure door

A thousand years of peace and security
Everyone enjoying God's world of purity

**God's victory is the battle won
Now the restoration is now done
Eternal youth in an eternal world
Perfect jewel is the earth in pearl
God's victory is the battle won
Against an enemy and his throng
In chaff's fires the chaff destroyed
Creation is forever now overjoyed**

Instrumental

A thousand years of Kingdom perfection
Living in security under God's direction

**God's victory is the battle won
Now the restoration is now done
Eternal youth in an eternal world
Perfect jewel is the earth in pearl
God's victory is the battle won
Against an enemy and his throng
In chaff's fires the chaff destroyed
Creation is forever now overjoyed**

**We made no mistake trusting God's son
Because God's victory is the battle won**
